### RECOMMENDED 2021 PAY GRADE STRUCTURE WITH ALL POSITIONS

The salary survey was conducted by looking at each individual position instead of viewing them as combination roles. The towns surveyed generally had unique roles instead of combination roles.

**The information presented in the pay grade structure shows both an hourly wage and the corresponding annualized rate for ease of viewing and comparison. The pay grade structure does not indicate which positions are exempt or non-exempt. A review of the FLSA exemption criteria is recommended whenever a position has a change in responsibilities or if a review has not been conducted before.**

---

Selectman’s Meeting Minutes (Page 2 of 4)  February 9, 2021

[www.raymondmaine.org](http://www.raymondmaine.org)
The Select Board had no questions/comments. Chair Olsen thanked Ms Meillat.

b) **Update on 9 Shaker Woods** – Alex Sirois, CEO and Cathy Gosselin, Health Officer

On February 5th CEO Sirois, Health Officer Gosselin and Fire Inspector Wayne Jones inspected 9 Shaker Woods Rd with owner Jared Marston. Overall they were very impressed with the progress Mr Marston has made. They have cleaned out a significant amount of the trash and miscellaneous items from the house, did a heavy amount of cleaning, and have removed some of the exterior junk (most of which can not be removed until snow melts). They have a master electrician who is going to help them with the electrical issues. Some smoke alarms have been installed. Plumbing will begin in the next couple of weeks. At this point we are looking for the Select Board to allow us to continue to work with them and have them in a situation where they can be living in the house in the next month. Health Officer Gosselin found that they are not eligible for DHHS housing because of their ages. Mrs Strout is not quite old enough for Medicare. We recommend that we continue to monitor the situation and allow them to remain in the home. Fire Inspector Jones compiled a list of the major things that need to be addressed. Some of the items have already been taken care of and Mr Marston has sent pictures documenting the progress.

Mr Marson said they are making progress.

CEO Sirois and Health Officer Gosselin will continue to go back every 2 weeks and update the Select Board at their next meeting.
4) **Public Comment**
Charles Leavitt commented on the Select Board Bylaws, the Compensation Study presentation, the guide to Zoom meetings online, and on the ending of the previous meeting.

5) **Selectman Comment** – none

6) **Town Manager’s Report and Communications**
   a) **Confirm Dates for Upcoming Regular Meetings**
      - March 9, 2021
      - April 13, 2021
   b) **Reminder of Upcoming Budget Schedule**
      - February 23, 2021 – Town Manager submits budget to Select Board & Budget-Finance Committee
      - March 2, 2021 – 1st Department Head Review – 6:30pm via Zoom
      - March 16, 2021 – 2nd Department Head Review – 6:30pm via Zoom
      - March 30, 2021 – Budget Workshop – 6:30pm via Zoom
      - April 13, 2021 – Select Board Warrant Review & Approval – 6:30pm via Zoom
      - April 27, 2021 – Budget-Finance Committee Budget Article Recommendations – 6:30pm via Zoom
      - Town Meeting at the Jordan Small Middle School Gym
        1) June 1, 2021 – Open Town Meeting (if we can have it) – 6:00pm
        2) June 8, 2021 – Town Elections (and if we vote the Town Warrant via secret ballot) – 7:00am to 8:00pm
   c) **Reminder of Upcoming Election Schedule**
      - March 1 – Nomination Papers available
      - April 9 – Nomination Papers due back
   d) **Reminder of Upcoming Holiday Schedule**
      - Monday, February 15th – Presidents Day

7) **Adjournment**
   Motion to adjourn at 7:01pm by Selectman Bullock. Seconded by Selectman Gifford.
   Unanimously approved

   Respectfully submitted,

   Susan L Look, Town Clerk

This Application will Expire 60 Days from the date of Municipal or County Approval unless submitted to the Bureau

Included below is the section of Maine’s liquor laws regarding the approval process by the municipalities or the county commissioners. This is provided as a courtesy only and may not reflect the law in effect at the time of application. Please see http://www.mainelegislature.org/legis/statutes/28-A/title28-Asec653.html

§653. Hearings; bureau review; appeal

1. Hearings. The municipal officers or, in the case of unincorporated places, the county commissioners of the county in which the unincorporated place is located, may hold a public hearing for the consideration of applications for new on-premises licenses and applications for transfer of location of existing on-premises licenses. The municipal officers or county commissioners may hold a public hearing for the consideration of requests for renewal of licenses, except that when an applicant has held a license for the prior 5 years and a complaint has not been filed against the applicant within that time, the applicant may request a waiver of the hearing.

A. The bureau shall prepare and supply application forms.
B. The municipal officers or the county commissioners, as the case may be, shall provide public notice of any hearing held under this section by causing a notice, at the applicant’s prepaid expense, stating the name and place of hearing, to appear on at least 3 consecutive days before the date of hearing in a daily newspaper having general circulation in the municipality where the premises are located or one week before the date of the hearing in a weekly newspaper having general circulation in the municipality where the premises are located.

C. If the municipal officers or the county commissioners, as the case may be, fail to take final action on an application for a new on-premises license or transfer of the location of an existing on-premises license within 60 days of the filing of an application, the application is deemed approved and ready for action by the bureau. For purposes of this paragraph, the date of filing of the application is the date the application is received by the municipal officers or county commissioners. This paragraph applies to all applications pending before municipal officers or county commissioners as of the effective date of this paragraph as well as all applications filed on or after the effective date of this paragraph. This paragraph applies to an existing on-premises license that has been extended pending renewal. The municipal officers or the county commissioners shall take final action on an on-premises license that has been extended pending renewal within 120 days of the filing of the application.

D. If an application is approved by the municipal officers or the county commissioners but the bureau finds, after inspection of the premises and the records of the applicant, that the applicant does not qualify for the class of license applied for, the bureau shall notify the applicant of that fact in writing. The bureau shall give the applicant 30 days to file an amended application for the appropriate class of license, accompanied by any additional license fee, with the municipal officers or county commissioners, as the case may be. If the applicant fails to file an amended application within 30 days, the original application must be denied by the bureau. The bureau shall notify the applicant in writing of its decision to deny the application including the reasons for the denial and the rights of appeal of the applicant.

2. Findings. In granting or denying an application, the municipal officers or the county commissioners shall indicate the reasons for their decision and provide a copy to the applicant. A license may be denied on one or more of the following grounds:

   A. Conviction of the applicant of any Class A, Class B or Class C crime;

   B. Noncompliance of the licensed premises or its use with any local zoning ordinance or other land use ordinance not directly related to liquor control;

   C. Conditions of record such as waste disposal violations, health or safety violations or repeated parking or traffic violations on or in the vicinity of the licensed premises and caused by persons patronizing or employed by the licensed premises or other such conditions caused by persons patronizing or employed by the licensed premises that unreasonably disturb, interfere with or affect the ability of persons or businesses residing or located in the vicinity of the licensed premises to use their property in a reasonable manner;

   D. Repeated incidents of record of breaches of the peace, disorderly conduct, vandalism or other violations of law on or in the vicinity of the licensed premises and caused by persons patronizing or employed by the licensed premises;

   D-1. Failure to obtain, or comply with the provisions of, a permit for music, dancing or entertainment required by a municipality or, in the case of an unincorporated place, the county commissioners;

   E. A violation of any provision of this Title;

   F. A determination by the municipal officers or county commissioners that the purpose of the application is to circumvent the provisions of section 601; and

On Premise Application, Rev. 3/2020
G. After September 1, 2010, server training, in a program certified by the bureau and required by local ordinance, has not been completed by individuals who serve alcoholic beverages.

3. Appeal to bureau. Any applicant aggrieved by the decision of the municipal officers or county commissioners under this section may appeal to the bureau within 15 days of the receipt of the written decision of the municipal officers or county commissioners. The bureau shall hold a public hearing in the city, town or unincorporated place where the premises are situated. In acting on such an appeal, the bureau may consider all licensure requirements and findings referred to in subsection 2.

   A. Repealed

   B. If the decision appealed from is an application denial, the bureau may issue the license only if it finds by clear and convincing evidence that the decision was without justifiable cause.

4. Repealed

5. Appeal to District Court. Any person or governmental entity aggrieved by a bureau decision under this section may appeal the decision to the District Court within 30 days of receipt of the written decision of the bureau.

An applicant who files an appeal or who has an appeal pending shall pay the annual license fee the applicant would otherwise pay. Upon resolution of the appeal, if an applicant’s license renewal is denied, the bureau shall refund the applicant the prorated amount of the unused license fee.

Section IV: Terms and Conditions of Licensure as an Establishment that sells liquor for on-premises consumption in Maine

- The licensee/applicant(s) agrees to be bound by and comply with the laws, rules and instructions promulgated by the Bureau.

- The licensee/applicant(s) agrees to maintain accurate records related to an on-premise license as required by the law, rules and instructions promulgated or issued by the Bureau if a license is issued as a result of this application.

  - The licensee/applicant(s) authorizes the Bureau to obtain and examine all books, records and tax returns pertaining to the business, for which this liquor license is requested, and also any books, records and returns during the year in which any liquor license is in effect.

- Any change in the licensee’s/applicant’s licensed premises as defined in this application must be approved by the Bureau in advance.

- All new applicants must apply to the Alcohol and Tobacco Tax and Trade Bureau (TTB) for its Retail Beverage Alcohol Dealers permit. See the TTB’s website at https://www.ttb.gov/nrc/retail-beverage-alcohol-dealers for more information.
Section V: Fee Schedule

**Filing fee required.** In addition to the license fees listed below, a filing fee of $10.00 must be included with all applications.

**Please note:** For Licensees/Applicants in unorganized territories in Maine, the $10.00 filing fee must be paid directly to County Treasurer. All applications received by the Bureau from licensees/applicants in unorganized territories must submit proof of payment was made to the County Treasurer together with the application.

SUPPLEMENTAL APPLICATION FORM
ON-PREMISE DIAGRAM

In an effort to clearly define your license premise and the areas that consumption and storage of liquor is allowed, The Division requires all applicants to submit a diagram of the premise to be licensed in addition to a completed license application.

Diagrams should be submitted on this form and should be as accurate as possible. Be sure to label the areas of your diagram including entrances, office area, kitchen, storage areas, dining rooms, lounges, function rooms, decks and all areas that you are requesting approval from the Division for liquor consumption.
Section VII: Required Additional Information for a Licensee/Applicant for an On-Premises Liquor License Who are Legal Business Entities

Questions 1 to 4 of this part of the application must match information in Section I of the application above and match the information on file with the Maine Secretary of State's office. If you have questions regarding your legal entity name or DBA, please call the Secretary of State's office at (207) 624-7752.

All Questions Must Be Answered Completely. Please print legibly.

1. Exact legal name:  
   [Signature]

2. Doing Business As, if any:  
   [Signature]

3. Date of filing with Secretary of State:  
   2009  
   State in which you are formed:  
   ME

4. If not a Maine business entity, date on which you were authorized to transact business in the State of Maine:

5. List the name and addresses for previous 5 years, birth dates, titles of officers, directors, managers, members or partners and the percentage ownership any person listed: (attached additional pages as needed)

(Ownership in non-publicly traded companies must add up to 100%.)
March 30, 2021

To: Raymond Board of Selectmen
CC: Sue Look - Town Clerk
From: Wayne C. Jones - Fire Inspector
RE: Fisherman’s Catch - Life Safety Inspection

On this date the Raymond Fire Rescue Department conducted a Life Safety Inspection at Fisherman’s Catch, 1270 Roosevelt Trail, in Raymond. Based upon this inspection, it is the determination of the Raymond Fire Rescue Department (RFRD) that there are no Fire/Life safety violations or deficiencies that would prohibit this business from being issued the license under review. A copy of the Inspection report is enclosed.

During our inspection, the following items were found and will be addressed by the owner with assistance of the Fire Inspector.

1. The Business Sign Street Address requires a contrasting background color to make the address numbers visible to approaching emergency responders.

2. The Dumpster is located ten (10) feet away from the main building but is located next to the storage building and Loading Dock. The owner is aware of the fire exposure hazard to the main building in the event of a fire in dumpster igniting the storage building or Loading Dock.

As noted on the enclosed Fire Inspection Report, the remaining inspection items were found to be in compliance with Fire and Life Safety standards.

If there are any questions regarding the inspection, please feel free to contact me.

Yours in Fire Safety,

Wayne C. Jones
Fire Inspector
Raymond Fire Rescue Department

Clean grease filters and hood/duct system over cooking equipment. Regular cleaning of the hood, duct, and filters will eliminate flammable grease build-up and provide proper ventilation of head through the exhaust outlet.

**Status:** PASS  
**Notes:** Grease Hood was Cleaned at the end of the Season on 11/5/2020. Grease Hood Cleaning was acceptable to the RFRD for Fire Safety.

---

Locate all dumpsters at least 10 feet from the building or overhangs. Dumpsters are a common fire target of vandals. Moving the dumpster away will reduce the risk of a fire spreading to the building.

**Status:** Information  
**Notes:** Dumpster is located at the end of Loading Dock (behind dump truck in photo). It is 10 feet away from Main building but is next to Storage building and combustible dock. It is located at the edge of the property line.
Are combustible wastes properly stored in containers.
Combustible waste like grease can be hazardous if not properly stored.

**Status:** PASS  
**Notes:** Grease Stored in proper containers.

Other Housekeeping Comments

**Status:** Information  
**Notes:** Photos of rear of the building.
**Exits**

**Are all required exits marked?**

[NFPA 101 7.10] Means of egress exits, other than the main entrance to a room or space that is obviously and clearly identifiable, must be marked as an exit to direct egress in an emergency.

**Status:** PASS  
**Notes:** Exits are marked & clear of obstructions during inspection.

---

**Are emergency egress light fixtures installed and operational?**

Test battery and check for broken or missing light fixtures.

**Status:** PASS  
**Notes:**

---

**Are exit doors clear of obstructions, snow and ice?**

101:7.1.10 Doors in means of egress or escape shall be maintained free of obstructions, including snow and ice.

**Status:** PASS  
**Notes:** See Note and Photos above.

---

Unlock all required and marked exit doors during business hours.  
Locked exit doors make it impossible for occupants to escape in an emergency.

**Status:** PASS

Mount extinguishers where readily available, not more than 4 feet above floor. Extinguishers must be easily within reach of all occupants, but not where they will be subject to damage.

**Status:** PASS  
**Notes:** See photo above.
Other
Other Fire Extinguisher Comments

**Status:** PASS  
**Notes:** Grease Hood Extinguishing System serviced and tagged for 2021 Season.
Fire Alarm

Is a monitored fire detection and alarm system installed?
Raymond Fire Protection Ordinance Article 5 requires all commercial, assembly and public occupancies over 1000 sf to have a monitored fire alarm system.

**Status:** PASS
**Notes:** Fire Alarm System was in-service at the time of inspection.

Has a current fire alarm test report on file with the Raymond Fire Department.
Raymond Fire Protection Ordinance (Article 5 Section 1) requires an annual fire alarm test report be filed with the Office of the Fire Inspector before January 1 each year.

