Dear Raymond planning board,

I'm writing this letter as a formal request to change some of the underground power on our approved subdivision at Tenny Hill Estates to poles and overhead wire. We had some complications beyond our control such as ledge, CMP requirements and so on. We were able to get underground up Lilac lane which I believe is the most important part. Since there are already poles all the way up Tenny Hill extension, we are requesting permission to continue those up that road two or three more poles and then go underground from there on in, if feasible. Thanks for your time and consideration.

Sincerely yours,

Derek Ray
