INTEROFFICE MEMORANDUM

TO: RAYMOND BOARD OF ASSESSORS
FROM: CURT LEBEL, ASSESSORS AGENT
SUBJECT: TAX ABATEMENTS/SUPPLEMENTAL ASSESSMENTS
DATE: 4/7/13
CC:

Dear Board Members,

Attached please find a package of tax abatements which have been reviewed by my office and are recommended for consideration at your April 16, 2013 meeting. The abatements are very administrative in nature and range from lot size corrections, to homestead exemption omission and some personal property accounts which were assessed in error due to the Town’s renewed use of the Vision assessing software for personal property. These types of personal property issues were expected as the Town continues to improve the overall accuracy and performance of the assessing and billing software and should drop off in 2013.

In addition I have a package of supplemental assessments for the Board to consider. These assessments are penalties related to the State use program, Tree Growth. Maine law requires landowners enrolled in Tree Growth to renew their certifications every 10 years. Prior to this year, landowners who failed to renew were removed from the program and assessed a withdrawal penalty, which is generally very punitive. Beginning this year, with legislative changes, assessors are directed to levy a $500 penalty for failure to renew after minimum notice of 120 days is given. The landowner will then have an additional 6 months to renew or will face another $500 levy and another 6
months. Following these two, intermediate attempts the parcels will be removed from Tree Growth.

The Properties listed in the supplemental warrant, have been issued a notice by certified mail on November 16, 2012 of their requirement to renew by March 15, 2013. The properties listed have failed to comply and therefore must be assessed a $500 penalty, which will give them 6 more months to comply, before facing another $500 penalty.

Sincerely,

Curt Lebel
Assessors Agent, Town of Raymond

RE: HOMESTEAD EXEMPTION

Dear Ms. Fearon:

I discussed with Curt Label the status of your Homestead Exemption. Mr. Label indicated that since the deed did not contain information about the trust he took it to be an outright transfer. I informed him that you retained the beneficial interest in the property as well as the right to terminate the trust during your lifetime.

Mr. Label indicated that it would be necessary for you to file for abatement. I have taken the liberty of preparing the form on your behalf. Please sign and date the enclosed form and file it, together with the enclosed copy of the Trust with the Town of Raymond. This must be done prior to March 1, 2013 in order to qualify for abatement for this year.

If you have any questions please do not hesitate to call.

Sincerely,

ROBERT M. NEAULT, ESQ.

RE: Abatement request lots 15-91

Curt:

As requested, I have enclosed the requested tree growth applications for the two lots with questioned acreage: 15-91 and 15-91-5. The acreage on these applications should match up to the LSI survey maps you have on file from the approved subdivision. If they don't, please let me know ASAP.

I believe that we have been over taxed on the tree growth parcel (15-91) from the time that the subdivision was approved until now. I believe we should have been taxed for acreage of 115.58 instead of 123. I am requesting a small abatement for the excess payments on 7.42 acres from the time the subdivision was approved until now. Let me know if this seems to make sense to you.

Thanks for your time and help on this matter!

Cc: Tax Collector
§581. Withdrawal

1. Assessor determination; owner request. If the assessor determines that land subject to this subchapter no longer meets the requirements of this subchapter, the assessor must withdraw the land from taxation under this subchapter. An owner of land subject to taxation under this subchapter may at any time request withdrawal of that land from taxation under this subchapter by certifying in writing to the assessor that the land is no longer to be classified under this subchapter.

[ 2009, c. 577, §1 (AMD) .]

1-A. Notice of compliance. No earlier than 185 days prior to a deadline established by section 574-B, if the landowner has not yet complied with the requirements of that section, the assessor must provide the landowner with written notice by certified mail informing the landowner of the statutory requirements that need to be met to comply with section 574-B and the date of the deadline for compliance or by which the parcel may be transferred to open space classification pursuant to subchapter 10. The notice must also state that if the owner fails to meet the deadline for complying with section 574-B or transferring the parcel to open space classification, a supplemental assessment of $500 will be assessed and that continued noncompliance will lead to a subsequent supplemental assessment of $500. If the notice is issued less than 120 days before the deadline, the owner has 120 days from the date of the notice to provide the assessor with the documentation to achieve compliance with section 574-B or transfer the parcel to open space classification, and the notice must specify the date by which the owner must comply.

If the landowner fails to provide the assessor with the documentation to achieve compliance with section 574-B or transfer the parcel to open space classification pursuant to subchapter 10 by the deadline specified in the notice, the assessor shall impose a $500 penalty to be assessed and collected as a supplemental assessment in accordance with section 713-B. The assessor shall send notification of the supplemental assessment by certified mail and notify the landowner that, no later than 6 months from the date of the 2nd notice, the landowner must comply with the requirements of section 574-B or transfer the parcel to open space classification pursuant to subchapter 10 and that failure to comply will result in an additional supplemental assessment of $500 and the landowner will have an additional 6-month period in which to comply with these requirements before the
withdrawal of the parcel and the assessment of substantial financial penalties against the landowner.

At the expiration of 6 months, if the landowner has not complied with section 574-B or transferred the parcel to open space classification under subchapter 10, the assessor shall assess an additional $500 supplemental assessment. The assessor shall send notification of the 2nd supplemental assessment by certified mail and notify the landowner that, no later than 6 months from the date of the notice, the landowner must comply with the requirements of section 574-B or transfer the parcel to open space classification pursuant to subchapter 10 or the land will be withdrawn from the tree growth tax program.

If the landowner has not complied within 6 months from the date of the 2nd supplemental assessment, the assessor shall remove the parcel from taxation under this subchapter and assess a penalty for the parcel's withdrawal pursuant to subsection 3.

This subsection does not limit the assessor from issuing other notices or compliance reminders to property owners at any time in addition to the notice required by this subsection.

[ 2011, c. 618, §4 (AMD) .]

2. Withdrawal of portion. In the case of withdrawal of a portion of a parcel, the owner, as a condition of withdrawal, shall file with the assessor a plan showing the area withdrawn and the area remaining subject to taxation under this subchapter. In the case of withdrawal of a portion of a parcel, the resulting portions must be treated after the withdrawal as separate parcels under section 708.

[ 2007, c. 627, §16 (RPR) .]

3. Penalty. If land is withdrawn from taxation under this subchapter, the assessor shall impose a penalty upon the owner. The penalty is the greater of:

A. An amount equal to the taxes that would have been assessed on the first day of April for the 5 tax years, or any lesser number of tax years starting with the year in which the land was first classified, preceding the withdrawal had that land been assessed in each of those years at its just value on the date of withdrawal. That amount must be reduced by all taxes paid on that land over the preceding 5 years, or any lesser number of tax years starting with the year in which the land was first classified, and increased by interest at the prevailing municipal rate from the date or dates on which those amounts would have been payable; and [2007, c. 627, §16 (RPR).]

B. An amount computed by multiplying the amount, if any, by which the just value of the land on the date of withdrawal exceeds the 100% valuation of the land pursuant to this subchapter on the preceding April 1st by the following rates.

(1) If the land was subject to valuation under this subchapter for 10 years or less prior to the date of
withdrawal, the rate is 30%.

(2) If the land was subject to valuation under this subchapter for more than 10 years prior to the date of withdrawal, the rate is that percentage obtained by subtracting 1% from 30% for each full year beyond 10 years that the land was subject to valuation under this subchapter prior to the date of withdrawal, except that the minimum rate is 20%. [2007, c. 627, §16 (RPR).]

For purposes of this subsection, just value at the time of withdrawal is the assessed just value of comparable property in the municipality adjusted by the municipality's certified assessment ratio.

[ 2007, c. 627, §16 (RPR) .]