**Status:** PASS
**Notes:** Fire Alarm Inspection, Testing & Maintenance completed January 26, 2021.

### Electrical Systems

Are electrical systems properly installed?
Electrical systems shall be installed to comply with NFPA 70 National Electric Code. Improperly installed systems present a significant fire and life safety danger.

**Status:** Information
**Notes:** Limited Access due to Deep Fat Fryers, Prep Counter. There is clear space in front of panel.

Discontinue use of extension cords as permanent wiring.
Extension cords do not afford the durability, safety and protection from shock or fire. No more than (1) one 6-outlet surge protected power strip should be used on any circuit.

**Status:** PASS
**Notes:** None Found.

Each outlet box shall have a cover faceplate or fixture canopy.
Covers protect people from being shocked by exposed wires, prevent spread of electrical current, and heat and flame during short circuits.

**Status:** PASS
**Notes:**
Label all circuit breakers and provide blank panels for spares.
Proper identification of the areas served by a circuit breaker is important during an emergency.

**Notes:** Add Inspection Report and photos into Emergency Reporting Program.

**Total Additional Time:** 270 minutes  
**Inspection Time:** 90 minutes  
**Total Time:** 360 minutes

### Summary:

**Overall Result:** Passed  
The occupancy is in compliance with the Raymond Fire Protection Ordinance and State Fire Code.

**Inspector Notes:** Street Address Contrasting Background needs to be fixed on Business Sign. See Inspection Information categories.

### Closing Notes:

This fire prevention inspection has been made by the Raymond Fire Department for the purpose of promoting fire safety and to assist the Owner or Operator of the Occupancy in identifying conditions that require correction. Items listed in this inspection report must be corrected before the Occupancy will deemed in compliance with the Raymond Fire Protection Ordinance.

MEMORANDUM

TO: Select Board

FROM: Sue Carr

DATE: 4/13/2021

RE: Fisherman’s Catch

For the past 10 years each May I have sent out post cards for any taxes not paid that are between $1.00 to $100.00. For Fisherman’s Catch a notice was sent beginning in 2011 through 2019. The bill was over $100 in 2020 and 2021.

I have been working on personal property taxes for 3 years trying to find owners of businesses in town that had not paid taxes. As I found the business owner and an address, I would send them a letter explaining the delinquent taxes. Most ask what address I had and would apologize for not updating the information and paid all the taxes. As businesses are sold in town we are not informed of new owners, it is unlike real estate where changes are filed at the Registry of Deeds. It is up to the business to inform us of any change.

If a tax bill is returned, I will try to find a correct address. If I cannot find an address, I mail it to the location of the business.

With Fisherman’s Catch I finally sent the past due notice to his home address to let him know about the delinquent taxes. He called and told me he never received the bill and that he was not going to pay.

Any payment received is applied to the oldest year due, interest first then principal. Mr. Coppersmith paid $106.26 on October 15, 2019 which was the amount due for 2020, however this was applied to the oldest outstanding which is 2010. I sent out a letter to Mr. Coppersmith explaining the policy on applying the payment he had made.

Thank you,

Sue Carr
Tax Collector
TO: SUE LOOK, TOWN CLERK  
FROM: KAELEA GONZALEZ, ASSESSING ASSISTANT  
SUBJECT: PERSONAL PROPERTY  
DATE: 04/09/2021  
CC:  

Sue,

Personal property is otherwise known as business property. We rely heavily on the honor system when determining personal property assessments. Each year, a form is sent to all business property owners requesting a full and accurate list of all property used for business purposes. This does not include inventory or stock but does include all items used to run or operate a business such as a cash register/card reader, office chairs and desks, machinery, and kitchen equipment. It has been since 2005 that an accurate inventory of business equipment has been recorded for Fisherman's Net or as it now known Fisherman's Catch. That inventory was collected by the revaluation company during that time. Prior to that the only declaration that we have on file is from 2004. To the best of my recollection, we have not received a declaration request form back as undeliverable from either business, nor have we received any questions regarding assessment and taxes owed, nor an update on business name and mailing address changes.

Sincerely,

Kaela Gonzalez
Chapter 101: OPERATION AND CONTROL OF ALL LICENSED PREMISES

(Note: this rule chapter was formerly 16-226 Ch. 1 of the Department of Public Safety, Liquor Licensing and Inspections Unit.)

1. All licenses are issued subject to the provisions of the State Laws and Federal Alcohol Administration laws, municipal ordinances and rules and regulations made pursuant thereto, and all municipal, State and Federal licenses and permits required by such laws, ordinances or rules and regulations must be kept in full force and effect by licensees during the entire effective license period of the liquor license.

   A. All license applications shall include the complete and entire ownership in accordance with Title 28 A Section 651, 2A. All persons owning, and or operating with a financial interest in the operation shall be named as licensees, except bona fide employees.

   B. An applicant for a liquor license that is a corporation or a limited liability company may submit a master supplementary questionnaire file as long as there has been no material change in the original information provided to the department, and the corporation or Limited Liability Company has two or more licensed facilities located within the state. The initial master file must contain all the information required by the department. An applicant for a liquor license renewal must file a notarized affidavit stating there are no changes to the information contained in the original master file. If changes have occurred, then the master file must be updated and submitted to replace the existing master file.

2. Licenses erroneously issued by the Bureau of Liquor Enforcement will be considered void and must be returned to the Bureau on demand.

3. Wherever reference is made in the following rules and regulations to acts or omissions forbidden on the part of the licensee, corporation or individual, it shall be held and construed to mean acts of such licensee, corporation or individual or their clerk, servant or agent. Whoever is found in charge of a licensed premise or making service or waiting on trade in such licensed premise shall be prima facie construed to be a clerk, servant and agent of the licensee.

4. Violation of any Commission rule and regulation, State law or municipal ordinance, occurring on a licensed premise after legal hours of sale of liquor or on days when sale of liquor is forbidden by law, shall be grounds for suspension or revocation of license.

5. No licensee shall have or permit on his licensed premises any gaming devices, sealed tickets, punch board or any mechanism which dispenses money or other valuable thing which is
§654. Additional considerations for licensure

1. Character; location; operation of business. In issuing or renewing licenses, the bureau, the municipal officers or the county commissioners, as the case may be, shall give consideration to:

   A. The character of any applicant; [PL 1987, c. 45, Pt. A, §4 (NEW).]
   B. The location of the place of business; [PL 1987, c. 45, Pt. A, §4 (NEW).]
   C. The manner in which the business has been operated; and [PL 1997, c. 373, §63 (AMD).]
   D. Whether the operation has endangered the safety of persons in or on areas surrounding the place of business. [PL 1987, c. 45, Pt. A, §4 (NEW).]

[PL 1997, c. 373, §63 (AMD).]

2. Qualifications of corporations. The bureau, the municipal officers or the county commissioners, as the case may be, may refuse to issue licenses to corporations when any of its officers, directors or stockholders do not possess the qualifications required of unincorporated persons under this section.

[PL 1997, c. 373, §63 (AMD).]

3. Areas primarily for minors. Without limitation of its other powers, the bureau may not approve as a proper place for the exercise of the license privilege amusement areas primarily for minors, beaches or any other area designed primarily for use by minors.

[PL 1997, c. 373, §63 (AMD).]

AGENDA ITEM REQUESTED
Agenda Item Subject:         Candidate for Zoning Board of appeals
Agenda Item Summary:         At its March 31, 2021 meeting, the members of the Zoning Board of Appeals voted unanimously to forward the application of Thomas Hennessey to the Board of Selectmen with the recommendation that he be appointed to the Zoning Board of Appeals

Action Requested/Recommendation:  □ Approval   □ Public Hearing   □ Information Only
List of Attachments Included:  Volunteer Application
If you are a Raymond resident and interested in serving on any of the following committees or boards, please fill in the information below. Submit it to the Town Clerk for distribution to the appropriate board or committee chair(s) for consideration and response concerning open positions.

- Beautification Committee
- Board of Assessment Review
- Cemetery Committee
- Conservation Commission
- Planning Board
- Raymond Recreation Association
- Recycling Committee
- Tassel Top Park Board of Directors
- Technology Committee
- Veteran's Memorial Committee
- Zoning Board of Appeals

There are many other opportunities to serve your town as an elected official, a member of a community resource organization, an election worker on Election Day, etc. Contact the Town Clerk for more information.

Please complete this form and submit to:

Town Clerk, 401 Webbs Mills Road; Raymond, ME 04071
or via fax to (207) 655-3024
or via email to sue.look@raymondmaine.org

Name: **Tom Hennessey**

Mailing Address: 55 Haskell Ave

Telephone Number: 207-841-6752

Occupation: **Retired**

E-mail Address: HENNESSETY54@GMAIL.COM

Boards and/or committees you are interested in (please list in order of preference):

1. **Planning Board / Zoning Board of Appeals**

2. 

3. 

Volunteer Form Page | 1 of 2 Rev 2017
Why are you interested in the board(s) and/or committee(s) chosen above?

I WOULD LIKE TO CONTRIBUTE TO THE TOWN AND IT'S FUTURE DEVELOPMENT WHILE PROTECTING THE ENVIRONMENT.

What contributions, benefits, talents, and skills can you bring to the Town of Raymond?

I'M RETIRED WITH 35 YEARS OF EXPERIENCE AT BOTH TOWN WORKS INVOLVED IN DESIGN, ENGINEERING, AND PROJECT MANAGEMENT. ALSO RETIRED FROM THE NAVY RESERVES. I'M ALSO AN AVANT BATER THAT ENJOYS LIVING IN THE LAKES REGION.

What do you feel is the responsibility of the boards and/or committees you chose?

MY UNDERSTANDING IS THE PLANNING BOARD OVERSEES THE proper DEVELOPMENT OF PROPERTY IN ACCORDANCE WITH THE TOWN'S ESTABLISHED RULES. BOARD OF APPEALS REVIEWS APPEALS TO LIMIT VARIANCES FROM LAND USE AND MINERAL RESOURCE REQUISITION.

What municipal boards, volunteer organizations, or community service groups/committees have you worked with in the past and for what length of time?

President of my homeowners association when I lived in Harpswell. Volunteer soccer and lacrosse coach for youth, middle school, and high school programs.

Does your schedule allow the flexibility to attend meetings on a regular basis?

Yes [x] No []

Thank you.

Volunteer Form
Hello Sue,

I would like to add a couple of fee suggestions for Tassel Top Park:

- **Summer Camp Group Fee: $3 per person**
  - This would be for groups over 20.
- **Wedding Fee: $4,000**
  - Includes the cabins from Thursday to Sunday.
  - The off-season of the cabin rental (Spring and Fall).

Please let me know if you need any additional information.

Thanks, Sue!

Dear Board Members,

Good afternoon. I have two (2) tax abatements and one supplemental assessment for the Board to consider for approval at its March 9th meeting.

**Abatement #5.** The estate of James D’Ovidio (deceased) conveyed 2 parcels of land to Richard & Anne Marie Buck in March of 2020 (078-047 & 078-006). Parcel 078-006 which is a vacant parcel across the street from lot 47 on Shore Rd was erroneously assessed to Mr. D’Ovidio for the 2020/2021 assessment. The corrective action recommended is to abate the assessment to D’Ovidio and issue a new, supplemental assessment to Buck, which follows as the supplemental item.

**Abatement #6.** Property located at Map 008-061 (4 Brown Road) The Property was conveyed by Natalie Foss (Nassa) to her son, Christopher Nassa in April 2020. Mr. Nassa was notified by his insurance company that the town assessed the home as having a basement. Mr. Nassa requested abatement because the property does not have a basement, but rather a 2–4-foot crawl space. Property was inspected and this was verified. In addition, other data errors regarding the lack of central heating system and the addition of a deck were noted. The property is in fair condition currently, which should be reflected in the assessment.

**Supplemental Assessment #1** This supplemental is the follow up corrective action to abatement #4, which assigns the assessment to the correct owner, Richard and Anne Marie Buck.

Sincerely,

Curt Lebel, Assessors Agent, Town of Raymond
## Certificate of Abatement

36 M.R.S.A § 841

We, the Board of Assessors of the municipality of Raymond, hereby certify to Suzanne Carr, tax collector, that the accounts herein, contain a list of valuations of the estates, real and personal, that have been granted an abatement of property taxes by us for the April 1, 2020 assessment on March 9, 2021. You are hereby discharged from any further obligation to collect the amount abated.

Voted by the Raymond Board of Assessors on: March 9, 2021

Attest: ________________________________________________________ Don Willard, Town Manager

TOWN OF RAYMOND
SUPPLEMENTAL TAX WARRANT

State of Maine 36 M.R.S.A. § 713

County of CUMBERLAND, ss.

To: SUZANNE CARR, Tax Collector

of the Municipality of RAYMOND, within said County of CUMBERLAND.

GREETINGS:

Hereby are committed to you a true list of the assessments of the estates of the person(s) hereinafter named. You are hereby directed to levy and collect each of the person(s) named in said list his respective proportion, therein set down, of the sum of $511.97, it being the amount of said list; and all powers of the previous warrant for the collection of taxes issued by us to you and dated September 9, 2020 are extended thereto; and we do hereby certify that the list of assessments of the estates of the persons named in said list is a supplemental assessment laid by virtue of Title 36, Section 713, as amended and the assessments and estates thereon as set forth in said list were either invalid, void, or omitted by mistake from the original list committed unto you under our warrant dated September 9, 2020.

Given by our hands this 9th day of March, 2021.

DEED OF SALE BY PERSONAL REPRESENTATIVE

KNOW ALL MEN BY THESE PRESENTS that I, Robert M. Penta, of Medford, Massachusetts, duly appointed and acting Domiciliary Foreign Personal Representative of the Estate of James F. D'Ovidio, deceased, as shown by the Probate records in the County of Cumberland, State of Maine, Probate Court Docket No. 2020-0403, and having given notice to each person succeeding to an interest in the real property described below at least ten (10) days prior to the sale, by the powers conferred by the Probate Code, and every other power, for consideration paid, grant to Anna-Marie P. Buck and Richard H. Buck, as joint tenants, whose mailing address is 162 Thomas Pond Terrace, Raymond, ME 04071, the real property, with the buildings thereon, located in the Town of Raymond, County of Cumberland, State of Maine, described as follows:

Being Lots No. 49 and No. 50 as shown on Plan of Thomas Pond Shores, which Plan is recorded in Cumberland County Registry of Deeds in Plan Book 45, Page 54, and also Lot No. 95 as shown on Plan of Thomas Pond Shores recorded in said Registry of Deeds in Plan Book 45, Page 37.

The above-described premises are conveyed together with a right of way to and from the premises over Shore Road and Libby Road to the Meadow Road.

The above-described premises are conveyed subject to restrictions of record insofar as they are now in force and applicable.

