A subsurface wastewater disposal system may not be installed until a permit is issued by the Local Plumbing Inspector. The permit authorizes the owner or installer to install the disposal system in accordance with this application and the Maine Subsurface Wastewater Disposal Rules.

**CAUTION: INSPECTION REQUIRED**
I have inspected the installation authorized above and found it to be in compliance with the Subsurface Wastewater Disposal Rules Application.

**I certify that the information submitted is correct to the best of my knowledge and understand that any falsification is reason for the Department and/or Local Plumbing Inspector(s) to deny a permit.**

**IMPORTANT:**
This subsurface wastewater disposal system component permit application is intended for a **single replacement tank only**. Applications for all other disposal system configurations and components must be completed on the standard HHE-200. This permit application should not be used in conjunction with a standard HHE-200; if a replacement tank is required as part of a larger disposal system design, it must be incorporated in a design detailed on a standard HHE-200.