4. Assessment and collection of penalties. The penalties for withdrawal under this section must be paid upon withdrawal to the tax collector as additional property taxes. Penalties may be assessed and collected as supplemental assessments in accordance with section 713-B.

[ 2007, c. 627, §16 (RPR) .]

5. Eminent domain. A penalty may not be assessed under this section for a withdrawal occasioned by a transfer to an entity holding the power of eminent domain if the transfer results from the exercise or threatened exercise of that power.

[ 2007, c. 627, §16 (RPR) .]

6. Relief from requirements. Upon withdrawal under this section, the land is relieved of the requirements of this subchapter immediately and is returned to taxation under chapter 105, subchapter 2 beginning the following April 1st.

[ 2007, c. 627, §16 (RPR) .]

7. Reclassification as farmland or open space land. A penalty may not be assessed upon the withdrawal of land from taxation under this subchapter if the owner applies for classification of that land as farmland or open space land under subchapter 10 and that application is accepted. If a penalty is later assessed under section 1112, the period of time that the land was taxed as forest land under this subchapter is included for purposes of establishing the amount of the penalty.

[ 2007, c. 627, §16 (RPR) .]

8. Report of penalty. A municipality that receives a penalty for the withdrawal of land from taxation under this subchapter must report the total amount received in that reporting year to the State Tax Assessor on the municipal valuation return form described in section 383.

[ 2007, c. 627, §16 (RPR) .]

Dear Mr. Chase,

Maine Law states that for a parcel of land to remain in the Tree Growth Program, the landowner must submit a statement every ten (10) years from a licensed professional forester stating that the landowner has managed the parcel in accordance with the forest management and harvest plan and that a forest management and harvest plan is in place for at least the next ten (10) years (36 MRSA §574-B(2)). Additionally, the landowner must provide an attestation that the landowner’s primary use for the Tree Growth classified portion of the parcel is to grow trees to be harvested for commercial use pursuant to §547-B(4).

Our records indicate that your parcel of land located at Tax Map 016 Lot 098 in Raymond Maine is currently enrolled in the Tree Growth Tax Law Program and that the forester’s statement of compliance together with the landowner’s attestation are now due.

Pursuant to Title 36 MRSA §581(1-A), you are hereby notified of your requirement to provide the forester’s statement of compliance together with the landowner’s attestation for the above named parcel. Failure to comply within 120 days of this notice will result in a supplemental assessment of $500. Your forest land will continue to be classified in the Tree Growth Program, however continued non-compliance will result in an additional $500 penalty.

To prevent a $500 supplemental assessment from being assessed, you must either:

A. Comply with the recertification requirements of 36 MRSA §574-B(2) & (4) stated above; or
B. Transfer your parcel to the Open Space classification.

You must do one of the above prior to March 15, 2013

If you are unclear of the requirements mentioned above, please contact me at (207) 655-4742.

Sincerely,

NOTE: Landowners should pay particular attention to the provisions of 36 M.R.S.A., section 581 which provides for a substantial penalty upon the landowner for a change in use of forest land classified under the Tree Growth Tax Law.
Good morning, Danielle – I attach the proposed final version of the Crown easement for the Patricia Avenue Extension cell tower site together with a “redline” version showing all changes that have been negotiated versus the original form offered by Crown, and will provide a brief summary below of the final document and the edits resulting from negotiations with Crown. As now drafted with all changes accepted, I recommend that the Town accept the easement.

The attached document is designed to replace the existing lease at the site with a permanent easement to Crown in exchange for a one-time payment of $900,000 from Crown to the Town of Raymond. You may note that the document is entitled as a “Grant of Easement and Assignment of Lease,” since there is a provision in the document by which the Town’s current (landlord) interest under the lease is assigned to the grantee of the easement, a Crown-controlled entity called Global Signal Acquisitions IV, LLC. The tenant under the lease is a different entity, and Crown is keeping the lease alive and technically on the books, so to speak, between its own related and controlled landlord and tenant “in-house” entities. There are a number of accounting and legal reasons why Crown might choose to do this, none of which matter at all from the Town’s perspective. As far as the Town is concerned, the grant of easement to give Crown control of the site for tower purposes is the end of the Town’s involvement as a landlord, and the site is being functionally turned over to Crown on a permanent basis (with limited exceptions) for Crown’s own use as a tower site.

The main focus of the efforts in negotiations with Crown over the easement document were to conform the provisions of their typical easement with the unique situation presented by having a municipality as the grantor of the rights. Crown’s original document reflected the more typical situation of having a private party grantor and large portions of it were legally inapplicable to the Town of Raymond. For example, numerous changes throughout the document were required to make sure that the Town’s agreement to the easement did not modify or in any way effect the Town’s role in issuing or enforcing permits and land use regulations against Crown, including application of the Town’s existing tower ordinance (see changes to Sections 3, 5, 8, 10, and 21), and the allocation and/or collection of real and personal property taxes (Section 12). In addition, modifications to the form were made to ensure that the Town’s liability remains subject to the provisions of the Maine Tort Claims Act (Section 17), and that the Town would not be obligated to provide any title covenants or unnecessary representations and promises about the adequacy of the site (Sections 2, 6, and 18).

The remaining substantive changes are centered around the concept of having the easement revert to the Town if, at some future point, Crown or any successor of Crown ceases to operate the site as a communications tower and abandons it (Section 31). The settling point for that was that if Crown ceases to use the site for 5 years, the Town may commence a process to reclaim it. This guards against the long-term future obsolescence of tower-based communications technology.
Minor changes were also negotiated to assist the Town in the unlikely event that the Town is in default of its very limited obligations under the easement by softening the risk of default and extending the ability on the Town’s part to cure any performance defaults that do occur (Section 14). Note, however, that the Town does not have material performance obligations under the easement, and its performance can mostly be thought of as a duty not to unreasonably interfere with or illegally disrupt the easement (Sections 19 and 21). These are actually obligations that the Town has anyway under background Maine common law and the drafting of these obligations in the document does not create any new legal burden that the Town would not already have under any easement.

In reviewing our invoices, my time on this file amounted to 16.7 hours from 3/1/12 through today (not, however, including this email), for a total amount worked of $4,153.50. This does not include other timekeepers who may have added slightly to that figure as Shana Cook Mueller and/or Phil Saucier worked with you on the warrant language or other items.

If you need any additional summary or details please let me know.

Regards,

-Pete

Any such sale, assignment, lease, license, conveyance, sub-easement or encumbrance shall be binding upon the successors, assigns, heirs and legal representatives of the respective parties hereto. An assignment of this Easement shall be effective upon GSA IV sending written notice thereof to Grantor at Grantor's mailing address stated above and shall relieve GSA IV from any further liability or obligation accruing hereunder on or after the date of the assignment. Attempted assignments in violation of this section shall be void and of no effect.

This Easement shall be subordinate to any mortgage given by Grantor which currently encumbers Grantor’s Property including the Easement Area, provided that any mortgagee holding such a mortgage shall recognize the validity of this Easement in the event of foreclosure of Grantor's interest and GSA IV's rights under this Easement. In the event that the Easement Area is or shall be encumbered by such a mortgage, Grantor shall obtain and furnish to GSA IV a non-disturbance agreement for each such mortgage, in recordable form.

ARTICLE 1: To elect a moderator to preside at said meeting.

ARTICLE 2: Shall Article 6, Section D of the Town of Raymond Land Use Ordinance, as adopted May 21, 1994 and amended through June 5, 2012, and Article 16, Section G of the Town of Raymond Shoreland Zoning Provisions be further amended by adding the underscored language and deleting the language in strikeover type as shown below?