Being the same premises described in a deed from Harriet B. Quinn to James F. D'Ovidio dated March 24, 1972 and recorded in said Registry in Book 3218 Page 72.

IN WITNESS WHEREOF, the said Robert M. Penta, the duly appointed and acting Personal Representative of the Estate of James F. D'Ovidio, deceased, has hereunto set his hand and seal this ___ day of March, 2020.

Signed, Sealed and Delivered in Presence of

[Signature]

Robert M. Penta
Personal Representative
State of Massachusetts  
County of Middlesex  

March 24, 2020

Then personally appeared the above-named Robert M. Penta in his capacity as Personal Representative of the Estate of James F. D'Ovidio and acknowledged the foregoing instrument to be his free act and deed in his said capacity and the free act and deed of the Estate of James F. D'Ovidio

Nassa Abatement
APPLICATION FOR ABATEMENT OF PROPERTY TAXES
36 M.R.S. § 841
See Property Tax Bulletin No. 10 for more information

This application must be signed and filed with the municipal assessor. A separate application should be filed for each separately assessed parcel of real estate claimed to be overvalued.

1. Name of applicant: Christopher J Nessi
2. Mailing address: 4 Brown Rd Raymond ME 04071
3. Property address or map/lot: 008/061
4. Telephone number for applicant: 207-650-2156
5. Tax year for which abatement is requested: 2020/2021
6. Assessed valuation of real estate: $140,700
7. Assessed valuation of personal property: 
8. Abatement of real estate valuation requested: 
9. Abatement of personal property valuation requested: $100
10. Reasons for requesting abatement (please be specific, stating grounds for belief that property is overvalued for tax purposes): Property does not have an unfinished basement crawl space only. Seeking abatement on difference.

To the assessing authority of the Municipality of Raymond

In accordance with the provisions of 36 M.R.S. § 841, I hereby make written application for abatement of property taxes as noted above. The above statements are correct to the best of my knowledge and belief.

Date: 01-11-2021
Signature of Applicant:

Rev 05/17
WARRANTY DEED

I, NATALIE A. NASSA, n/k/a NATALIE A. FOSS, of 22 Worthley Avenue, Mexico, ME 04257, FOR CONSIDERATION PAID, grant to CHRISTOPHER JOSEPH NASSA, of 4 Brown Road, Raymond, ME 04071, with WARRANTY COVENANTS, the land in the Town of Raymond, Cumberland County, State of Maine, to wit,

A certain lot or parcel of land, together with the buildings and improvements thereon, situated in the Town of Raymond, County of Cumberland, State of Maine as follows:

Beginning at an iron pipe at the intersection of the northeasterly line of the Brown Road and the southeasterly line of the discontinued Town Road which lies southeasterly from Route #85; thence running South 46° East by said northeasterly line of said Brown Road 100 feet to an iron pipe; thence running North 41° 15' East parallel to said southeasterly line of said discontinued Town Road 160 feet to an iron pipe; thence running North 46° West parallel to said northeasterly line of said Brown Road 100 feet to an iron pipe and the southeasterly line of said discontinued Town Road; thence running South 41° 15' West by said southeasterly line of said discontinued Town Road 160 feet to the point of beginning.

Being the same property conveyed to Angelo A. Nassa and Natalie A. Nassa by Arlene R. Whitney by their Deed dated April 30, 1975, and recorded in the Cumberland County Registry of Deeds on April 30, 1975 in Book 3673, Page 343.

Angelo A. Nassa predeceased Natalie A. Nassa, n/k/a Natalie A. Foss. At his death, Natalie A. Nassa, n/k/a Natalie A. Foss, as surviving joint tenant, became the sole owner of the above described real estate.

The premises are conveyed subject to any easements and restrictions of record, and this deed includes all rights, easements, privileges and appurtenances belonging to the premises hereinabove described.
State of Maine
County of Oxford, ss.    

April 13, 2020

Then personally appeared the above named NATALIE A. NASSA, n/k/a NATALIE A. FOSS and acknowledged the above instrument to be her free act and deed.

Before me,

Attorney at Law
Martin Tartre, Esq.

SUMMARY OF CHANGES
This proposed amendment would clean up similar definitions across multiple ordinances specific to roads/streets, removing any inconsistencies. The proposed text is shown in red with an underline and revised or removed language is shown in red with a strikethrough.

LUO Article 12 – Applicability and Definitions of Terms Used in this Ordinance
Back Lot Driveway - A driveway within a defined location serving access and frontage purposes for no more than two back lots and which originates from a street constructed in accordance with the Town of Raymond Street Ordinance standards for a Town accepted, proposed public, or private street, Town accepted street or from a road constructed in accordance with the Town of Raymond Street Ordinance standards for a private street.

Road – A route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing materials constructed for or created by the repeated passage of motor vehicles.

Street - A public way which affords the principal means of access to abutting properties, or a proposed way that is intended to be accepted by the Town as a public way in accordance with the Town of Raymond Street Ordinance, or a private street as defined in this ordinance. The word "street" means and includes such ways as alleys, avenues, boulevards, highways, roads, streets, and other rights-of-way. The term "street" shall also apply to areas on subdivision plans designated as "streets", etc.

  • Minor Street - A street designed to serve as primary residential access, and which meets the design standards for Public Streets as outlined in Section 5.5 of the Town of Raymond Street Ordinance.

  • Private Street - A street designed to serve as the primary access to two or more residential lots, which is built to standards as outlined in Section 5.5 Street Design Standards of the Town of Raymond Street Ordinance. Private Streets are to be maintained by an owner, or ownership such as a homeowners association, and shall not be accepted as a public street unless the street is proven to meet the public road standards as determined by the Public Works Director and a State of Maine Professional Engineer.

  • Road - A term commonly used to describe a route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing materials constructed for or created by the repeated passage of motorized vehicles. The term shall also include undedicated roads that are described in a recorded document. The term “road” shall not include those ways that have been discontinued or abandoned. For the purposes of the Town of Raymond Land Use Ordinances, a road must comply with the standards set forth under the definition of “Street” to be utilized for acceptable lot frontage or street front.

SZP Section 17 – Definitions
Road – A term commonly used to describe a route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing materials constructed for or created by the repeated passage of motorized vehicles. The term shall also include undedicated roads that are described in a recorded document. The term “road” shall not include those ways that have been discontinued or abandoned. For the purposes of the Town of Raymond
Shoreland Zoning Ordinances, a road must comply with the standards set forth under the definition of “Street” to be utilized for acceptable lot frontage or street front. A route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing materials constructed for or created by the repeated passage of motor vehicles, excluding a driveway as defined.

**Street** - A public way which affords the principal means of access to abutting properties, or a proposed way that is intended to be accepted by the Town as a public way in accordance with the Town of Raymond Street Ordinance, or a private street as defined in this ordinance. The word "street" means and includes such ways as alleys, avenues, boulevards, highways, roads, streets, and other rights-of-way. The term "street" shall also apply to areas on subdivision plans designated as "streets", etc.

- **Minor Street** - A street designed to serve as primary residential access, and which meets the design standards for Public Streets as outlined in Section 5.5 of the Town of Raymond Street Ordinance.
- **Private Street** - A street designed to serve as the primary access to two or more residential lots, which is built to standards as outlined in Section 5.5 Street Design Standards of the Town of Raymond Street Ordinance. Private Streets are to be maintained by an owner, or ownership such as a homeowners association, and shall not be accepted as a public street unless the street is proven to meet the public road standards as determined by the Public Works Director and a State of Maine Professional Engineer.

**Driveway** – Access route or right-of-way to any single family dwelling, duplex, or multifamily building if so allowed in a zone, except where such buildings are developed as part of a larger subdivision. For other allowed non-residential uses, the term shall mean any primary access route used for vehicular ingress, or egress from a location off a public or private right-of-way. All non-residential and multifamily dwelling driveways shall conform to the applicable design requirements as provided in Article 10-Site Plan Review, F. Performance Standards.

---

**Street Ordinance Section 14 – Definitions**

**Arterial Street**. A major roadway serving long distance traffic through and between municipalities and carrying traffic to major centers of activity.

**Collector Street**. A principal roadway that conveys traffic between arterial streets.

**Back Lot Driveway**. A driveway within a defined location serving access and frontage purposes for no more than two back lots and which originates from a street constructed in accordance with the Town of Raymond Street Ordinance standards for a Town accepted, proposed public, or private street constructed in accordance with the Town of Raymond Street Ordinance standards for a private street public or private street.

**Street**. A public way which affords the principal means of access to abutting properties, or a proposed way that is intended to be accepted by the Town as a public way in accordance with this Ordinance, or a private street as defined in this Ordinance. The word “street” means and includes such ways as alleys, avenues, boulevards, highways, roads, streets, and other rights-of-way. The term “street” shall also apply to areas on subdivision plans designated as “streets”, etc.
2021 PROPOSED AMENDMENTS TO
LAND USE ORDINANCE ARTICLE 12 – APPLICABILITY AND DEFINITION OF TERMS USED IN THIS ORDINANCE
SHORELAND ZONING PROVISIONS SECTION 17 – DEFINITIONS
STREET ORDINANCE SECTION 14 – DEFINITIONS
SUBDIVISION REGULATIONS ARTICLE 3 - DEFINITIONS

Minor Street. A street designed to serve as primary residential access, and which meets the design standards for public streets in Section 5.5 of this Ordinance.

Private Street- A street designed to serve as the primary access to two or more residential lots, which meets the design standards for private streets in Section 5.5 of this Ordinance. Private streets are to be maintained by an owner, or ownership such as a homeowners association, and shall not be accepted as a public street unless the street is proven to meet the public road standards as determined by the Public Works Director and a State of Maine Professional Engineer.

Road – A term commonly used to describe a route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing materials constructed for or created by the repeated passage of motorized vehicles. The term shall also include undedicated roads that are described in a recorded document. The term “road” shall not include those ways that have been discontinued or abandoned. For the purposes of the Town of Raymond Land Use Ordinances, a road must comply with the standards set forth under the definition of “Street” to be utilized for acceptable lot frontage or street front.

Subdivision Regulations Article 3 – Definitions
Driveway – Access route or right-of-way to any single family dwelling or to a duplex, triplex, or fourplex building except where such buildings are developed as part of a larger subdivision.

Easement – The authorization of a property owner for the use by another, and for a specified purpose, of any designated part of his property.

Street - A public way which affords the principal means of access to abutting properties, or a proposed way that is intended to be accepted by the Town as a public way in accordance with the Street Ordinance, or a private street as defined in this ordinance. The word "street" means and includes such ways as alleys, avenues, boulevards, highways, roads, streets, and other rights-of-way. The term "street" shall also apply to areas on subdivision plans designated as "streets", etc.

• Minor Street- A street designed to serve as primary residential access, and which meets the design standards for Public Streets as outlined in Section 5.5 of the Town of Raymond Street Ordinance.

• Private Street - A street designed to serve as the primary access to two or more residential lots, which is built to standards as outlined in Section 5.5 Street Design Standards of the Town of Raymond Street Ordinance. Private Street are to be maintained by an owner, or ownership such as a homeowners’ association, and shall not be accepted as a public street unless the street is proven to meet the public Street standards as determined by the Public Works Director and a State of Maine Professional Engineer.

Road – A term commonly used to describe a route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing materials constructed for or created by the repeated passage of motorized vehicles. The term shall also include undedicated roads that are described in a recorded document. The term “road” shall not include those ways that have been discontinued or abandoned.
For the purposes of the Town of Raymond Land Use Ordinances, a road must comply with the standards set forth under the definition of “Street” to be utilized for acceptable lot frontage or street front.
SUMMARY OF CHANGES
The proposed amendment to the Raymond Street Ordinance appendices has been added to provide design information for Street and Backlot Driveway termini turnaround design requirements. The details include revised dimensions to address emergency vehicle maneuvers and safety at the Street terminus and turnarounds.

Appendix A has been revised to provide details for the actual layout options for a street dead-end terminus for both Streets and backlot driveways.

Appendix B provides the designer-specific Fire Department requirements to be addressed in preparing a street terminus design for safe fire access. The proposed text is shown in red with an underline and revised or removed language is shown in red with a strikethrough. (Both old details will be replaced and updated in proposed Appendix A)

Below are the existing Backlot Driveway and Street Terminus Dead end details:

![Diagram of Backlot Driveway Private Road Turnaround Terminus Design]
This is the proposed New Appendices addressing revised Details and added Fire Department Requirements for Terminus/Turnarounds:

Appendix A
Street & Backlot Driveway - Terminus Turnaround Details

NOTES:
1. Driveway leg or turn-around may be installed to turn left or right (90° to main driveway) at the owner's choice.
2. Driveway for lot access may not come off the turn-around and shall not be closer than 50' from intersection point with turn-around or lot.
3. No objects, landscaping, rocks or barriers shall be set within the right-of-way limits on either leg of the proposed terminus.

STREET TURN-AROUND TERMINUS DETAIL
NOT TO SCALE

NOTES:
1. Driveway leg or turn-around may be installed to turn left or right (90° to main driveway) at the owner's choice.
2. Driveway for lot access may not come off the turn-around and shall not be closer than 50' from intersection point with turn-around or lot.
3. No objects, landscaping, rocks or barriers shall be set within the right-of-way limits on either leg of the proposed terminus.

BACKLOT DRIVEWAY TERMINUS
NOT TO SCALE
2021 PROPOSED AMENDMENT TO
STREET ORDINANCE
APPENDICES

Appendix B
Fire Department Requirements

1. The application should address Fire Rescue Department access in accordance with NFPA 1, Chapter 18.
   a. The 180-degree "hammer-head" turn-around should be designated as a "Fire Lane".
   b. The designated "Fire Lane" areas shall be marked with approved "Fire Lane" signs that read; "Fire Lane", "No Parking", "Vehicles Towed at the Owners Expense" (see an example of the sign below). The location of the signs shall be approved by the Raymond Fire Rescue Department (RFRD) and Raymond Public Works.
   c. The street and “hammer-head” turn-around shall be designed and maintained with an all-weather driving surface capable of supporting fire department apparatus with a Gross Vehicle Weight Rating (GVWR) of 75,000 lbs.
   d. The street shall be designed with an unobstructed vertical clearance of 13’ 6”.
   e. The street grades shall be designed according to the limitations of fire department apparatus regarding approach/departure/break-over angles as follows:
      i. An angle of approach no greater than 8 degrees.
      ii. Departure angles no greater than 8 degrees.
      iii. Break-over angles no greater than 13 degrees.
      iv. Street Grade shall not exceed 10 degrees along its entire length.

2. Provide an Auto-Turn (or equivalent) design for a 40-foot fire apparatus with a commercial cab, a tandem rear axle, and a 214-inch wheelbase. This design shall demonstrate that the above-noted fire apparatus can maneuver onto and back out of the new proposed driveway and turn-around via the “hammerhead” turn-around. All proposed designs shall be approved by the Raymond Fire-Rescue Department.

