DISCUSSION: Amanda Simpson spoke regarding abatements and supplements for the year 2003 and 2004. She said there were several because of a decision to bring the changes as a whole instead of piecemeal. She recommended a supplemental tax commitment to cover items found in tax year 2003 which were not originally included. There was discussion of how the original owner may be forced to pay the supplemental taxes, which are now in someone else’s name. Ms. Simpson felt that the original owner should have realized that the house was not included in the 2003 tax bill.

She added that the first round of assessing is complete and call backs are beginning shortly with approximately 970 letters mailed asking for appointments with the landowners.

5. Old (unfinished) business.

a. Raymond International Support Effort – R.I.S.E. – Request for Selectmen letter of support.

DISCUSSION: Mr. Willard announced that Mrs. Hirsch couldn't be here but said that she has asked for a letter of support to be publicized in the March Roadrunner to encourage the people of Raymond to donate. They have

selected a project which will pay for the replacement of houses in disaster areas.

MOTION: Mike Reynolds motioned to not write a letter of endorsement for this cause. Seconded by Ada Brown.

DISCUSSION: Mr. Reynolds said that he thought this would be a slippery slope as a board. He said that he might have a different personal opinion on this endeavor but felt that allowing the signs to be erected and helping in that way would be prudent. He didn't think that this fund raising drive directly benefits the people of Raymond and therefore should not be endorsed by a municipal body like the Selectmen. Mr. Gendron thought it was a good idea personally. Mrs. McClellan agreed that it should be a work on its own without the endorsement of the Board of Selectmen. Mr. Willard said that their space on the reader board would be to inform the dates of their meetings and not a plea for donations.

VOTE: 4 in favor (McClellan, Brown, McDermott, Reynolds) 1 abstention (Gendron)

b. Bid Award – Replacement Ambulance for Rescue 2 – Fire Chief Denis Morse.

DISCUSSION: Deputy Chief Tupper reviewed the process over the past six months. E1, Pierce, Autotronics, PL Customs were the four companies looked at. He wanted to have a demo, which would meet our budget. This unit is a heavier model than what we've had in the past but is very comfortable and the turning radius is better than our other ambulance. He noted that it had an automatic 8 inch dropdown in rear to help load a patient. The price of \$140,000 includes two stretchers and some other options such as instant chains on tires, and an automatic drop down for the oxygen bottle which is very heavy. He noted that it has about 4,000 miles on it. He believed that this will work for many years to come along with a 36,000 mile warranty as well as an extension of the warranty to six years at a cost of \$2,800 which they thought was prudent to purchase. Mr. Willard explained that it had an Allison transmission and a Duramax diesel engine. Mr. Gendron said that this should be a good solution because it should last more than ten years. The old unit will stay on as a substitute unit. He estimated that the drop down lift airbags might have to be replaced eventually because of road salt. A future ambulance might be able to be an even heavier truck which would last longer because of future changes to be made to make a heavier truck more useable in our area.

MOTION: Mark Gendron motioned to purchase the 2004 Autotronics demo ambulance unit with 4000 miles on it. Seconded by Christine McClellan.

VOTE: Unanimous 5-0