Town of Raymond Land Use Ordinance
ARTICLE 6- BOARD OF APPEALS

D. Reductions from minimum setbacks

The Board of Appeals may grant reductions from the minimum setback requirements set forth in Article 4 of this Ordinance according to all of the following criteria:

2. Setback reduction appeals may only be granted and are only available for

a. Lots in existence as of 12/31/86; and
b. Lots with a residential dwelling as the principal structure.

Town of Raymond Shoreland Zoning Provisions
ARTICLE 16- ADMINISTRATION

G. Appeals

2. Variance Appeals- The Board of Appeals may grant reductions from the minimum setback requirements set forth in Section 15 (A) of these provisions according to all of the following criteria:

f. The Board of Appeals may grant reductions from the minimum setback requirements set forth in Section 15 (A) of these provisions according to all of the following criteria:
2) Setback reduction appeals may only be granted and are only available for
i. Lots in existence as of 12/31/86; and
ii. Lots with a residential dwelling as the principal structure.

Description: The Zoning Board of Appeals has requested that the December 31, 1986 condition for setback reductions be removed in order to allow setback reductions for all lots. The Town Attorney has researched the date and concluded that it was an arbitrary date and that removing it would not harm the integrity of the ordinances.

Key Changes:
• Remove 12/31/86 from both the Land Use Ordinance and the Shoreland Zoning Provisions, meaning that lots created after would qualify to apply for a setback reduction.

The Planning Board makes no recommendation.
The Selectmen make no recommendation.

ARTICLE 3: Shall Article 8B of the Town of Raymond Land Use Ordinance, as adopted May 21, 1994 and amended through June 5, 2012 be further amended by adding the underscored language and deleting the language in strikeover type as shown below?

Town of Raymond Land Use Ordinance
ARTICLE 8 – MODIFICATIONS
B. Net Residential Density Calculation

The total number of lots or dwelling units allowed on a tract or parcel of land shall be determined by dividing the area remaining after Net Residential Area deductions are made by the minimum lot size for the zoning district where the parcel or tract of land is located. The number shall be rounded down to the nearest whole number. [Amended 8/7/07]

Notwithstanding the above, the total number of lots or dwelling units allowed on a tract or parcel of land or a portion of a tract or parcel of land that was rezoned from the Limited Residential/Recreation District LRR1 to the Rural District R on June 1, 2010 shall be determined by dividing the area remaining after Net Residential Area deductions are made by two. The number shall be rounded down to the nearest whole number. A determination that land was within the Limited Residential/Recreation District LRR1 prior to June 1, 2010 shall be made by the Planning Board based on a survey plan provided by the property owner or development applicant prepared by a licensed surveyor which demonstrates that the land in question was within the Limited Residential/Recreation District LRR1 prior to being rezoned on June 1, 2010. At a minimum, the survey plan shall show 1) all streams, as defined in the Raymond Shoreland Zoning Ordinance prior to June 1, 2010 (“A perennial free-flowing body of water, other than a river, as depicted on the most recent edition of a United States Geological Survey 7.5-minute series topographic map, or if not available, a 15 minute series topographic map”) on the tract or parcel; and 2) all land areas within 100 feet, horizontal distance, of the normal high-water line of a stream. [Adopted 6/1/10]
Notwithstanding the above, if a lot, or a portion of a lot, was a lot of record prior to June 1, 2010, and as such that lot, or a portion of that lot, was rezoned from Limited Residential/Recreation District (LRR1) to Rural District (R), it shall be determined that the landowner(s) of record prior to June 1, 2010 shall maintain the lot area standards set forth in the LRR1 District as they existed prior to June 1, 2010, so long as the owner retains or divides the lot under the allowed subdivision exemptions standards as defined under Title 30-A Section 4401 of the Maine Revised Statutes Amended. A decision regarding whether the land was located within the LRR1 District prior to the June 1, 2010 amendment may be determined by the Code Enforcement Officer.

If there is a discrepancy regarding the zone boundary, or the existence of the lot prior to June 1, 2010 by the CEO, the CEO may request a plan prepared by a licensed surveyor that demonstrates that the land in question was within the LRR1 District prior to being rezoned on June 1, 2010.

At a minimum, the survey plan shall include:

1) All streams, as defined in the Raymond Shoreland Ordinance;

2) And all land areas within 100 feet, horizontal distance, of the normal highwater line of a stream.

Any further transference or creation of lots on the affect lots, meeting the definition of subdivision after June 1, 2010, must meet all the minimum standards of the Rural District.

Description: In June 2010, the Town passed an amendment to the Land Use Ordinance that officially established the new classification of Stream Protection District (SP). As a result of this change, some lots, or portions of lots, that were previously classified under Limited Residential Recreation 1 (LRR1) were reclassified as Rural (R). The Net Residential Density Calculation (Article 8B) in the Raymond Land Use Regulations allows for two-acre lots in the LRR1 District, and three-acre lots in the R Districts. Since the resulting density allowance for the newly reclassified parcels would become more restrictive, language was added in Article 8B that intended to “grandfather” lots affected in the district change. However, as an unintended consequence, the amendment only applies to applicants seeking a determination from the Planning Board, and does not apply to the subdivision of a single lot. Therefore, for the upcoming 2013 Town meeting, the Planning Board is proposing this language be redrafted to “grandfather” any legal subdivision of lots, if the lot was in existence and owned by the same landowner of record prior to June 1, 2010.

Key Changes:
• Paragraph regarding “grandfathered” lots has been redrafted to include subdivisions exempt from Planning Board approval.

The Planning Board makes no recommendation.
The Selectmen make no recommendation.

ARTICLE 4: Shall Article 9T and Article 12 of the Raymond Land Use Ordinance, as adopted May 21, 1994 and amended through June 5, 2012, and Article 3 of the Town of Raymond Subdivision Ordinance, as adopted May 21, 1994 and amended through June 7, 2011, be further amended by adding the underscored language and deleting the language in strikeover type as shown below?

[Note: The use of the word “Article” within the ordinance does not indicate a separate warrant article.]
Back lots may be developed for single-family residential use if they are served by a back lot driveway approved by the Planning Board (hereinafter the “Board”) Reviewing Authority pursuant to the following provisions:

Reviewing Authority. The Reviewing Authority is defined as the Code Enforcement Officer (CEO) or Planning Board. The CEO may grant permit approval under the provisions of this section, however Planning Board permit approval shall be required for any application seeking a waiver of any submission requirements or any criteria of this section which are allowed to be waived. The CEO may require that any application be reviewed for approval by the Planning Board if, in the opinion of the CEO, the staff review is unable to adequately resolve all relevant issues raised by the Back Lot Driveway application.

1. The back lot driveway must be located within a right-of-way with a minimum width of 50 feet. The Planning Board may approve a back lot driveway right-of-way with a minimum width of 40 feet if it determines that no alternative exists. The right of way must be conveyed by deed recorded in the Cumberland County Registry of Deeds to the owner of the back lot.

2. A legal description of the back lot right-of-way by metes and bounds shall be attached to any building permit application for construction on the back lot.

3. A back lot right-of-way shall be created only over a front lot that is conforming to public road street frontage requirements along a street that is and lot size consistent with Town construction and design standards for a public or private street. Lot dimensional size requirements shall be consistent with the Town of Raymond Land Use Ordinance at the time of creation of the right of way. That portion of the front lot within the right of way shall be considered part of the front lot for purposes of space and bulk regulations. The back lot right-of-way shall be considered the front of the lot for the purposes of determining the front setbacks for both the existing and newly created lot(s). Existing buildings on the front lot need only be set back from the right-of-way by a distance equivalent to the minimum side setback in the applicable zoning district. For front lots that are vacant on the effective date of this ordinance, access to future buildings on the front lot shall be from the right of way. For the purposes of this section, the portion of the back lot driveway within the back lot may not be used to satisfy the back lot’s minimum lot area requirement, and the applicable frontage requirement for the back lot shall be met by the portion of the back lot driveway within the back lot.