3. The street address assigned by the Town of Raymond E911 Coordinator shall incorporate a street address sign visible from both approach directions, and/or incorporate a street address sign at the driveway entrance that is clearly visible on approach from both approach directions (from within the fire apparatus cab). The street address lettering shall be no less than 4” in height, shall be of a contrasting color to the sign background, and preferably the letters should be reflective for night or reduced light conditions. The placement and street address signs shall be approved by the Raymond Fire Rescue Department and E911 Coordinator.
4. All proposed designs to address Fire Rescue Department access shall be approved by the Raymond Fire-Rescue Department.

ANGLE OF APPROACH & DEPARTURE FIRE APPARATUS

The angle of approach or departure affects the road clearance of the vehicle when going over short steep grades such as found in a driveway entrance, crossing a high crowned road at right angles, or in off-road service. Too low an angle of approach or departure will result in scraping the apparatus body. In those cases where equipment is stored below the body, the angle of approach or departure must be measured to a line below the equipment.

Angle of approach - The smallest angle made between the road surface and a line drawn from the front point of ground contact of the front tire to any projection of the apparatus in front of the front axle.

The angle of approach of at least 8 degrees and the angle of departure of at least 8 degrees shall be maintained at the front and rear of the vehicle when it is normally loaded.

The angle of departure and angle of approach of a fire access roadway shall not exceed 8 Degrees, or as approved by the Raymond Fire-Rescue Department.

8 Degrees Departure 13 Degrees Break-Over 8 Degrees Approach
2021 PROPOSED AMENDMENT TO
STREET ORDINANCE SECTION 5.5 – STREET DESIGN STANDARDS
STREET ORDINANCE SECTION 5.7A – DEADEND STREETS
STREET ORDINANCE SECTION 10 – WAIVERS

SUMMARY OF CHANGES
This proposed amendment to the Street Ordinance would allow waivers to be granted to the maximum grade requirements of a Private Road and Backlot Driveway. Also included are additional standards for the maximum length of a Private Road. The proposed text is shown in red with an underline and revised or removed language is shown in red with a strikethrough.

SO Section 5.5 - Street Design Standards (amended 5-17-032021)

A. The following standards apply to new public and private streets, as well as back lot driveways (see Appendix A for illustration of typical street sections by type of street):

<table>
<thead>
<tr>
<th>Description</th>
<th>Type of Street</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Arterial</td>
</tr>
<tr>
<td>Minimum Right-of-way Width</td>
<td>80'</td>

</tbody>
</table>

1. A private street which will serve fewer than 4 residences shall have a minimum travel way of 12 feet with two 2-foot shoulders and a maximum grade of 12% (3% for the first 50 ft). A private street which will serve 4-10 residences will have a minimum travel way of 16 feet with three 3-foot shoulders and a maximum road grade of 12%. Lots of eleven (11) or more residences shall have a minimum travel way of eighteen feet (18) with two (2) three-foot (3') shoulders and a maximum road grade of 10%.

2. Street intersection angles shall be as close to 90º as feasible but no less than the listed angle.

3. Unless a right-of-way of lesser width is approved by the Reviewing Authority pursuant to Article 9, Section T.1 of the Land Use Ordinance

SO Section 5.7 – Dead End Streets
In addition to the design standards above, the design of the turn-around for dead end streets proposed as public ways shall be approved by the Director of Public Works. The Board may require the reservation of a 20-foot easement in line with the street to provide continuation of pedestrian traffic or utilities to the next street. The Board may also require the reservation of a 50-foot easement in line with the street to provide continuation of the road where future subdivision is possible.

A. For proposed private streets or backlot driveways in excess of 1,000 Linear Feet (LF), the Planning Board may require a street/backlot driveway design with a second hammerhead turnaround, or added bypass lane, at the discretion of the Fire Department to provide emergency turnaround locations. The objective is to provide necessary maneuverability and spacing for multiple emergency vehicle response to residential emergency calls accessed over the proposed street or way. Such added locations for
2021 PROPOSED AMENDMENT TO
STREET ORDINANCE SECTION 5.5 – STREET DESIGN STANDARDS
STREET ORDINANCE SECTION 5.7A – DEADEND STREETS
STREET ORDINANCE SECTION 10 – WAIVERS

Turnarounds or bypass lanes shall be strategically located for each proposed increment of 1,000 feet of road (i.e., a 2,100 LF road could require 3 turnarounds or by-pass lane combinations). All non-subdivision reviewed private streets, and backlot driveways in excess of 1,000 LF shall have all terminuses, intermediate turnarounds, and/or bypass lane locations reviewed by the Raymond Fire Department, prior to any final street plan approval. The Planning Board shall be provided a written acceptance of the street or backlot driveway design from the Fire Department. Any private street approved by the Planning Board after June 15, 2021, that exceeds 1,000 LF, is not exempt from future subdivision standards for street design, should such a future subdivision use the private street for primary lot frontages and access.

SO Section 10 – Waivers

A. Where the Board makes written findings of fact that there are special circumstances, it may waive portions of the submission requirements, the standards, or other requirements, to permit a more practical and economic development provided the waivers do not have the effect of nullifying the intent and purpose of the Official Map, the Comprehensive Plan, the Zoning Ordinance, or this ordinance.

B. Where the Board makes written findings of fact that, due to special circumstances, the provision of certain required improvements is inappropriate because of inadequate or lacking connecting facilities adjacent to or in proximity of the proposed road, it may waive or modify the requirement for such improvements, subject to appropriate conditions.

C. In granting waivers to any of these standards, the Board shall require such conditions as will assure the objectives of this ordinance are met.

D. When the Board grants a waiver to any of the standards of this ordinance, the Final Plan shall indicate the waivers granted and the date on which they were granted.

E. Private Road and Backlot Driveway Grade Waivers:

The applicant shall clearly demonstrate to the Planning Board, that because of the nature of the project site, that the maximum allowed surface grades of the proposed Backlot Driveway or Private Street cannot be attained due to extreme existing conditions. Items or conditions leading to this conclusion:

a. include excessively steep topography,
b. inability to access the property site from other locations,
c. or cannot be designed by longer routing, to comply with the slope requirement,
d. or the proposed design; to meet the requirement creates excessive soil, vegetation, ledge, or rock removal and disturbed areas.

The Planning Board shall have the power to approve a Private Street or Backlot Driveway site plan that does not meet the maximum slope requirements, provided the applicant requests a waiver in writing of the performance standard for the specific street classification they cannot meet, and clearly address the waiver criteria as follows:
1 The need to alter the standard is due to existing physical property limitations, due to geometric lot configurations, topography, and presence of a dominant land feature in existence prior to June 15, 2021.

2 The approval of the waiver request will be based on the extent that the private street or backlot driveway slope can be minimized in length. The waiver request for street design must not exceed the maximum grade allowed for more than 100 feet in segmented length, without transitioning back to an allowed slope under the Street Design Standards per type of street classification as listed in the Raymond Street Ordinance. There must be 200 feet of grade meeting Raymond Street Standards, between vertical curves exceeding the maximum allowed street grade.

3 The approval of the waiver includes provisions for added width of street shoulders adjacent to travel portions of street surface exceeding the maximum grade to be increased by two (2) feet in width from what the road classification requires (as listed in the Street Design Standards with the Raymond Street Ordinance). Where shoulders are not feasible, or where road sideslopes are excessively steep and create general travel way safety concerns, other provisions such as guardrail, or protected barriers shall be provided in lieu of the shoulder width increase.

4 The approval of the waiver requested will not result in any harm to the environment, create adverse drainage conditions (especially in winter conditions), have a direct impact to adjoining waterbody, streams, flood plain, significant wetlands, vernal pools, or endangered or threatened habitat.

5 The approval of the waiver will not result in an unsafe condition to immediate neighbors, the public, and will achieve safe passage of all Town Fire Department and Emergency Vehicles. The Design shall provide a designed K value of 20, over all vertical curves within the proposed design for the street or backlot driveway. The applicant shall acquire a letter from the Raymond Fire Department in support of the street or backlot slope design, and proposed safety measures considered in their design as part of the waiver request.

6 The approval to alter the standard is based on evidence of need provided by the applicant, and through documented proof that no feasible alternative with design, or by means of access through abutting property via easement or right of way, is available to accomplish the applicant’s design criteria for property or lot access. It is the applicant’s burden of proof to provide reasonable evidence that these alternatives have been explored.
2021 PROPOSED AMENDMENT TO
LAND USE ORDINANCE ARTICLE 9 – MINIMUM STANDARDS
Y. CLEARING OF VEGETATION FOR DEVELOPMENT

SUMMARY OF CHANGES
The proposed amendment to the Land Use Ordinance has been created to address permit requirements if
landowners or proposed developments consider clearing or cutting more than the current zoning standards
limitation of 25% of the lot area. The amendment considers notification and site plan requirements and also
exempts tree cutting and clearing for agricultural practices, installation of personal utilities, or private solar
generation equipment and/or panels. The proposed text is shown in red with an underline and revised or
removed language is shown in red with a strikethrough.

LUO Article 9 – Minimum Standards
Y. Clearing of Vegetation for Development
In no event shall cleared openings for development, including but not limited to, principal and accessory
structures, driveways, and sewage disposal areas, exceed in the aggregate, 25% of the lot area or fifteen
thousand (15,000) square feet, whichever is greater, including land previously developed. [Adopted 3/21/98]
without Site Plan approval from the Planning Board for any clearing, removal of vegetation, stumps, or regrading
above this threshold.

If the development wishes only to cut or harvest trees, in excess of the threshold then a permit must be
obtained from the Code Enforcement Officer for cutting trees, or vegetation.

1. When proposing to cut or harvest trees in excess of two (2) acres, a copy of a Maine Forest Service -
Forest Operations Notification (FON) form shall be provided to the Town Code Enforcement Officer.

2. When proposing cutting or tree harvesting areas under two (2) acres, a written notification shall be
provided to the Town Code Enforcement Officer indicating the proposed area(s) to be cut or harvested,
along with the parties undertaking the tree cutting operation, a listing of the equipment used, schedule
for the operation to be completed, with dated signatures of the landowner and tree removal operations
supervisor responsible.

This standard shall not supersede any restrictions or conditions of approval for development previously required
for residential subdivision lots, or commercial site plans, nor apply to property in Shoreland Zones. Exemptions
from this standard shall be granted for agricultural purposes, personal utility equipment, and for private solar
power generation or panel installations. [Amended 2021]
Mixed Building Use in the Commercial District

2021 PROPOSED AMENDMENT TO
LAND USE ORDINANCE ARTICLE 4 – DISTRICT REGULATIONS
F. COMMERCIAL DISTRICT
2.G. PERMITTED USES

SUMMARY OF CHANGES
This proposed amendment to the Land Use Ordinance would correct what we believe was an error made in 2009. As written the ordinance allows mixed uses in the commercial zone if the commercial use is on the upper floor. The proposed text is shown in red with an underline and revised or removed language is shown in red with a strikethrough.

LUO Article 4 – District Regulations
F.2.G. Permitted Uses

Mixed-use buildings provided the upperlower floor contains only commercial uses. The upper floors may contain dwelling units or commercial uses. As used in this subparagraph (h), the term “commercial uses” means any of the uses listed in subparagraphs (a) through (f) above. [Amended 06/02/09, 2021]
2021 PROPOSED AMENDMENT TO
SHORELAND ZONING PROVISIONS SECTION 15 – LAND USE STANDARDS
K. SEPTIC WASTE DISPOSAL*

SUMMARY OF CHANGES
The proposed text is shown in red with an underline and revised or removed language is shown in red with a strikethrough.

SZP Section 15 – Land Use Standards
K. Septic Waste Disposal*

1. All plumbing shall be connected to public collection and treatment facilities when such facilities are available.
2. All subsurface sewage disposal systems shall be installed in conformance with the "State of Maine Subsurface Wastewater Disposal Rules" (Rules), Town regulations, and the following:
   a. clearing or removal of woody vegetation necessary to site a new system and any associated fill extensions, shall not extend closer than seventy-five (75) feet, horizontal distance, from the normal high-water line of a water body or the upland edge of a wetland, and
   b. a holding tank is not allowed for a first-time residential use in the shoreland zone.

Note: The State's Rules require that the minimum setback for new subsurface sewage disposal systems, shall be no less than one hundred (100) horizontal feet from the normal high-water line of a perennial water body Great Pond.

3. Where daily sewage flow exceeds 2,000 gallons, the minimum setback for new subsurface sewage disposal systems shall be 300 feet from the normal highwater line of a perennial water body Great Pond.
4. The minimum setback distances from water bodies for all new subsurface sewage disposal systems shall not be reduced by variance.
6. All development or construction within 250 horizontal feet of normal high water line of a perennial water body Great Pond shall meet the requirements of the Portland Water District Wastewater Disposal System Permit Protocol, regulations adopted by the Portland Water District on June 3, 1988; these regulations are to be enforced by the Town of Raymond.
SUMMARY OF CHANGES
This proposed amendment to the Land Use Ordinance would require a recording in the registry confirming variance approval. The proposed text is shown in red with an underline and revised or removed language is shown in red with a strikethrough.

LUO Article 6 – Board of Appeals
C. Appeals Procedure

1. The Board of Appeals shall meet as needed and as routinely scheduled following the Schedules and Deadlines as established by the Board of Appeals annually prior to the effective calendar year. A quorum of the Board is necessary to conduct an official Board meeting shall consist of at least three (3) members. A majority vote of the quorum is required for the passage or denial of any appeal.

2. The secretary shall record a permanent record of all Board meetings. All meeting minutes, and all correspondence of the Board shall be maintained in the Town Office. The transcript of testimony, if any, and exhibits, together with all papers and requests filed in the proceeding, shall constitute the record. All decisions shall become a part of the record and shall include a statement of findings and conclusions, as well as the reasons or basis therefore, upon all the material issued of fact, law or discretion presented and the appropriate order, relief or denial thereof. Notice of all decisions shall be mailed or hand-delivered to the applicant, or his or her representative or agent.

3. When the Board of Appeals reviews a decision of the Code Enforcement Officer the Board of Appeals shall hold a “de novo” hearing. At that time, the Board may receive and consider new evidence and testimony, be it oral or written. When acting in a “de novo” capacity, the Board of Appeals shall hear and decide the matter afresh, undertaking its own independent analysis of evidence and the law, and reaching its own decision. [Amended 6/7/16]

4. For all appeals, the Board shall hold a public hearing as prescribed herein. At least seven (7) days before the hearing, the Code Enforcement Officer shall notify, by mail, the owners of properties abutting the property for which the appeal or application is made. Failure to receive this notice shall not invalidate the proceedings herein prescribed. Notice of the hearing shall also be placed at least twice in a newspaper of general circulation at least seven (7) days prior to the hearing.

The Code Enforcement Officer shall attend all hearings and shall present to the Board all plans, photographs, or other factual materials, which are appropriate to an understanding of the case.