4. A back lot driveway shall originate from a street at a public road constructed in accordance with the Town of Raymond Street Ordinance standards for a public or private street. The back lot driveway design shall include a turnaround layout that meets the design standards in the Town of Raymond Street Ordinance and that will accommodate safe emergency vehicle access to the lot and shall provide any back lots on the back lot driveway with direct access to a public road. A private street shall meet the minimum private street standards for the section of road 300 feet on both sides of the intersection where the back lot driveway originates. The
Planning Board may waive this requirement to no less than 200 feet, if deemed adequate to maintain a safe site distance.

5. If the front lot is already developed, the existing driveway shall be relocated to the back lot right of way unless there exists a minimum of 100 feet between the existing driveway and the newly proposed right of way, or the Planning Board determines that such relocation is prohibited by site conditions or the orientation of existing buildings.

6. A back lot driveway shall serve no more than two back lots unless it is improved to meet the standards for private streets in Section 5.5 of the Raymond Street Ordinance. No more than one back lot served by the same back lot driveway shall be created during any 5-year period. In the event the creation of both back lots are not part of the same approved plan, prior to the creation of a second back lot, the applicant shall submit for review and approval a proposed revision of the back lot driveway plan previously approved by the Board Reviewing Authority and a plan for driveway maintenance as described in paragraph 7.

7. If more than one residence is to have access to the back lot driveway, the application shall include a plan setting forth how the street and associated drainage structures and required buffers and stormwater management facilities are to be maintained. Responsibility may be assigned to a lot owners association or to lot owners in common through provisions included in the deeds for all lots that will utilize the back lot driveway for access. The applicant shall submit appropriate legal documentation such as proposed homeowners association documents or proposed deed covenants for Board Reviewing Authority review. This documentation must address specific maintenance activities such as summer and winter maintenance, long-term improvements and emergency repairs and include a mechanism to generate funds to pay for such work.

8. No more than one back lot right-of-way may be created out of a single front lot unless each subsequent right-of-way is created out of at least an additional amount of frontage as required in the applicable zoning district. The entrances of such rights of way onto the public existing road shall be separated by a distance equivalent to at least the required frontage in the zoning district plus half the right of way width.

9. Each dwelling constructed on a back lot shall be set back at least 200 feet from public roads.

10. A back lot driveway must conform to the minimum sight distance of Section 5.8 of the Raymond Street Ordinance.

449. The back lot must comply with all space and bulk regulations in the applicable zoning district as well as the lot standards of Article 9, Section U of the Town of Raymond Land Use Ordinance.

4210. The minimum travel way width of a back lot driveway shall be 12 feet with 1 foot shoulders. The maximum grade shall be 12 percent, with a maximum grade of 3 percent for the first 50 feet. The minimum grade shall be 0.5%. The roadway crown shall be ¼” per one foot, except that the roadway crown shall be ½ ” per one foot for unpaved or gravel road surfaces. The minimum angle of the intersection of the back lot driveway with the roadway shall be 75 degrees.
All applications for a back lot driveway to be submitted for review by the Planning Reviewing Authority shall include the following information:

a. Names of applicants and owners of land for the location of the proposed back lot driveway.

b. A statement of any legal encumbrances on the land and a statement regarding any waivers requested for the location of the back lot driveway.

c. The anticipated starting and completion dates.

d. The plans shall be prepared by a registered land surveyor or engineer and shall include the following:
   
   i. Date, scale and magnetic or true north point.
   
   ii. Locations of all existing and proposed overhead and underground utilities including, but not limited to, water, sewer, electricity, telephone, fuel storage, lighting and cable television.
   
   iii. The plan shall include any back lots that are to be accessed by the proposed back lot driveway. Such lots shall conform to the requirements of Section U. and the plan shall include lot bearings, distances and proposed monumentation.
   
   iv. Plans shall include a plan view and typical cross-section of the proposed back lot driveway including a locus map with the locations of any streets or driveways located within 300 feet.
   
   v. Kind, size, location and material of all existing and proposed drainage structures and their location with respect to the existing natural waterways and proposed drainage ways. The Board may require that such drainage structures shall be designed and sized in accordance with a stormwater management plan prepared by a registered professional engineer in conformance with the requirements of Article 9, Section U.5 of the Town of Raymond Land Use Ordinance. If deemed appropriate by the Planning Board, an applicant may meet the requirements of the Point System by allowing the use of land on abutting lots with proof of easement and a legally binding agreement assigning specific maintenance duties and responsibilities.
   
   vi. A phosphorous impact plan in conformance with the requirements of Article 9, Section U.5. A phosphorous impact plan must be included in the application package in conformance with the requirements of Article 9, Section U. 5. of the Raymond Land Use Regulations for a back lot driveway entirely or partially located within 600 feet (horizontal distance) of the normal high water line of a great pond or river, 250 feet (horizontal distance) of the upland edge of a freshwater wetland, or 100 feet (horizontal distance) of the normal highwater line of a stream, unless otherwise triggered by State or Federal law.
   
   vii. A soil erosion and sedimentation control plan in conformance with the requirements of Article 9, Section U.6. of the Raymond Land Use Ordinance.
If the Board Reviewing Authority determines that due to site conditions, proximity of nearby uses, traffic conditions or similar circumstances that a public hearing is advisable, the CEO may refer the application to the Planning Board, which may schedule a public hearing at its next regularly scheduled meeting. The applicant shall submit plans and design information within at least twenty-one (21) days prior to a scheduled Planning Board hearing. The Board shall cause notice of the date, time and place of such hearing to be given to the applicant and all property owners abutting the proposed back lot driveway and lots that are to be accessed by the back lot driveway, to be published in a newspaper of general circulation in the Town of Raymond at least 7 days prior to the hearing.

The Board Reviewing Authority shall review the application and determine whether it complies with the requirements of this Section. The Board Reviewing Authority shall grant or deny approval on such terms and conditions, as it may deem advisable to satisfy all applicable ordinances. In all instances, the burden of proof shall rest upon the applicant. In issuing its decision, the Board Reviewing Authority shall make a written finding of fact establishing that the application does or does not meet the provisions of applicable ordinances. The Board Reviewing Authority shall sign the approved plan. The applicant must record the approval in the Cumberland County Registry of Deeds within 30 days of approval. If the applicant does not record the approval within 30 days of approval, then the approval becomes void unless the recording period is extended by the Board Reviewing Authority of good cause shown.

For front lots that are vacant on the effective date of this ordinance, access to future buildings on the front lot shall be from the back lot driveway right of way. For the purposes of this section, the portion of the back lot driveway within the back lot may not be used to satisfy the back lot’s minimum lot area requirement, and the applicable frontage requirement for the back lot shall be met by the portion of the back lot driveway within the back lot.

the amendments to allow sufficient time to consider the additional concerns raised for possible

Street. A public way which affords the principal means of access to abutting properties, or a proposed way that is intended to be accepted by the Town as a public way in accordance with this Ordinance, or a private street as defined in this Ordinance. The word “Street” means and includes such ways as alleys, avenues, boulevards, highways, roads, streets and other rights-of-way. The term “street” shall also apply to areas on subdivision plans designated as “streets”, etc.

Minor Street. A street designed to serve as primary residential access, and which meets the design standards for public streets in Section 5.5 of this Ordinance.

Private Street- A street designed to serve as primary access to two or more residential lots, which meets the design standards for private streets in Section 5.5 of this Ordinance. Appendix

The Planning Board recommends Article 5.
The Selectmen recommend Article 5.