5. Any person and any municipal official or board of officials aggrieved by a decision of the Code Enforcement Officer or who wishes to request a variance from the Land Use Ordinance or who wishes a Conditional Use Permit may file an application with the Board of Appeals. An appeal of a decision made by the Code Enforcement Officer must be filed within thirty (30) days of the date of the decision.

Application materials submitted to the Board must include a completed application form, including a
(1) Application fees as established by the Board of Selectmen and listed in the Town Fee Schedule.

(2) Escrow fees as established by the Board of Selectmen and listed in the Town Fee Schedule. The fees shall be submitted and deposited in an escrow account established by the Town, which monies may be used by the Town to pay for professional legal and technical reviews and advice related to the appeal, variance, or conditional use permit application as deemed necessary by the Town. Said fees for professional reviews and advice shall include, but shall not be limited to engineering or other professional consulting fees, attorney fees, recording fees and appraisal fees.

The total escrow fees required shall be an amount estimated by the consultants and the Town as sufficient to pay for the professional review of the application. If the Town expends more than fifty percent (50%) of the escrow account prior to completing its review, the applicant shall replenish the escrow account to an amount estimated by the consultants as sufficient to complete the review. Those monies deposited by the applicant and not spent by the Town in the course of its review shall be returned to the applicant within sixty (60) days after the Appeals Board renders its final decision on the application.

All application materials must be submitted for the Board's review at least thirty (30) days prior to the Board meeting at which the applicant wishes to be heard. All meetings of the Board of Appeals are public hearings. At the public hearing, the applicant or the applicant's representative must appear before the board to present the proposal and to answer questions. Other interested parties, such as adjacent property owners, will also be permitted to speak for or against the appeal.

Written notice of the decision of the Board shall be sent to the appellant within sixteen (16) days of the date of the decision. Any aggrieved party may appeal from the decision of the Board to the Superior Court within forty-five (45) days of the date of the vote on the original decision. [Amended 6/7/16]

6. The Board of Appeals may reconsider any decision within forty-five (45) days of its prior decision. A request to the Board to reconsider a decision must be filed within 10 days of the decision that is to be reconsidered. A vote to reconsider and the action taken on that reconsideration must occur and be completed within 45 days of the date of the vote on the original decision. The Board may conduct additional hearings and receive additional evidence and testimony. [Amended 6/7/16]

7. After a decision has been made by the Board of Appeals, a new appeal of similar import shall not be entertained by the Board until one (1) year has elapsed from the date of said decision, except that the Board may entertain a new appeal if the Board believes that, owing to a mistake of law or misunderstanding of fact, an injustice was done, or it finds that a change has taken place in some essential aspect of the case sufficient to warrant a reconsideration of the appeal. [Amended 6/7/16]

8. The right of any variance from the terms of this Ordinance granted by the Board of Appeals shall expire if the work or change permitted under the variance is not begun within six (6) months or substantially completed within one (1) year as of the date of the vote by the Board. For the purposes of
this subsection, substantial completion means the outside of the structure must be complete. [Amended 5/18/91]

9. A Certificate of Variance or Setback Reduction must be recorded at the expense of the applicant in the Cumberland County Registry of Deeds within 90 days of the Board’s decision or the variance shall be null and void. A building permit must be obtained after the variance is properly recorded and before work is started.
Junkyard Regulation Update

2021 PROPOSED AMENDMENT TO
LAND USE ORDINANCE ARTICLE 9 – MINIMUM STANDARDS
F. WASTE MATERIAL ACCUMULATION

SUMMARY OF CHANGES
The proposed text is shown in red with an underline and revised or removed language is shown in red with a strikethrough.

LUO Article 9 – Minimum Standards
F. Waste Material Accumulation

Junk Yards as defined in 30 M.R.S.A., Section 2451 B. Title 30-A, Section 3752 shall not be made or maintained in any district except at a dumping place or places designated as such by the Board of Selectmen.
2021 PROPOSED AMENDMENT TO
FIRE PROTECTION ORDINANCE ARTICLE IV – NFPA LIFE SAFETY CODE 101 AND NFPA FIRE CODE (NFPA 1)
FIRE PROTECTION ORDINANCE ARTICLE VIII – NEW CONSTRUCTION
FIRE PROTECTION ORDINANCE ARTICLE IX – BUILDING ADDITIONS

SUMMARY OF CHANGES
The Fire Protection Ordinance, Articles VIII & XI are presented in their entirety below. The remaining sections of the Fire Protection Ordinance (including other sections dealing with sprinklers) are not included in this document. Only the Articles with proposed changes in language have been included. For ease of reference, the proposed new language is shown in red with an underline, and the proposed deleted language is shown as red with a strike-through. This proposed amendment would require a residential sprinkler system for dwelling units 4,800 square feet and larger, and would also update the adopted version of NFPA 101 to 2018.

The Town of Raymond adopts the NFPA Life Safety Code 101 and NFPA Fire Code 2018 edition by reference as the basis for inspection and plans review for buildings as defined by this ordinance.

FPO Article VIII – NEW BUILDING CONSTRUCTION
Section 1. An approved automatic sprinkler system shall be installed in all areas of new buildings meeting any or all of the following criteria:

A. Three (3) or more stories in height;

B. Thirty-five (35) or more feet in height, one hundred thousand (100,000) cubic feet in volume or ten thousand (10,000) forty-eight hundred square feet in gross floor area, structures sharing a common foundation, roof, or walls totaling 10,000 4,800 square feet;

C. Multiple family or multiple occupant dwelling and/or all lodging units of two (2) stories in height.

D. Any single-family dwelling attached units – such as town houses, garden apartments, with three (3) or more units attached together and/or any grouping of 3-unit style buildings.

E. Any building required to have sprinklers, larger than one dwelling unit, shall have sprinkler coverage in the truss loft.

F. Any new or renovated Residential building consisting of One-and Two-Family buildings or structures of 4,800 square feet or more in total/gross floor area shall install an approved automatic fire sprinkler system throughout.

Exceptions for One-and Two-Family buildings or structures:

1. An engineered on-site fire protection water supply is provided that meets or exceeds the requirements of NFPA 1; Chapter 18, for fire flow and total water supply. These systems shall be designed and stamped by a State of Maine registered engineer, with plans and construction approved by the Fire Chief or his/her designee.

2. An engineered compartmentalization of One-and Two-Family residential buildings or
structures with 2-hour fire-rated separation wall(s) and components, with no openings or penetrations; and provides an engineered on-site fire protection water supply that meets or exceeds the requirements of NFPA 1; Chapter 18, for fire flows and total water supply required to protect the largest 2-hour rated compartment in the building/structure. These systems shall be designed and stamped by a State of Maine registered engineer, with plans and construction approved by the Fire Chief or his/her designee.

3. The Raymond Fire Rescue Department may approve alternative methods and means of fire suppression when requested by a property owner, provided that the Raymond Fire Rescue Department finds that the requested alternative method and means meets the intent of this section, and serves to preserve and promote life, health, and safety.

Section 2. For purposes of this Article, the gross square footage of a building or structure shall include the sum total of the combined floor areas for all floor levels, basements, sub-basements, and additions, in the aggregate, measured from the outside walls, irrespective of the existence of interior fire-resistive walls, floors, and ceilings.

FPO ARTICLE IX - BUILDING ADDITIONS
Section 1. An approved automatic sprinkler system shall be installed in addition to existing buildings when the cumulative area or volume of the total buildings, including the addition, equals or exceeds one hundred thousand (100,000) cubic feet in volume or ten thousand (10,000) forty-eight hundred (4,800) gross square feet in area.

Section 2. In those instances where a proposed addition or additions will exceed twenty-five percent (25%) of the area and/or volume of the existing building and/or when the cost of the renovations of the existing building meeting the criteria in Article VIII New Building Construction Section 1; A, B, C, D, or F is equal to or greater than fifty percent (50%) of the then current building value as shown on the assessment records of the Tax Collector of the Town of Raymond, Maine, and when the resulting buildings including the addition or additions meets the criteria listed above, the existing building and addition or additions shall have an approved automatic sprinkler system.

Section 3. Any building or structure of 4,800 square feet or more in total/gross floor area; any repair, reconstruction, rehabilitation, alteration, or other improvement of a building or structure which equals or exceeds 50 percent of the existing building, shall require the entire building to be installed with an automatic fire sprinkler system.

Section 4. A fire sprinkler system is required throughout in any existing residential One- and Two-Family building of 4,800 square feet or more in total/gross floor area; when any repair, reconstruction, rehabilitation, alteration, or other improvement of the building or structure which equals or exceeds 50 percent of the existing gross square footage of the building or structure. Where renovations occur that would require a building permit, and the total area of the ceiling and/or wall covering removed or exposed exceeds 50% or greater of the total gross floor area of the building/structure, an approved fire sprinkler system is required to be installed throughout.

Section 5. For the purposes of Section 3 and 4 of this Article, the Raymond Fire Rescue Department may
consider the installation of a partial fire sprinkler system with the following conditions:

1. When a building is partially retrofitted with an approved automatic fire sprinkler extinguishing system pursuant to this section, the fire sprinkler extinguishing system retrofit shall be completed throughout the unprotected building interior areas within two (2) years from completion of the initial partial retrofit.

2. When a property owner or responsible party of a residential building chooses to partially retrofit a building as noted in the section above, the property owner shall file a deed restriction with Cumberland County Register of Deeds and obtain a performance bond with the Town of Raymond, Maine to ensure compliance with this ordinance.

Section 6. For purposes of this Article, the gross square footage of a building or structure shall include the sum total of the combined floor areas for all floor levels, basements, sub-basements, and additions, in the aggregate, measured from the outside walls, irrespective of the existence of interior fire-resistive walls, floors, and ceilings.
SUMMARY OF CHANGES
This proposed amendment to the Land Use Ordinance and Shoreland Zoning Provisions would add a definition for the term Tiny Home. The proposed text is shown in red with an underline and revised or removed language is shown in red with a strikethrough.

LUO Article 12 – Applicability and Definition of Terms Used in this Ordinance
Tiny Home – A structure that does not exceed 400 square feet, excluding lofts, that has one (1) or more habitable rooms designed, intended, or used for living quarters by one (1) or more persons living together as a family, with living, sleeping, sanitary, and cooking facilities, including within the meaning of cooking facilities a stove, hot plate, microwave oven, or other devices for heating or cooking food. The term shall include manufactured houses and rental units that contain cooking, sleeping, and toilet facilities regardless of the time-period rented. Recreational vehicles are not to be used as a Tiny Home or dwelling unit. A Tiny Home must meet all of the minimum requirements of a dwelling unit.

SZP Section 17 – Definitions
Tiny Home – A structure that does not exceed 400 square feet, excluding lofts, that has one (1) or more habitable rooms designed, intended, or used for living quarters by one (1) or more persons living together as a family, with living, sleeping, sanitary, and cooking facilities, including within the meaning of cooking facilities a stove, hot plate, microwave oven, or other devices for heating or cooking food. The term shall include manufactured houses and rental units that contain cooking, sleeping, and toilet facilities regardless of the time-period rented. Recreational vehicles are not to be used as a Tiny Home or dwelling unit. A Tiny Home must meet all of the minimum requirements of a dwelling unit.
ANNUAL TOWN MEETING WARRANT

TO: Nathan White, a constable of the Town of Raymond, in the County of Cumberland and State of Maine.

GREETINGS:

Either:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the Town of Raymond, qualified by law to vote in Town affairs, to meet at the Jordan-Small Middle School gymnasium in said town on Tuesday, June 1, 2021 at 6:00 P.M., then and there to act on Articles 1 through 33 as set out below.

The continuation of said meeting will be held at the Jordan-Small Middle School gymnasium in said town on Tuesday, the 8th day of June, A.D. 2021, at seven o'clock in the forenoon, then and there to act upon by secret ballot on Article 34 as set out below, the polling hours thereof to be from seven o'clock in the forenoon until eight o'clock in the evening.

Or:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the Town of Raymond, qualified by law to vote in Town affairs, to assemble in the Jordan-Small Middle School Gymnasium of said town on Tuesday, the 8th day of June, A.D. 2021 at seven (7:00) o'clock in the forenoon, then and there to act on the articles listed below.

The polls will open as soon as Article 1 has been acted upon and will remain open to vote on Articles 2 through 34 until eight (8:00) o'clock in the evening.

The Registrar hereby gives notice that the Town Clerk’s Office will be open for the purpose of registering voters and correcting the list of voters on Friday, May 28, 2021 from 8:30 a.m. to 4:00 p.m.; Tuesday, June 1, 2021 from 8:30 a.m. to 7:00 p.m.; and Wednesday, June 2, 2021 from 8:30 a.m. to 4:00 p.m.; Thursday, June 3, 2021 from 8:30 a.m. to 5:00 p.m.; and Friday, June 4, 2021 from 8:30 a.m. to 5:00 p.m. The Registrar will be in the Jordan-Small Middle School Gymnasium on Election Day, June 8, 2020, until the closing of the polls to register voters and to correct names and addresses.

ARTICLE 1: To elect a moderator by written ballot.
ARTICLE 2: Referendum Question A: To see if the Town will vote to:

- Set the date the 1st half of taxes due to October 31, 2021, and the 2nd half of taxes due to April 30, 2022; and
- Set the interest rate for unpaid balances and for abated taxes at six percent (6%) for the fiscal year;
- Authorize the Tax Collector or Treasurer to accept prepayments of taxes not yet committed pursuant to 36 M.R.S.A. §506, with no interest; and
- Authorize the Select Board on behalf of the Town to sell and dispose of any property acquired by the Town for nonpayment of taxes pursuant to the policy adopted by the Select Board, as may be amended from time to time, the policy to remain consistent with State statutes and laws; in all cases conveyance to be made by municipal quitclaim deed.

Note: The State of Maine will allow from 4-6% for 2021.

</tr>
</tbody>
</table>
| Planning Board recommends Article 22  
Select Board recommends/does not recommend Article 22  |

DESCRIPTION: This proposed amendment would clean up similar definitions across multiple ordinances specific to roads/streets, removing any inconsistencies.
ARTICLE 23: Referendum Question U: Shall the Appendix of the Raymond Street Ordinance, as adopted May 18, 2002, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 3?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 23
Select Board recommends/does not recommend Article 23

DESCRIPTION:
- The proposed amendment to the Raymond Street Ordinance appendices has been added to provide design information for Street and Backlot Driveway termini turnaround design requirements. The details include revised dimensions to address emergency vehicle maneuvers and safety at the Street terminus and turnarounds.
- Appendix A has been revised to provide details for the actual layout options for a street dead-end terminus for both Streets and backlot driveways.
- Appendix B provides the designer-specific Fire Department requirements to be addressed in preparing a street terminus design for safe fire access.

ARTICLE 24: Referendum Question V: Shall Section 5.5 (Street Design Standards), Section 5.7A (Dead End Streets), and Section 10 (Waivers), of the Raymond Street Ordinance, as adopted May 18, 2002, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 4?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 24
Select Board recommends/does not recommend Article 24

DESCRIPTION: This proposed amendment to the Street Ordinance would allow waivers to be granted to the maximum grade requirements of a Private Road and Backlot Driveway. Also included are additional standards for the maximum length of a Private Road.
**ARTICLE 25: Referendum Question W:** Shall Article 9 (Minimum Standards), of the Raymond Land Use Ordinance, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 5?

*(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at [www.raymondmaine.org](http://www.raymondmaine.org), or at the polling place prior to voting.)*

Planning Board recommends Article 25  
Select Board recommends/does not recommend Article 25

**DESCRIPTION:** The proposed amendment to the Land Use Ordinance has been created to address permit requirements if landowners or proposed developments consider clearing or cutting more than the current zoning standards limitation of 25% of the lot area. The amendment considers notification and site plan requirements and also exempts tree cutting and clearing for agricultural practices, installation of personal utilities, or private solar generation equipment and/or panels.

**ARTICLE 26: Referendum Question X:** Shall Article 4.F (District Regulations, Commercial District), of the Raymond Land Use Ordinance, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 6?

*(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at [www.raymondmaine.org](http://www.raymondmaine.org), or at the polling place prior to voting.)*

Planning Board recommends Article 26  
Select Board recommends/does not recommend Article 26

**DESCRIPTION:** This proposed amendment to the Land Use Ordinance would correct what we believe was an error made in 2009. As written the ordinance allows mixed uses in the commercial zone if the commercial use is on the upper floor.
ARTICLE 27: Referendum Question Y: Shall Section 15.K (Land Use Standards, Septic Waste Disposal), of the Raymond Shoreland Zoning Provisions, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 7?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 27
Select Board recommends/does not recommend Article 27

DESCRIPTION: This amendment to the Shoreland Zoning Provisions would change the requirement of a larger sized septic system within 250’ of a perennial water body, to a Great Pond only. Also amended would be the Portland Water District rule reference.

ARTICLE 28: Referendum Question Z: Shall Article 6.C (Board of Appeals, Appeals Procedure), of the Raymond Land Use Ordinance, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 8?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 28
Select Board recommends/does not recommend Article 28

DESCRIPTION: This proposed amendment to the Land Use Ordinance would require a recording in the registry confirming ZBA variance approval.

ARTICLE 31: Referendum Question AA: Shall Article 9.F (Minimum Standards, Waste Material Accumulation), of the Raymond Land Use Ordinance, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 9?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 31
Select Board recommends/does not recommend Article 31

DESCRIPTION: This amendment simply modifies the out-of-date referenced statute.
ARTICLE 32: Referendum Question AB: Shall Article IV (NFPA Life Safety Code and NFPA Fire Code NFPA 1), Article VIII (New Construction), and Article IX (Building Additions), of the Raymond Fire Protection Ordinance, as adopted May 19, 1995, and amended through June 7, 2016, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 10?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 32
Select Board recommends/does not recommend Article 32

DESCRIPTION: The Fire Protection Ordinance, Articles VIII & XI are presented in their entirety below. The remaining sections of the Fire Protection Ordinance (including other sections dealing with sprinklers) are not included document. Only the Articles with proposed changes in language have been included. This proposed amendment would require a residential sprinkler system for dwelling units 4,800 square feet and larger and would also update the adopted version of NFPA 101 to 2018.

ARTICLE 33: Referendum Question AC: Shall Article 12 (Applicability and Definition of Terms Used in this Ordinance), of the Raymond Land Use Ordinance, as adopted May 21, 1994, and amended through July 14, 2020, and Section 17 (Definitions), of the Raymond Shoreland Zoning Provisions, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 11?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 33
Select Board recommends/does not recommend Article 33

DESCRIPTION: This proposed amendment to the Land Use Ordinance and Shoreland Zoning Provisions would add a definition for the term Tiny Home.

ARTICLE 34: To elect by secret ballot the following Town Officials, namely one (1) Select Board member, for a three-year term; three (3) members for the Budget-Finance Committee, for three-year terms; two (2) members for the Budget-Finance Committee, for two-year terms; and one (1) member for the RSU School Board of Directors, for a three-year term.

Given under our hands on the XXth day of May AD 2021.

Rolf Olsen, Chair
Marshall Bullock, Vice Chair

I attest that this is a true copy.

Addendum 2

ARTICLE 22: Referendum Question T: Shall Article 12 of the Raymond Land Use Ordinance, (Applicability and Definition of Terms Used in this Ordinance) as adopted May 21, 1994, and amended through July 14, 2020, Section 17 (Definitions) of the Raymond Shoreland Zoning Provisions, as adopted May 21, 1994, and amended through July 14, 2020, Section 14 (Definitions) of the Raymond Street Ordinance, as adopted May 18, 2002, and amended through July 14, 2020, and Article 3 (Definitions) of the Subdivision Regulations for the Town of Raymond, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 2?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 22
Select Board recommends/does not recommend Article 22

DESCRIPTION: This proposed amendment would clean up similar definitions across multiple ordinances specific to roads/streets, removing any inconsistencies.

LVO Article 12 – Applicability and Definitions of Terms Used in this Ordinance

Back Lot Driveway - A driveway within a defined location serving access and frontage purposes for no more than two back lots and which originates from a street constructed in accordance with the Town of Raymond Street Ordinance standards for a Town accepted, proposed public, or private street, a Town accepted street or from a road constructed in accordance with the Town of Raymond Street Ordinance standards for a private street.

Road – A route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing materials constructed for or created by the repeated passage of motor vehicles.

Street - A public way which affords the principal means of access to abutting properties, or a proposed way that is intended to be accepted by the Town as a public way in accordance with the Town of Raymond Street Ordinance, or a private street as defined in this ordinance. The word “street” means and includes such ways as alleys, avenues, boulevards, highways, roads, streets, and other rights-of-way. The term “street” shall also apply to areas on subdivision plans designated as “streets”, etc.

- Minor Street - A street designed to serve as primary residential access, and which meets the design standards for Public Streets as outlined in Section 5.5 of the Town of Raymond Street Ordinance.

- Private Street - A street designed to serve as the primary access to two or more residential lots, which is built to standards as outlined in Section 5.5 Street Design Standards of the Town of Raymond Street Ordinance. Private Streets are to be maintained by an owner, or ownership such as a homeowners association, and shall not be accepted as a public street unless the street is proven to meet the public road standards as determined by the Public Works Director and a State of Maine Professional Engineer.

- Road - A term commonly used to describe a route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing materials constructed for or created by the repeated passage of motorized vehicles. The term shall also include undedicated roads that are described in a recorded...
document. The term “road” shall not include those ways that have been discontinued or abandoned. For the purposes of the Town of Raymond Land Use Ordinances, a road must comply with the standards set forth under the definition of “Street” to be utilized for acceptable lot frontage or street front.

SZP Section 17 – Definitions

Road – A term commonly used to describe a route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing materials constructed for or created by the repeated passage of motorized vehicles. The term shall also include undedicated roads that are described in a recorded document. The term “road” shall not include those ways that have been discontinued or abandoned. For the purposes of the Town of Raymond Shoreland Zoning Ordinances, a road must comply with the standards set forth under the definition of “Street” to be utilized for acceptable lot frontage or street front. A route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing materials constructed for or created by the repeated passage of motor vehicles, excluding a driveway as defined.

Street - A public way which affords the principal means of access to abutting properties, or a proposed way that is intended to be accepted by the Town as a public way in accordance with the Town of Raymond Street Ordinance, or a private street as defined in this ordinance. The word "street" means and includes such ways as alleys, avenues, boulevards, highways, roads, streets, and other rights-of-way. The term "street" shall also apply to areas on subdivision plans designated as "streets", etc.

• Minor Street- A street designed to serve as primary residential access, and which meets the design standards for Public Streets as outlined in Section 5.5 of the Town of Raymond Street Ordinance.
• Private Street- A street designed to serve as the primary access to two or more residential lots, which is built to standards as outlined in Section 5.5 Street Design Standards of the Town of Raymond Street Ordinance. Private Streets are to be maintained by an owner, or ownership such as a homeowners association, and shall not be accepted as a public street unless the street is proven to meet the public road standards as determined by the Public Works Director and a State of Maine Professional Engineer.

Driveway – Access route or right-of-way to any single family dwelling, duplex, or multifamily building if so allowed in a zone, except where such buildings are developed as part of a larger subdivision. For other allowed non-residential uses, the term shall mean any primary access route used for vehicular ingress, or egress from a location off a public or private right-of-way. All non-residential and multifamily dwelling driveways shall conform to the applicable design requirements as provided in Article 10-Site Plan Review, F. Performance Standards.

Street Ordinance Section 14 – Definitions

Arterial Street. A major roadway serving long distance traffic through and between municipalities and carrying traffic to major centers of activity.

Collector Street. A principal roadway that conveys traffic between arterial streets.

Back Lot Driveway. A driveway within a defined location serving access and frontage purposes for no more than two back lots and which originates from a street constructed in accordance with the Town of Raymond Street Ordinance standards for a Town accepted, proposed public, or private street constructed in accordance with the Town of Raymond Street Ordinance standards for a private street or private street.
Street. A public way which affords the principal means of access to abutting properties, or a proposed way that is intended to be accepted by the Town as a public way in accordance with this Ordinance, or a private street as defined in this Ordinance. The word “street” means and includes such ways as alleys, avenues, boulevards, highways, roads, streets, and other rights-of-way. The term “street” shall also apply to areas on subdivision plans designated as “streets”, etc.

Minor Street. A street designed to serve as primary residential access, and which meets the design standards for public streets in Section 5.5 of this Ordinance.

Private Street- A street designed to serve as the primary access to two or more residential lots, which meets the design standards for private streets in Section 5.5 of this Ordinance. Private streets are to be maintained by an owner, or ownership such as a homeowners association, and shall not be accepted as a public street unless the street is proven to meet the public road standards as determined by the Public Works Director and a State of Maine Professional Engineer.

Road – A term commonly used to describe a route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing materials constructed for or created by the repeated passage of motorized vehicles. The term shall also include undedicated roads that are described in a recorded document. The term “road” shall not include those ways that have been discontinued or abandoned. For the purposes of the Town of Raymond Land Use Ordinances, a road must comply with the standards set forth under the definition of “Street” to be utilized for acceptable lot frontage or street front.

Subdivision Regulations Article 3 – Definitions

Driveway – Access route or right-of-way to any single family dwelling or to a duplex, triplex, or fourplex building except where such buildings are developed as part of a larger subdivision.

Easement – The authorization of a property owner for the use by another, and for a specified purpose, of any designated part of his property.

Street - A public way which affords the principal means of access to abutting properties, or a proposed way that is intended to be accepted by the Town as a public way in accordance with the Street Ordinance, or a private street as defined in this ordinance. The word "street” means and includes such ways as alleys, avenues, boulevards, highways, roads, streets, and other rights-of-way. The term "street” shall also apply to areas on subdivision plans designated as "streets", etc.

• Minor Street- A street designed to serve as primary residential access, and which meets the design standards for Public Streets as outlined in Section 5.5 of the Town of Raymond Street Ordinance.

• Private Street - A street designed to serve as the primary access to two or more residential lots, which is built to standards as outlined in Section 5.5 Street Design Standards of the Town of Raymond Street Ordinance. Private Street are to be maintained by an owner, or ownership such as a homeowners' association, and shall not be accepted as a public street unless the street is proven to meet the public Street standards as determined by the Public Works Director and a State of Maine Professional Engineer.

Road – A term commonly used to describe a route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing materials constructed for or created by the repeated passage of motorized vehicles. The term shall also include undedicated roads that are described in a recorded document. The term “road” shall not include those ways that have been discontinued or abandoned. For the purposes of the Town of Raymond Land Use Ordinances, a road must comply with the standards set forth under the definition of “Street” to be utilized for acceptable lot frontage or street front.
Addendum 3

ARTICLE 23: Referendum Question U: Shall the Appendix of the Raymond Street Ordinance, as adopted May 18, 2002, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 3?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaime.org, or at the polling place prior to voting.)

Planning Board recommends Article 23
Select Board recommends/does not recommend Article 23

DESCRIPTION:

- The proposed amendment to the Raymond Street Ordinance appendices has been added to provide design information for Street and Backlot Driveway termini turnaround design requirements. The details include revised dimensions to address emergency vehicle maneuvers and safety at the Street terminus and turnarounds.
- Appendix A has been revised to provide details for the actual layout options for a street dead-end terminus for both Streets and backlot driveways.
- Appendix B provides the designer-specific Fire Department requirements to be addressed in preparing a street terminus design for safe fire access.

Below are the existing Backlot Driveway and Street Terminus Dead end details:
This is the proposed New Appendices addressing revised Details and added Fire Department Requirements for Terminus/Turnarounds:

Appendix A

Street & Backlot Driveway - Terminus Turnaround Details

NOTES:
(1) DRIVEWAY LEG OR TURN-AROUND MAY BE INSTALLED TO TURN LEFT OR RIGHT (90° TO MAIN DRIVEWAY) AT THE OWNER'S CHOICE.
(2) DRIVEWAY FOR LOT ACCESS MAY NOT COME OFF THE TURN-AROUND AND SHALL NOT BE CLOSER THAN 50 FT. FROM INTERSECTION POINT WITH TURN-AROUND CL.
(3) NO OBJECTS, LANDSCAPING, ROCKS OR BARRIERS SHALL BE SET WITHIN THE RIGHT-OF-WAY LIMITS ON EITHER LEG OF THE PROPOSED TERMINUS.

STREET TURN-AROUND TERMINUS DETAIL
NOT TO SCALE
Appendix B

Fire Department Requirements

1. The application should address Fire Rescue Department access in accordance with NFPA 1, Chapter 18.
   a. The 180-degree "hammer-head" turn-around should be designated as a "Fire Lane".
   b. The designated "Fire Lane" areas shall be marked with approved "Fire Lane" signs that read: "Fire Lane", "No Parking", "Vehicles Towed at the Owners Expense" (see an example of the sign below). The location of the signs shall be approved by the Raymond Fire Rescue Department (RFRD) and Raymond Public Works.

   c. The street and "hammer-head" turn-around shall be designed and maintained with an all-weather driving surface capable of supporting fire department apparatus with a Gross Vehicle Weight Rating (GVWR) of 75,000 lbs.
   d. The street shall be designed with an unobstructed vertical clearance of 13’ 6”.
   e. The street grades shall be designed according to the limitations of fire department apparatus regarding approach/departure/break-over angles as follows:
i. An angle of approach no greater than 8 degrees.
ii. Departure angles no greater than 8 degrees.
iii. Break-over angles no greater than 13 degrees.
iv. Street Grade shall not exceed 10 degrees along its entire length.

2. Provide an Auto-Turn (or equivalent) design for a 40-foot fire apparatus with a commercial cab, a tandem rear axle, and a 214-inch wheelbase. This design shall demonstrate that the above-noted fire apparatus can maneuver onto and back out of the new proposed driveway and turn-around via the “hammerhead” turn-around. All proposed designs shall be approved by the Raymond Fire-Rescue Department.