Description: In an effort to improve consistency and efficiency among the ordinances, the Planning
Board has also reviewed the Back Lot section of the Street Ordinance. Application requirements, which are already located in the Land Use ordinance, are repeated in the Street Ordinance. These have been removed to reduce redundancy.

**Key Changes:**
- The term Reviewing Authority, and its definition were added.
- Definitions have been expanded and amended to be more consistent with the Land use Ordinance, and Subdivision Regulations.
- Application requirements have been incorporated to the appropriate sections of the Land Use Ordinance to avoid repetition or conflict among the ordinances.
- The definition for Portland Cement has been amended.
- A sketch of a back lot driveway terminus has been added.

**ARTICLE 6:** Shall Section 6.C and F, and Section 9 of the Town of Raymond Addressing Ordinance, as adopted March, 1997, be further amended by adding the underscored language and deleting the language in strikeover type as shown below?

**Town of Raymond Addressing Ordinance:**

**Section 6. Compliance:**

All owners of structures shall, by the date stipulated in Section 8, display and maintain in a conspicuous place on said structure, the assigned numbers in the following manner:

**C. Size and color of number:** Numbers shall be displayed in a color and size that can clearly be identified and shall be located to be visible from the road at least 3” in height, contrasting color to the background, and shall be located to be visible from the road on a permanent structure, post or mailbox. The number should be high enough so that snow does not obstruct it in the winter months.

**F. The Fire/Rescue Department shall receive notification from the Code Enforcement Officer whenever a Certificate of Occupancy is issued in the Town of Raymond.**

**Section 9. Violation and Enforcement:**

It is expected that this Ordinance will be complied with. If for any reason, a property owner or resident fails to comply with this Ordinance, they shall be deemed to have assumed the risk of not receiving emergency assistance at the same level of service had they met the requirements of this Ordinance.

**a. PENALTY FOR VIOLATION:** Any person who violates the provisions of this Ordinance after written notice of violation from the Code Enforcement Officer commits a civil violation punishable by a penalty of not less than $50.00/day and not more than $500.00 total to be recovered by the Town of Raymond. Each day such violation continues shall constitute a separate violation.

**b. ENFORCEMENT:** This Ordinance shall be enforced by the Town of Raymond Code Enforcement Officer. Fire/Rescue Department or Law Enforcement personnel shall forward any known violation of the Ordinance to the Code Enforcement Officer for enforcement in accordance with the requirements in this Ordinance.
c. CERTIFICATE OF OCCUPANCY: The Code Enforcement Officer shall not issue a Certificate of Occupancy until numbering is installed in accordance with the requirements set forth in this Ordinance.

Description: The Fire Department is seeking to improve public safety's response to calls by standardizing E911 house numbering through requiring a certain criteria for size, color, location and height for numbering. The proposed changes also gives the Code Enforcement Officer the authority to enforce violations as well as create a monetary penalty of $50.00/day and up to $500.00 total. These fines would only be imposed after the owner has received written notice(s) from the Fire Department and failed to make alternative arrangements with the Fire Chief. Also, by making these changes the Fire Department may become eligible for grant funding, which they were previously denied because of a “weak” Addressing Ordinance. It should also be noted that, presently, the Fire Department has a program where they supply and install house numbers for those who request it at no charge.

Key Changes:
- Standardize size, color, location and height of number.
- Requires the Code Enforcement Officer ensure that street numbering is satisfactory before issuing a Certificate of Occupancy.
- Requires written notification from Code Enforcement Officer of new Certificate of Occupancy.
- Establish penalties for violations at a minimum of $50.00/day and a maximum of $500.00 total.
- Gives the Code Enforcement Officer the authority to enforce violations because of the positions defined enforcement role under Rule 80K of Maine Rules of Civil Procedure.
- Requires the Code Enforcement Officer ensure that street numbering is satisfactory before issuing a Certificate of Occupancy.

The Planning Board makes no recommendation.
The Selectmen make no recommendation.

Section XIV. Effective Date:

This Ordinance shall become effective upon passage by the legislative body of the Town of Raymond at a duly called Town Meeting.

Description: The proposed changes are a housekeeping measure in order to clarify the application process. Primary significant changes to the ordinance include the Board of Selectmen having final

Key changes:

ARTICLE 4—DISTRICT REGULATIONS

H. Conditional Zoning Districts

1. Conditional Zoning District #1, Raymond Hill Wireless Communication Facility Conditional Zone—Conditional Zoning District #1, the Raymond Hill Wireless Communication Facility Conditional Zone, is created as shown on the Land Use Regulation Map. Conditional Zoning District #1 is subject to the regulations applicable in the Rural District (R), as modified by the Conditional Zoning Agreement between the Town of Raymond and Maine RSA #1, Inc., Michael Major and Mary Jean Major attached to this ordinance as Appendix B.

Appendix B

Conditional Zoning Agreement
Between
The Town of Raymond and Maine RSA #1, Inc., Michael Major and Mary Jean Major

This is a conditional zoning agreement made as of the day of______, 2011, by and between the Town of Raymond, a body corporate and politic, located in the County of Cumberland and the State of
Maine ("Town"), and Maine RSA #1, Inc., a Maine corporation ("Applicant"), and Michael Major and Mary Jean Major (collectively "Owners").

WHEREAS, Applicant, and/or its affiliates, proposes to construct a single Wireless Telecommunication Facility in the form of a monopole tower one hundred twenty-five feet (125') in height and supporting infrastructure, antennas, utilities, equipment shelter, backup power generator, propane tank, associated equipment and an access road from Valley Road within Owners’ property located at 19 Farm Road, Raymond, and identified on the Town Assessor’s records as Tax Map 13, Lot 51 ("Subject Property"); and

WHEREAS, Applicant intends to enter into a lease or other agreement with Owners which would grant Applicant the right to construct, operate and maintain a single Wireless Telecommunication Facility on the Subject Property; and

WHEREAS, the Subject Property is located in the Rural District (R) under the Town of Raymond Land Use Ordinance (the “Ordinance”); and

WHEREAS, the Ordinance provides that Wireless Telecommunication Facilities are an allowed use in the Rural Zoning District, may be constructed up to 75’ in height, with an additional 25’ for each co-locator, up to 125’, but are prohibited above 600’ ground level on Raymond Hill and cannot exceed 30’ in height above the existing mature tree line adjacent to the tower; and

WHEREAS, Applicant asserts the following reasons for the conditional rezoning:

• The Federal Communications Commission ("FCC") has issued Applicant a license to provide wireless service to Raymond and the surrounding areas. Applicants’ service objective in Raymond is to provide adequate coverage, capacity, and connectivity to areas near the village, Egypt Road, Panther Pond, and to northerly areas including Crescent Lake, Raymond Pond, and Route 85. Applicant is not currently providing adequate service to this area and has determined it requires at 125’ tall Wireless Telecommunication Facility at a 680’ ground elevation in order to do so.

• Applicant’s wireless technology requires a line of sight technology and its antennas cannot effectively operate if blocked by trees or topography. The Applicant has determined that the highest trees near the proposed Wireless Telecommunication Facility are currently 78’ tall. It is generally accepted that, in New England, oak trees are known to grow to 90’, maple trees to 75’, and pine trees, over 100’. Such trees may grow as much as 6” per year. Accordingly, the 75’ height restriction and the limitation to 30’ above the existing mature tree line would place Applicant’s antennas in existing tree canopy that will continue to grow taller to block signals to and from Applicant’s antennas.