3. The street address assigned by the Town of Raymond E911 Coordinator shall incorporate a street address sign visible from both approach directions, and/or incorporate a street address sign at the driveway entrance that is clearly visible on approach from both approach directions (from within the fire apparatus cab). The street address lettering shall be no less than 4” in height, shall be of a contrasting color to the sign background, and preferably the letters should be reflective for night or reduced light conditions. The placement and street address signs shall be approved by the Raymond Fire Rescue Department and E911 Coordinator.

4. All proposed designs to address Fire Rescue Department access shall be approved by the Raymond Fire-Rescue Department.

**ANGLE OF APPROACH & DEPARTURE FIRE APPARATUS**

The angle of approach or departure affects the road clearance of the vehicle when going over short steep grades such as found in a driveway entrance, crossing a high crowned road at right angles, or in off-road service. Too low an angle of approach or departure will result in scraping the apparatus body. In those cases where equipment is stored below the body, the angle of approach or departure must be measured to a line below the equipment.

Angle of approach - The smallest angle made between the road surface and a line drawn from the front point of ground contact of the front tire to any projection of the apparatus in front of the front axle. The angle of approach of at least 8 degrees and the angle of departure of at least 8 degrees shall be maintained at the front and rear of the vehicle when it is normally loaded.

The angle of departure and angle of approach of a fire access roadway shall not exceed 8 Degrees, or as approved by the Raymond Fire-Rescue Department.
ARTICLE 24: Referendum Question V: Shall Section 5.5 (Street Design Standards), Section 5.7A (Dead End Streets), and Section 10 (Waivers), of the Raymond Street Ordinance, as adopted May 18, 2002, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 4?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 24
Select Board recommends/does not recommend Article 24

DESCRIPTION: This proposed amendment to the Street Ordinance would allow waivers to be granted to the maximum grade requirements of a Private Road and Backlot Driveway. Also included are additional standards for the maximum length of a Private Road.

SO Section 5.5 - Street Design Standards (amended 5-47-032021)

A. The following standards apply to new public and private streets, as well as back lot driveways (see Appendix A for illustration of typical street sections by type of street):

</table>

1. A private street which will serve fewer than 4 residences shall have a minimum travel way of 12 feet with two-2 foot shoulders and a maximum grade of 12% (3% for the first 50 ft). A private street which will serve 4-10 residences will have a minimum travel way of 16 feet with two 3-foot shoulders and a maximum road grade of 12%, Lots of eleven (11) or more residences shall have a minimum travel way of eighteen feet (18) with two (2) three-foot (3’) shoulders and a maximum road grade of 10%.

2. Street intersection angles shall be as close to 90º as feasible but no less than the listed angle.

3. Unless a right-of-way of lesser width is approved by the Reviewing Authority pursuant to Article 9, Section T.1 of the Land Use Ordinance

SO Section 5.7 – Dead End Streets

In addition to the design standards above, the design of the turn-around for dead end streets proposed as public ways shall be approved by the Director of Public Works. The Board may require the reservation of a 20-foot easement in line with the street to provide continuation of pedestrian traffic or utilities to the next
street. The Board may also require the reservation of a 50-foot easement in line with the street to provide continuation of the road where future subdivision is possible.

A. For proposed private streets or backlot driveways in excess of 1,000 Linear Feet (LF), the Planning Board may require a street/backlot driveway design with a second hammerhead turnaround, or added bypass lane, at the discretion of the Fire Department to provide emergency turnaround locations. The objective is to provide necessary maneuverability and spacing for multiple emergency vehicle response to residential emergency calls accessed over the proposed street or way. Such added locations for turnarounds or bypass lanes shall be strategically located for each proposed increment of 1,000 feet of road (i.e., a 2,100 LF road could require 3 turnarounds or by-pass lane combinations). All non-subdivision reviewed private streets, and backlot driveways in excess of 1,000 LF shall have all terminuses, intermediate turnarounds, and/or bypass lane locations reviewed by the Raymond Fire Department, prior to any final street plan approval. The Planning Board shall be provided a written acceptance of the street or backlot driveway design from the Fire Department. Any private street approved by the Planning Board after June 15, 2021, that exceeds 1,000 LF, is not exempt from future subdivision standards for street design, should such a future subdivision use the private street for primary lot frontages and access.

SO Section 10 – Waivers

A. Where the Board makes written findings of fact that there are special circumstances, it may waive portions of the submission requirements, the standards, or other requirements, to permit a more practical and economic development provided the waivers do not have the effect of nullifying the intent and purpose of the Official Map, the Comprehensive Plan, the Zoning Ordinance, or this ordinance.

B. Where the Board makes written findings of fact that, due to special circumstances, the provision of certain required improvements is inappropriate because of inadequate or lacking connecting facilities adjacent to or in proximity of the proposed road, it may waive or modify the requirement for such improvements, subject to appropriate conditions.

C. In granting waivers to any of these standards, the Board shall require such conditions as will assure the objectives of this ordinance are met.

D. When the Board grants a waiver to any of the standards of this ordinance, the Final Plan shall indicate the waivers granted and the date on which they were granted.

E. Private Road and Backlot Driveway Grade Waivers:

The applicant shall clearly demonstrate to the Planning Board, that because of the nature of the project site, that the maximum allowed surface grades of the proposed Backlot Driveway or Private Street cannot be attained due to extreme existing conditions. Items or conditions leading to this conclusion:

a. include excessively steep topography,
b. inability to access the property site from other locations,
c. or cannot be designed by longer routing, to comply with the slope requirement,
d. or the proposed design; to meet the requirement creates excessive soil, vegetation, ledge, or rock removal and disturbed areas.

The Planning Board shall have the power to approve a Private Street or Backlot Driveway site plan that does not meet the maximum slope requirements, provided the applicant requests a waiver in
writing of the performance standard for the specific street classification they cannot meet, and clearly address the waiver criteria as follows:

1. The need to alter the standard is due to existing physical property limitations, due to geometric lot configurations, topography, and presence of a dominant land feature in existence prior to June 15, 2021.

2. The approval of the waiver request will be based on the extent that the private street or backlot driveway slope can be minimized in length. The waiver request for street design must not exceed the maximum grade allowed for more than 100 feet in segmented length, without transitioning back to an allowed slope under the Street Design Standards per type of street classification as listed in the Raymond Street Ordinance. There must be 200 feet of grade meeting Raymond Street Standards, between vertical curves exceeding the maximum allowed street grade.

3. The approval of the waiver includes provisions for added width of street shoulders adjacent to travel portions of street surface exceeding the maximum grade to be increased by two (2) feet in width from what the road classification requires (as listed in the Street Design Standards with the Raymond Street Ordinance). Where shoulders are not feasible, or where road sideslopes are excessively steep and create general travel way safety concerns, other provisions such as guardrail, or protected barriers shall be provided in lieu of the shoulder width increase.

4. The approval of the waiver requested will not result in any harm to the environment, create adverse drainage conditions (especially in winter conditions), have a direct impact to adjoining waterbody, streams, flood plain, significant wetlands, vernal pools, or endangered or threatened habitat.

5. The approval of the waiver will not result in an unsafe condition to immediate neighbors, the public, and will achieve safe passage of all Town Fire Department and Emergency Vehicles. The Design shall provide a designed K value of 20, over all vertical curves within the proposed design for the street or backlot driveway. The applicant shall acquire a letter from the Raymond Fire Department in support of the street or backlot slope design, and proposed safety measures considered in their design as part of the waiver request.

6. The approval to alter the standard is based on evidence of need provided by the applicant, and through documented proof that no feasible alternative with design, or by means of access through abutting property via easement or right of way, is available to accomplish the applicant’s design criteria for property or lot access. It is the applicant’s burden of proof to provide reasonable evidence that these alternatives have been explored.
Addendum 5

ARTICLE 25: Referendum Question W: Shall Article 9 (Minimum Standards), of the Raymond Land Use Ordinance, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 5?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 25
Select Board recommends/does not recommend Article 25

DESCRIPTION: The proposed amendment to the Land Use Ordinance has been created to address permit requirements if landowners or proposed developments consider clearing or cutting more than the current zoning standards limitation of 25% of the lot area. The amendment considers notification and site plan requirements and also exempts tree cutting and clearing for agricultural practices, installation of personal utilities, or private solar generation equipment and/or panels.

LUO Article 9 – Minimum Standards

Y. Clearing of Vegetation for Development

In no event shall cleared openings for development, including but not limited to, principal and accessory structures, driveways, and sewage disposal areas, exceed in the aggregate, 25% of the lot area or fifteen thousand (15,000) square feet, whichever is greater, including land previously developed.2 [Adopted 3/21/98] without Site Plan approval from the Planning Board for any clearing, removal of vegetation, stumps, or regrading above this threshold.

If the development wishes only to cut or harvest trees, in excess of the threshold then a permit must be obtained from the Code Enforcement Officer for cutting trees, or vegetation.

1. When proposing to cut or harvest trees in excess of two (2) acres, a copy of a Maine Forest Service - Forest Operations Notification (FON) form shall be provided to the Town Code Enforcement Officer.

2. When proposing cutting or tree harvesting areas under two (2) acres, a written notification shall be provided to the Town Code Enforcement Officer indicating the proposed area(s) to be cut or harvested, along with the parties undertaking the tree cutting operation, a listing of the equipment used, schedule for the operation to be completed, with dated signatures of the landowner and tree removal operations supervisor responsible.

This standard shall not supersede any restrictions or conditions of approval for development previously required for residential subdivision lots, or commercial site plans, nor apply to property in Shoreland Zones. Exemptions from this standard shall be granted for agricultural purposes, personal utility equipment, and for private solar power generation or panel installations. [Amended 2021]
ARTICLE 26: Referendum Question X: Shall Article 4.F (District Regulations, Commercial District), of the Raymond Land Use Ordinance, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 6?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk's Office, on the Town's website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 26
Select Board recommends/does not recommend Article 26

DESCRIPTION: This proposed amendment to the Land Use Ordinance would correct what we believe was an error made in 2009. As written the ordinance allows mixed uses in the commercial zone if the commercial use is on the upper floor.

LUO Article 4 – District Regulations

F.2.G. Permitted Uses

Mixed-use buildings provided the upper floor contains only commercial uses. The upper floors may contain dwelling units or commercial uses. As used in this subparagraph (h), the term “commercial uses” means any of the uses listed in subparagraphs (a) through (f) above. [Amended 06/02/09, 2021]
ARTICLE 27: Referendum Question Y: Shall Section 15.K (Land Use Standards, Septic Waste Disposal), of the Raymond Shoreland Zoning Provisions, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 7?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 27
Select Board recommends/does not recommend Article 27

DESCRIPTION: This amendment to the Shoreland Zoning Provisions would change the requirement of a larger sized septic system within 250’ of a perennial water body, to a Great Pond only. Also amended would be the Portland Water District rule reference.

SZP Section 15 – Land Use Standards

K. Septic Waste Disposal*

1. All plumbing shall be connected to public collection and treatment facilities when such facilities are available.

2. All subsurface sewage disposal systems shall be installed in conformance with the "State of Maine Subsurface Wastewater Disposal Rules" (Rules), Town regulations, and the following:
   a. clearing or removal of woody vegetation necessary to site a new system and any associated fill extensions, shall not extend closer than seventy-five (75) feet, horizontal distance, from the normal high-water line of a water body or the upland edge of a wetland, and
   b. a holding tank is not allowed for a first-time residential use in the shoreland zone.

Note: The State's Rules require that the minimum setback for new subsurface sewage disposal systems, shall be no less than one hundred (100) horizontal feet from the normal high-water line of a perennial water bodyGreat Pond.

3. Where daily sewage flow exceeds 2,000 gallons, the minimum setback for new subsurface sewage disposal systems shall be 300 feet from the normal highwater line of a perennial water bodyGreat Pond.

4. The minimum setback distances from water bodies for all new subsurface sewage disposal systems shall not be reduced by variance.

6. All development or construction within 250 horizontal feet of normal high water line of a perennial water body Great Pond shall meet the requirements of the Portland Water District Wastewater Disposal System Permit Protocol, regulations adopted by the Portland Water District on June 3, 1988; these regulations are to be enforced by the Town of Raymond.
Addendum 8

**ARTICLE 28: Referendum Question Z:** Shall Article 6.C (Board of Appeals, Appeals Procedure), of the Raymond Land Use Ordinance, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 8?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 28
Select Board recommends/does not recommend Article 28

**DESCRIPTION:** This proposed amendment to the Land Use Ordinance would require a recording in the registry confirming ZBA variance approval.

---

**LUO Article 6 – Board of Appeals**

**C. Appeals Procedure**

1. The Board of Appeals shall meet as needed and as routinely scheduled following the Schedules and Deadlines as established by the Board of Appeals annually prior to the effective calendar year. A quorum of the Board is necessary to conduct an official Board meeting shall consist of at least three (3) members. A majority vote of the quorum is required for the passage or denial of any appeal.

2. The secretary shall record a permanent record of all Board meetings. All meeting minutes, and all correspondence of the Board shall be maintained in the Town Office. The transcript of testimony, if any, and exhibits, together with all papers and requests filed in the proceeding, shall constitute the record. All decisions shall become a part of the record and shall include a statement of findings and conclusions, as well as the reasons or basis therefore, upon all the material issued of fact, law or discretion presented and the appropriate order, relief, or denial thereof. Notice of all decisions shall be mailed or hand-delivered to the applicant, or his or her representative or agent.

3. When the Board of Appeals reviews a decision of the Code Enforcement Officer the Board of Appeals shall hold a “de novo” hearing. At that time, the Board may receive and consider new evidence and testimony, be it oral or written. When acting in a “de novo” capacity, the Board of Appeals shall hear and decide the matter afresh, undertaking its own independent analysis of evidence and the law, and reaching its own decision. [Amended 6/7/16]

4. For all appeals, the Board shall hold a public hearing as prescribed herein. At least seven (7) days before the hearing, the Code Enforcement Officer shall notify, by mail, the owners of properties abutting the property for which the appeal or application is made. Failure to receive this notice shall not invalidate the proceedings herein prescribed. The owners of properties shall be considered to be the parties listed by the Assessor as those against whom those taxes are assessed. Notice of the hearing shall also be placed at least twice in a newspaper of general circulation at least seven (7) days prior to the hearing. The Code Enforcement Officer shall attend all hearings and shall present to the Board all plans, photographs, or other factual materials, which are appropriate to an understanding of the case.
5. Any person and any municipal official or board of officials aggrieved by a decision of the Code Enforcement Officer or who wishes to request a variance from the Land Use Ordinance or who wishes a Conditional Use Permit may file an application with the Board of Appeals. An appeal of a decision made by the Code Enforcement Officer must be filed within thirty (30) days of the date of the decision. Application materials submitted to the Board must include a completed application form, including a location and site plan if appropriate, and the following fees: [Amended 06/03/2014]

(1) Application fees as established by the Board of Selectmen and listed in the Town Fee Schedule.