• Locating a Wireless Telecommunication Facility below 600’ elevation on Raymond Hill would not provide connectivity with other Wireless Telecommunication Facilities in Applicant’s network. Potential sites to the north and east areas of Raymond Hill that may meet the ground elevation criteria would negatively impact Raymond Pond, be virtually impossible to construct due to topography, and have radio frequency connectivity issues. Wireless Telecommunication Facilities are not permitted in the areas west of Raymond Hill.
WHEREAS, the Raymond Planning Board has provided legal notice for and held a public hearing as required by Article 7, Section C. of the Ordinance and by 30-A.M.R.S.A. § 4352(8) and has submitted its report; and

WHEREAS, the Conditional Rezoning is consistent with Policies and Goals listed in Section 12 of the Comprehensive Plan including: expand the commercial tax base; reduce tax burden to citizens; maintain adequate levels of public safety services (e.g. information on the State of Maine website indicated that up to 30% of all emergency calls in Maine came from cell phones in 2007); and permit new commercial growth; and

WHEREAS, the Conditional Rezoning is consistent with the existing and permitted uses within the Rural District where Wireless Telecommunication Facilities are permitted by the Ordinance;

NOW THEREFORE, in consideration of the mutual promises made by each party to the other herein, the parties covenant and agree as follows:

1. The Town shall amend the Land Use Regulation Map by adopting the map change amendment shown below:
2. A single Wireless Telecommunication Facility, as described in this Conditional Zoning Agreement and the application materials submitted by KJK Wireless on behalf of the Applicant, to include a 125' monopole tower and supporting infrastructure, antennas, utilities, equipment shelter, backup power generator, propane tank, associated equipment and an access road from Valley Road, sited within a fenced enclosure, on a 75' x 75' leased area as shown on the Site Plan entitled “U.S. Cellular, [site name] Raymond, ME, Site No.: 853462” dated August 25, 2009, shall be a permitted use on the Subject Property, subject to review under the provisions of Article 9, Section S Wireless Communications Facilities, and Article 10, Site Plan Review, of the Ordinance.

3. The Wireless Telecommunication Facility constructed pursuant to this Conditional Rezoning Agreement shall not be subject to the limitations of Article 9, Section S, Subsections 6(b) and 6(c), provided it is constructed and operated in accordance with the following conditions and restrictions. The use permitted shall be limited to that described in this Conditional Rezoning Agreement, Applicant’s FCC license, and as shown on Applicant’s site plan entitled “U.S. Cellular, [Site Name]: Raymond, ME, Site No.: 853462” dated August 26, 2009.

4. The Applicant shall record this Conditional Zoning Agreement in the Cumberland County Registry of Deeds at Applicant’s expense within 30 days following approval of the conditional rezoning by the Raymond town meeting.

5. This is the sole zoning for the property and except as otherwise set forth in this Conditional Zoning Agreement, all other requirements of the Rural District shall apply. Except as expressly modified herein, the use and occupancy of the property shall be governed by and comply with all applicable provisions of the Ordinance, including applicable provisions of Article 9, Section S.

6. The above restrictions, provisions and conditions are an essential part of the rezoning, shall run with the land, and shall bind Applicant, Owners and their heirs, successors and assigns as well as any person in possession or occupancy of the property, and shall inure to the benefit of and be enforceable by the Town.

7. Any violation of any provision of this Contract Zoning Agreement shall constitute a violation of the Ordinance. The Town shall have the power to enforce all conditions and restrictions of this Agreement, both through enforcement action pursuant to Article 5 of the Ordinance and through legal action for specific performance of this Agreement. Penalties for violations shall be as set forth in 30-A M.R.S.A. §4452.

8. By executing this Conditional Zoning Agreement, Applicant and Owners agree to the conditions contained herein.

9. In the event that Applicant or its successors or assigns fail to develop the Wireless Telecommunication Facility in accordance with this Agreement, or in the event of any other breach hereof by Applicant, this Agreement may be terminated by vote of the Raymond town meeting. In that event, the property may then be used only for such uses as are otherwise allowed by law.
Description: The proposed changes will remove the Conditional Zoning District from the Land Use Ordinance and Regulation Map that was accepted on June 14, 2011 via referendum vote. The owner no longer wishes to allow for a wireless communication facility on their property.

Key Changes:
- Removes “Conditional Zoning Districts” from the list of established districts, description under Article 4, subsection H.1, and Conditional Zoning Agreement under Appendix B.
- Removes Wireless Communication Conditional Facility Zone (WCFCZ-RH) from the Land Use Regulation Map and returns the parcel to the previous rural zoning.

The Planning Board recommends Article 8.
The Selectmen recommend Article 8.

ARTICLE 9: To see if the Town will:

A. authorize and direct the Board of Selectmen to execute on behalf of the Town an amendment to the Waste Handling Agreement between the Town and Mid-Maine Waste Action Corporation, dated July 1, 1986 (the "Waste Handling Agreement") to provide that the Waste Handling Agreement shall remain in effect until the later of May 1, 2035 or termination of the MMWAC Interlocal Solid Waste Agreement, except that, upon one (1) year’s prior written notice, the Town may terminate the Waste Handling Agreement at the end of a fiscal year (Copies of the specific amendments are on file in the Town Clerk’s Office and available here in the back of the meeting room); and
B. authorize and delegate the authority to amend such Waste Handling Agreement to the Board of Selectmen provided that no such amendments further extend the term of the Waste Handling Agreement.

The Selectmen recommend Article 9.

ARTICLE 8 – MODIFICATIONS
B. Net Residential Density Calculation

The total number of lots or dwelling units allowed on a tract or parcel of land shall be determined by dividing the area remaining after Net Residential Area deductions are made by the minimum lot size for the zoning district where the parcel or tract of land is located. The number shall be rounded down to the nearest whole number. [Amended 8/7/07]

Town of Raymond Land Use Ordinance
ARTICLE 9 – MINIMUM STANDARDS
T. Back Lots and Back Lot Driveways [Adopted 5/18/02]

Back lots may be developed for single-family residential use if they are served by a back lot driveway approved by the Planning Board (hereinafter the “Board”) Reviewing Authority pursuant to the following provisions:

Reviewing Authority. The Reviewing Authority is defined as the Code Enforcement Officer (CEO) or Planning Board. The CEO may grant permit approval under the provisions of this section, however Planning Board permit approval shall be required for any application seeking a waiver of any submission requirements or any criteria of this section which are allowed to be waived. The CEO may require that any application be reviewed for approval by the Planning Board if, in the opinion of the CEO, the staff review is unable to adequately resolve all relevant issues raised by the Back Lot Driveway application.

1. The back lot driveway must be located within a right-of-way with a minimum width of 50 feet. The Planning Board may approve a back lot driveway right-of-way with a minimum width of 40 feet if it determines that no alternative exists. The right of way must be conveyed by deed recorded in the Cumberland County Registry of Deeds to the owner of the back lot.

2. A legal description of the back lot right-of-way by metes and bounds shall be attached to any building permit application for construction on the back lot.

3. A back lot right-of-way shall be created only over a front lot that is conforming to public road street frontage requirements along a street that is lot size consistent with Town construction and design standards for a public or private street. Lot dimensional size
requirements shall be consistent with the Town of Raymond Land Use Ordinance at the time of creation of the right of way. That portion of the front lot within the right of way shall be considered part of the front lot for purposes of space and bulk regulations. The back lot right-of-way shall be considered the front of the lot for the purposes of determining the front setbacks for both the existing and newly created lot(s). Existing buildings on the front lot need only be set back from the right-of-way by a distance equivalent to the minimum side setback in the applicable zoning district. For front lots that are vacant on the effective date of this ordinance, access to future buildings on the front lot shall be from the right of way. For the purposes of this section, the portion of the back lot driveway within the back lot may not be used to satisfy the back lot’s minimum lot area requirement, and the applicable frontage requirement for the back lot shall be met by the portion of the back lot driveway within the back lot.

4. A back lot driveway shall originate from a street at a public road constructed in accordance with the Town of Raymond Street Ordinance standards for a public or private street. The back lot driveway design shall include a turnaround layout that meets the design standards in the Town of Raymond Street Ordinance and that will accommodate safe emergency vehicle access to the lot and shall provide any back lots on the back lot driveway with direct access to a public road. A private street shall meet the minimum private street standards for the section of road 300 feet on both sides of the intersection where the back lot driveway originates. The Planning Board may waive this requirement to no less than 200 feet, if deemed adequate to maintain a safe site distance.

5. If the front lot is already developed, the existing driveway shall be relocated to the back lot right of way unless there exists a minimum of 100 feet between the existing driveway and the newly proposed right of way, or the Planning Board determines that such relocation is prohibited by site conditions or the orientation of existing buildings.

6. A back lot driveway shall serve no more than two back lots unless it is improved to meet the standards for private streets in Section 5.5 of the Raymond Street Ordinance. No more than one back lot served by the same back lot driveway shall be created during any 5-year period. In the event the creation of both back lots are not part of the same approved plan, prior to the creation of a second back lot, the applicant shall submit for review and approval a proposed revision of the back lot driveway plan previously approved by the Board Reviewing Authority and a plan for driveway maintenance as described in paragraph 7.

7. If more than one residence is to have access to the back lot driveway, the application shall include a plan setting forth how the street and associated drainage structures and required buffers and stormwater management facilities are to be maintained. Responsibility may be assigned to a lot owners association or to lot owners in common through provisions included in the deeds for all lots that will utilize the back lot driveway for access. The applicant shall submit appropriate legal documentation such as proposed homeowners association documents or proposed deed covenants for Board Reviewing Authority review. This documentation must address specific maintenance activities such as summer and winter maintenance, long-term improvements and emergency repairs and include a mechanism to generate funds to pay for such work.

8. No more than one back lot right-of-way may be created out of a single front lot unless each subsequent right-of-way is created out of at least an additional amount of frontage as required
in the applicable zoning district. The entrances of such rights of way onto the public existing road shall be separated by a distance equivalent to at least the required frontage in the zoning district plus half the right of way width.

9. Each dwelling constructed on a back lot shall be set back at least 200 feet from public roads.

10. A back lot driveway must conform to the minimum sight distance of Section 5.8 of the Raymond Street Ordinance.

11. The back lot must comply with all space and bulk regulations in the applicable zoning district as well as the lot standards of Article 9, Section U of the Town of Raymond Land Use Ordinance.

12. The minimum travel way width of a back lot driveway shall be 12 feet with 1 foot shoulders. The maximum grade shall be 12 percent, with a maximum grade of 3 percent for the first 50 feet. The minimum grade shall be 0.5%. The roadway crown shall be ¼” per one foot, except that the roadway crown shall be ½ ” per one foot for unpaved or gravel road surfaces. The minimum angle of the intersection of the back lot driveway with the roadway shall be 75 degrees.

13. All applications for a back lot driveway to be submitted for review by the Planning Board Reviewing Authority shall include the following information:

a. Names of applicants and owners of land for the location of the proposed back lot driveway.

b. A statement of any legal encumbrances on the land and a statement regarding any waivers requested for the location of the back lot driveway.

   iv. Plans shall include a plan view and typical cross-section of the proposed back lot driveway including a locus map with the locations of any streets or driveways located within 300 feet.

   v. Kind, size, location and material of all existing and proposed drainage structures and their location with respect to the existing natural waterways
and proposed drainage ways. The Board may require that such All drainage structures shall be designed and sized in accordance with a stormwater management plan prepared by a registered professional engineer in conformance with the requirements of Article 9, Section U.5 of the Town of Raymond Land Use Ordinance. If deemed appropriate by the Planning Board, an applicant may meet the requirements of the Point System by allowing the use of land on abutting lots with proof of easement and a legally binding agreement assigning specific maintenance duties and responsibilities.

vi. A phosphorous impact plan in conformance with the requirements of Section U. 5. A phosphorous impact plan must be included in the application package in conformance with the requirements of Article 9, Section U. 5. of the Raymond Land Use Regulations for a back lot driveway entirely or partially located within 600 feet (horizontal distance) of the normal high water line of a great pond or river, 250 feet (horizontal distance) of the upland edge of a freshwater wetland, or 100 feet (horizontal distance) of the normal highwater line of a stream, unless otherwise triggered by State or Federal law.

vii. A soil erosion and sedimentation control plan in conformance with the requirements of Article 9 Section U.6., of the Raymond Land Use Ordinance.

4412. If the Board Reviewing Authority determines that due to site conditions, proximity of nearby uses, traffic conditions or similar circumstances that a public hearing is advisable, the CEO may refer the application to the Planning Board, which may schedule a public hearing at its next regularly scheduled meeting. The applicant shall submit plans and design information within at least twenty-one (21) days prior to a scheduled Planning Board hearing. The Board shall cause notice of the date, time and place of such hearing to be given to the applicant and all property owners abutting the proposed back lot driveway and lots that are to be accessed by the back lot driveway, to be published in a newspaper of general circulation in the Town of Raymond at least 7 days prior to the hearing.

4513. The Board Reviewing Authority shall review the application and determine whether it complies with the requirements of this Section. The Board Reviewing Authority shall grant or deny approval on such terms and conditions, as it may deem advisable to satisfy all applicable ordinances. In all instances, the burden of proof shall rest upon the applicant. In issuing its decision, the Board Reviewing Authority shall make a written finding of fact establishing that the application does or does not meet the provisions of applicable ordinances. The Board Reviewing Authority shall sign the approved plan. The applicant must record the approval in the Cumberland County Registry of Deeds within 30 days of approval. If the applicant does not record the approval within 30 days of approval, then the approval becomes void unless the recording period is extended by the Board Reviewing Authority of good cause shown.

14. For front lots that are vacant on the effective date of this ordinance, access to future buildings on the front lot shall be from the back lot driveway right of way. For the purposes of this section, the portion of the back lot driveway within the back lot may not be used to satisfy the back lot's minimum lot area requirement, and the applicable frontage requirement for the back lot shall be met by the portion of the back lot driveway within the back lot.

ARTICLE 4—DISTRICT REGULATIONS

H. Conditional Zoning Districts

1. Conditional Zoning District #1, Raymond Hill Wireless Communication Facility Conditional Zone—Conditional Zoning District #1, the Raymond Hill Wireless Communication Facility Conditional Zone, is created as shown on the Land Use Regulation Map. Conditional Zoning District #1 is subject to the regulations applicable in the Rural District (R), as modified by the Conditional Zoning Agreement between the Town of Raymond and Maine RSA #1, Inc., Michael Major and Mary Jean Major attached to this ordinance as Appendix B.

Appendix B

Conditional Zoning Agreement Between
The Town of Raymond and Maine RSA #1, Inc.,
Michael Major and Mary Jean Major

This is a conditional zoning agreement made as of the _ _ day of ______, 2011, by and between the Town of Raymond, a body corporate and politic, located in the County of Cumberland and the State of Maine (“Town”), and Maine RSA #1, Inc., a Maine corporation (“Applicant”), and Michael Major and Mary Jean Major (collectively “Owners”).

WHEREAS, Applicant, and/or its affiliates, proposes to construct a single Wireless Telecommunication Facility in the form of a monopole tower one hundred twenty five feet (125’) in height and supporting infrastructure, antennas, utilities, equipment shelter, backup power generator, propane tank, associated equipment and an access road from Valley Road within Owners’ property located at 19 Farm Road, Raymond, and identified on the Town Assessor’s records as Tax Map 13, Lot 51 (“Subject Property”); and

WHEREAS, Applicant intends to enter into a lease or other agreement with Owners which would grant Applicant the right to construct, operate and maintain a single Wireless Telecommunication Facility on the Subject Property; and

WHEREAS, the Subject Property is located in the Rural District (R) under the Town of Raymond Land Use Ordinance (the “Ordinance”); and

WHEREAS, the Ordinance provides that Wireless Telecommunication Facilities are an allowed use in the Rural Zoning District, may be constructed up to 75’ in height, with an additional 25’ for each co-locator, up to 125’, but are prohibited above 600’ ground level on Raymond Hill and cannot exceed 30’ in height above the existing mature tree line adjacent to the tower; and

WHEREAS, Applicant asserts the following reasons for the conditional rezoning:

- The Federal Communications Commission (“FCC”) has issued Applicant a license to provide wireless service to Raymond and the surrounding areas. Applicants’ service objective in Raymond is to provide adequate coverage, capacity, and connectivity to-
areas near the village, Egypt Road, Panther Pond, and to northerly areas including Crescent Lake, Raymond Pond, and Route 85. Applicant is not currently providing adequate service to this area and has determined it requires at 125' tall Wireless Telecommunication Facility at a 680' ground elevation in order to do so.

- Applicant’s wireless technology requires a line of sight technology and its antennas cannot effectively operate if blocked by trees or topography. The Applicant has determined that the highest trees near the proposed Wireless Telecommunication Facility are currently 78' tall. It is generally accepted that, in New England, oak trees are known to grow to 90', maple trees to 75', and pine trees, over 100'. Such trees may grow as much as 6” per year. Accordingly, the 75’ height restriction and the limitation to 30’ above the existing mature tree line would place Applicant’s antennas in existing tree canopy that will continue to grow taller to block signals to and from Applicant’s antennas.

- Locating a Wireless Telecommunication Facility below 600’ elevation on Raymond Hill would not provide connectivity with other Wireless Telecommunication Facilities in Applicant’s network. Potential sites to the north and east areas of Raymond Hill that may meet the ground elevation criteria would negatively impact Raymond Pond, be virtually impossible to construct due to topography, and have radio frequency connectivity issues. Wireless Telecommunication Facilities are not permitted in the areas west of Raymond Hill.

and

WHEREAS, the Raymond Planning Board has provided legal notice for and held a public hearing as required by Article 7, Section C. of the Ordinance and by 30-A M.R.S.A. § 4352(8) and has submitted its report; and

WHEREAS, the Conditional Rezoning is consistent with Policies and Goals listed in Section 12 of the Comprehensive Plan including: expand the commercial tax base; reduce tax burden to citizens; maintain adequate levels of public safety services (e.g. information on the State of Maine website indicated that up to 30% of all emergency calls in Maine came from cell phones in 2007); and permit new commercial growth; and

WHEREAS, the Conditional Rezoning is consistent with the existing and permitted uses within the Rural District where Wireless Telecommunication Facilities are permitted by the Ordinance;

NOW THEREFORE, in consideration of the mutual promises made by each party to the other herein, the parties covenant and agree as follows:

1. The Town shall amend the Land Use Regulation Map by adopting the map change amendment shown below:
2. A single Wireless Telecommunication Facility, as described in this Conditional Zoning Agreement and the application materials submitted by KJK Wireless on behalf of the Applicant, to include a 125’ monopole tower and supporting infrastructure, antennas, utilities, equipment shelter, backup power generator, propane tank, associated equipment and an access road from Valley Road, sited within a fenced enclosure, on a 75’ x 75’ leased area as shown on the Site Plan entitled “U.S. Cellular, [site name] Raymond, ME, Site No.: 853462” dated August 25, 2009, shall be a permitted use on the Subject Property, subject to review under the provisions of Article 9, Section S Wireless Communications Facilities, and Article 10, Site Plan Review, of the Ordinance.

3. The Wireless Telecommunication Facility constructed pursuant to this Conditional Rezoning Agreement shall not be subject to the limitations of Article 9, Section S, Subsections 6(b) and 6(c), provided it is constructed and operated in accordance with the following conditions and restrictions. The use permitted shall be limited to that described in this Conditional Rezoning Agreement, Applicant’s FCC license, and as shown on Applicant’s site plan entitled “U.S. Cellular, [Site Name]: Raymond, ME, Site No.: 853462” dated August 25, 2009.
4. The Applicant shall record this Conditional Zoning Agreement in the Cumberland County Registry of Deeds at Applicant’s expense within 30 days following approval of the conditional rezoning by the Raymond town meeting.

5. This is the sole zoning for the property and except as otherwise set forth in this Conditional Zoning Agreement, all other requirements of the Rural District shall apply. Except as expressly modified herein, the use and occupancy of the property shall be governed by and comply with all applicable provisions of the Ordinance, including applicable provisions of Article 9, Section S.

6. The above restrictions, provisions and conditions are an essential part of the rezoning, shall run with the land, and shall bind Applicant, Owners and their heirs, successors and assigns as well as any person in possession or occupancy of the property, and shall inure to the benefit of and be enforceable by the Town.

7. Any violation of any provision of this Contract Zoning Agreement shall constitute a violation of the Ordinance. The Town shall have the power to enforce all conditions and restrictions of this Agreement, both through enforcement action pursuant to Article 5 of the Ordinance and through legal action for specific performance of this Agreement. Penalties for violations shall be as set forth in 30-A M.R.S.A. §4452.

8. By executing this Conditional Zoning Agreement, Applicant and Owners agree to the conditions contained herein.

9. In the event that Applicant or its successors or assigns fail to develop the Wireless-Telecommunication Facility in accordance with this Agreement, or in the event of any other breach hereof by Applicant, this Agreement may be terminated by vote of the Raymond town meeting. In that event, the property may then be used only for such uses as are otherwise allowed by law.

The exercise by GSA IV of any of the foregoing shall at all times be in compliance with and subject to applicable land use regulations, permit and approval requirements of the Town of Raymond, Maine and the foregoing assignment in no way constitutes, waives or replaces any approval or permit condition or requirement.

11. Right of First Refusal. If Grantor elects to sell all or any portion of the Easement Area, whether separate or as part of a larger adjacent parcel of property, GSA IV shall have the right of first refusal to meet any bona fide offer of sale on the same terms and conditions of such offer. In the event Grantor fails to cure any violation of the terms of this Easement within ten (10) days after written notice from GSA IV, or such longer period as is reasonably necessary to cure such violations, provided Grantor has undertaken reasonably diligent cure efforts, GSA IV shall have the right to seek injunctive relief, to require specific performance of this Easement, to collect damages from Grantor, and to take such actions as may be necessary in GSA IV’s discretion to cure such violation and charge Grantor with all reasonable costs and expenses incurred by GSA IV as a result of such violation (including, without limitation, GSA IV’s reasonable attorneys’ fees). All rights and remedies provided under this Easement are cumulative and may be pursued singularly, in any combination, and in any order. The failure to enforce any of the terms and provisions contained herein shall in no event be deemed to be a waiver of the right to thereafter strictly enforce the terms and provisions hereof.

15. Limitation on Damages. In no event shall GSA IV or Grantor be liable to the other for consequential, indirect, speculative or punitive damages in connection with or arising from this Easement, the Permitted Use or the Easement Area.

This Easement shall not terminate if within ninety (90) days after GSA IV’s receipt of the written termination notice, GSA IV provides written notice to Grantor of its intent to reclaim the Easement Area.