(2) Escrow fees as established by the Board of Selectmen and listed in the Town Fee Schedule. The fees shall be submitted and deposited in an escrow account established by the Town, which monies may be used by the Town to pay for professional legal and technical reviews and advice related to the appeal, variance, or conditional use permit application as deemed necessary by the Town. Said fees for professional reviews and advice shall include, but shall not be limited to engineering or other professional consulting fees, attorney fees, recording fees and appraisal fees.

The total escrow fees required shall be an amount estimated by the consultants and the Town as sufficient to pay for the professional review of the application. If the Town expends more than fifty percent (50%) of the escrow account prior to completing its review, the applicant shall replenish the escrow account to an amount estimated by the consultants as sufficient to complete the review. Those monies deposited by the applicant and not spent by the Town in the course of its review shall be returned to the applicant within sixty (60) days after the Appeals Board renders its final decision on the application.

All application materials must be submitted for the Board’s review at least thirty (30) days prior to the Board meeting at which the applicant wishes to be heard. All meetings of the Board of Appeals are public hearings. At the public hearing, the applicant or the applicant’s representative must appear before the board to present the proposal and to answer questions. Other interested parties, such as adjacent property owners, will also be permitted to speak for or against the appeal. Written notice of the decision of the Board shall be sent to the appellant within sixteen (16) days of the date of the decision. Any aggrieved party may appeal from the decision of the Board to the Superior Court within forty-five (45) days of the date of the vote on the original decision. [Amended 6/7/16]

6. The Board of Appeals may reconsider any decision within forty-five (45) days of its prior decision. A request to the Board to reconsider a decision must be filed within 10 days of the decision that is to be reconsidered. A vote to reconsider and the action taken on that reconsideration must occur and be completed within 45 days of the date of the vote on the original decision. The Board may conduct additional hearings and receive additional evidence and testimony. [Amended 6/7/16]

7. After a decision has been made by the Board of Appeals, a new appeal of similar import shall not be entertained by the Board until one (1) year has elapsed from the date of said decision, except that the Board may entertain a new appeal if the Board believes that, owing to a mistake of law or misunderstanding of fact, an injustice was done, or it finds that a change has taken place in some essential aspect of the case sufficient to warrant a reconsideration of the appeal. [Amended 6/7/16]

8. The right of any variance from the terms of this Ordinance granted by the Board of Appeals shall expire if the work or change permitted under the variance is not begun within six (6) months or substantially completed within one (1) year as of the date of the vote by the Board. For the purposes of this subsection, substantial completion means the outside of the structure must be complete. [Amended 5/18/91]
9. A Certificate of Variance or Setback Reduction must be recorded at the expense of the applicant in the Cumberland County Registry of Deeds within 90 days of the Board’s decision or the variance shall be null and void. A building permit must be obtained after the variance is properly recorded and before work is started.
ARTICLE 31: Referendum Question AA: Shall Article 9.F (Minimum Standards, Waste Material Accumulation), of the Raymond Land Use Ordinance, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 9?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 31
Select Board recommends/does not recommend Article 31

DESCRIPTION: This amendment simply modifies the out-of-date referenced statute.

Luo Article 9 – Minimum Standards

F. Waste Material Accumulation

Junk Yards as defined in 30 M.R.S.A., Section 2451-B. Title 30-A, Section 3752 shall not be made or maintained in any district except at a dumping place or places designated as such by the Board of Selectmen.
ARTICLE 32: Referendum Question AB: Shall Article IV (NFPA Life Safety Code and NFPA Fire Code (NFPA 1)), Article VIII (New Construction), and Article IX (Building Additions), of the Raymond Fire Protection Ordinance, as adopted May 19, 1995, and amended through June 7, 2016, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 10?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk’s Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 32
Select Board recommends/does not recommend Article 32

DESCRIPTION: The Fire Protection Ordinance, Articles VIII & XI are presented in their entirety below. The remaining sections of the Fire Protection Ordinance (including other sections dealing with sprinklers) are not included in the document. Only the Articles with proposed changes in language have been included. This proposed amendment would require a residential sprinkler system for dwelling units 4,800 square feet and larger and would also update the adopted version of NFPA 101 to 2018.

SUMMARY OF CHANGES

The Fire Protection Ordinance, Articles VIII & XI are presented in their entirety below. The remaining sections of the Fire Protection Ordinance (including other sections dealing with sprinklers) are not included in the document. Only the Articles with proposed changes in language have been included. For ease of reference, the proposed new language is shown in red with an underline, and the proposed deleted language is shown in red with a strike-through. This proposed amendment would require a residential sprinkler system for dwelling units 4,800 square feet and larger, and would also update the adopted version of NFPA 101 to 2018.

The Town of Raymond adopts the NFPA Life Safety Code 101 and NFPA Fire Code 2018 edition by reference as the basis for inspection and plans review for buildings as defined by this ordinance.

FPO Article VIII – NEW BUILDING CONSTRUCTION

Section 1. An approved automatic sprinkler system shall be installed in all areas of new buildings meeting any or all of the following criteria:

A. Three (3) or more stories in height;

B. Thirty-five (35) or more feet in height, one hundred thousand (100,000) cubic feet in volume or ten thousand (10,000) forty-eight hundred (4,800) square feet in gross floor area, structures sharing a common foundation, roof, or walls totaling 40,000 4,800 square feet;

C. Multiple family or multiple occupant dwelling and/or all lodging units of two (2) stories in height.

D. Any single-family dwelling attached units – such as town houses, garden apartments, with three (3) or more units attached together and/or any grouping of 3-unit style buildings.
E. Any building required to have sprinklers, larger than one dwelling unit, shall have sprinkler coverage in the truss loft.

F. Any new or renovated Residential building consisting of One-and Two-Family buildings or structures of 4,800 square feet or more in total/gross floor area shall install an approved automatic fire sprinkler system throughout.

Exceptions for One-and Two-Family buildings or structures:

1. An engineered on-site fire protection water supply is provided that meets or exceeds the requirements of NFPA 1; Chapter 18, for fire flow and total water supply. These systems shall be designed and stamped by a State of Maine registered engineer, with plans and construction approved by the Fire Chief or his/her designee.

2. An engineered compartmentalization of One-and Two-Family residential buildings or structures with 2-hour fire-rated separation wall(s) and components, with no openings or penetrations; and provides an engineered on-site fire protection water supply that meets or exceeds the requirements of NFPA 1; Chapter 18, for fire flows and total water supply required to protect the largest 2-hour rated compartment in the building/structure. These systems shall be designed and stamped by a State of Maine registered engineer, with plans and construction approved by the Fire Chief or his/her designee.

3. The Raymond Fire Rescue Department may approve alternative methods and means of fire suppression when requested by a property owner, provided that the Raymond Fire Rescue Department finds that the requested alternative method and means meets the intent of this section, and serves to preserve and promote life, health, and safety.

Section 2. For purposes of this Article, the gross square footage of a building or structure shall include the sum total of the combined floor areas for all floor levels, basements, sub-basements, and additions, in the aggregate, measured from the outside walls, irrespective of the existence of interior fire-resistive walls, floors, and ceilings.

FPO ARTICLE IX - BUILDING ADDITIONS

Section 1. An approved automatic sprinkler system shall be installed in addition to existing buildings when the cumulative area or volume of the total buildings, including the addition, equals or exceeds one hundred thousand (100,000) cubic feet in volume or ten thousand (10,000) forty-eight hundred (4,800) gross square feet in area.

Section 2. In those instances where a proposed addition or additions will exceed twenty-five percent (25%) of the area and/or volume of the existing building and/or when the cost of the renovations of the existing building meeting the criteria in Article VIII New Building Construction Section 1; A, B, or C, D, or E is equal to or greater than fifty percent (50%) of the then current building value as shown on the assessment records of the Tax Collector of the Town of Raymond, Maine, and when the resulting buildings including the addition or additions meets the criteria listed above, the existing building and addition or additions shall have an approved automatic sprinkler system.

Section 3. Any building or structure of 4,800 square feet or more in total/gross floor area; any repair, reconstruction, rehabilitation, alteration, or other improvement of a building or structure which equals or exceeds 50 percent of the existing building, shall require the entire building to be installed with an
automatic fire sprinkler system.

Section 4. A fire sprinkler system is required throughout in any existing residential One- and Two-Family building of 4,800 square feet or more in total/gross floor area; when any repair, reconstruction, rehabilitation, alteration, or other improvement of the building or structure which equals or exceeds 50 percent of the existing gross square footage of the building or structure. Where renovations occur that would require a building permit, and the total area of the ceiling and/or wall covering removed or exposed exceeds 50% or greater of the total gross floor area of the building/structure, an approved fire sprinkler system is required to be installed throughout.

Section 5. For the purposes of Section 3 and 4 of this Article, the Raymond Fire Rescue Department may consider the installation of a partial fire sprinkler system with the following conditions:

1. When a building is partially retrofitted with an approved automatic fire sprinkler extinguishing system pursuant to this section, the fire sprinkler extinguishing system retrofit shall be completed throughout the unprotected building interior areas within two (2) years from completion of the initial partial retrofit.

2. When a property owner or responsible party of a residential building chooses to partially retrofit a building as noted in the section above, the property owner shall file a deed restriction with Cumberland County Register of Deeds and obtain a performance bond with the Town of Raymond, Maine to ensure compliance with this ordinance.

Section 6. For purposes of this Article, the gross square footage of a building or structure shall include the sum total of the combined floor areas for all floor levels, basements, sub-basements, and additions, in the aggregate, measured from the outside walls, irrespective of the existence of interior fire-resistive walls, floors, and ceilings.
ARTICLE 33: Referendum Question AC: Shall Article 12 (Applicability and Definition of Terms Used in this Ordinance), of the Raymond Land Use Ordinance, as adopted May 21, 1994, and amended through July 14, 2020, and Section 17 (Definitions), of the Raymond Shoreland Zoning Provisions, as adopted May 21, 1994, and amended through July 14, 2020, be further amended by adding the underscored language and removing the language in strikeout text as in Addendum 11?

(A copy of the full text of the proposed change is available for review and inspection at the Town Clerk's Office, on the Town’s website at www.raymondmaine.org, or at the polling place prior to voting.)

Planning Board recommends Article 33
Select Board recommends/does not recommend Article 33

DESCRIPTION: This proposed amendment to the Land Use Ordinance and Shoreland Zoning Provisions would add a definition for the term Tiny Home.

LUO Article 12 – Applicability and Definition of Terms Used in this Ordinance

Tiny Home – A structure that does not exceed 400 square feet, excluding lofts, that has one (1) or more habitable rooms designed, intended, or used for living quarters by one (1) or more persons living together as a family, with living, sleeping, sanitary, and cooking facilities, including within the meaning of cooking facilities a stove, hot plate, microwave oven, or other devices for heating or cooking food. The term shall include manufactured houses and rental units that contain cooking, sleeping, and toilet facilities regardless of the time-period rented. Recreational vehicles are not to be used as a Tiny Home or dwelling unit. A Tiny Home must meet all of the minimum requirements of a dwelling unit.

SZP Section 17 – Definitions

Tiny Home – A structure that does not exceed 400 square feet, excluding lofts, that has one (1) or more habitable rooms designed, intended, or used for living quarters by one (1) or more persons living together as a family, with living, sleeping, sanitary, and cooking facilities, including within the meaning of cooking facilities a stove, hot plate, microwave oven, or other devices for heating or cooking food. The term shall include manufactured houses and rental units that contain cooking, sleeping, and toilet facilities regardless of the time-period rented. Recreational vehicles are not to be used as a Tiny Home or dwelling unit. A Tiny Home must meet all of the minimum requirements of a dwelling unit.

TO: Select Board

RE: Open Town Meeting or Vote Warrant Articles via Secret Ballot?

I thought it may be helpful to outline some facts regarding this topic:

- **At Open Town Meeting Citizens have the opportunity to:**
  - Ask questions, and thus far there have been no members of the public who have attended the reviews, nor the workshop.
  - Make motions to reduce amounts of warrant articles.

- **When Voting via Secret Ballot:**
  - The ballot is multiple pages (last year was 8 pages and took voters 15-20 minutes)
  - The ballot questions can not have any extra information to explain the article, so the voters must depend on an addendum document to see details, especially for Ordinance changes (last year was 22 pages).
  - We had copies of the addendum at the Town Office for in-person absentees and at the polls on Election Day. For the mailed absentees we included a piece of paper explaining that they would find the addendum on our website.

- **Attendance:**
  - Annual Town Meeting:
    - 2019 – 77
    - 2018 – 50
    - 2017 – 60
    - 2016 – 63
o Municipal Only Election (there will be no State ballot in June):
  ▪ 2019 – 219
  ▪ 2015 – 528 (RSU Withdrawal Question & Louise vs Joe)
  ▪ 2007 – 280

• COVID-19 Precautions
  o Open Town Meeting
    ▪ Capacity Limits – according to the Governor’s Covid-19 Response webpage, on May 24th indoor gatherings will increase to 75% capacity. Since we use the JSMS Gym, there will be no problem setting up the check-in line and the seating to comply and allow people to attend.
    ▪ Technology – I have spoken with Kevin and they would set up all of their equipment on the stage and would suspend a microphone for the public to stand under to ask any questions.
  o Secret Ballot Voting
    ▪ Citizens would have the option to vote via absentee ballot and would need access to the Addendum.
    ▪ We have already run 2 major elections during the pandemic and have a plan to comply with the State guidelines.
    ▪ Last June it took voters 15-20 minutes to vote the ballots, and many had questions for which all we could do is give them the addendum.
    ▪ We will need to have many copies of the Addendum available for voters and with 13 proposed ordinance changes it could be a sizeable document.

In conclusion, there are in essence 2 schools of thought:

  • Hold Open Town Meeting safely, complying with all State COVID-19 guidelines, and give our citizens a bit of “normalcy” back.
  • Err on the side of caution and vote the warrant via secret ballot.

There are fewer people who attend Open Town Meeting than attend secret ballot elections and there are arguments on both sides of this as well:

  • At Open Town Meeting the voters have the opportunity to fully understand what they are voting on.
  • Via Secret Ballot there are many voters who are not as well informed (though this is certainly their choice as the information is readily available to them).

</table>

Y – Yes, this action is required or permitted.
N – No, this action cannot be taken or is unnecessary.
M – Majority vote required.

A – This motion may be made when another motion has the floor.
B – Same rank as motion out of which it arises.
C – Only a prevailing negative vote on this motion may be reconsidered.
D – This motion has the same rank, and is debatable to the same extent, as the motion being reconsidered.
E – Only a person who voted on the prevailing side may make this motion.

None of the motions in the table should interrupt a speaker.

This table does not include the statutory procedure for challenge (to question a vote), mentioned in the “Notes for Voters” and discussed in the *Maine Moderator’s Manual*.

  Notes for Voters on Town Meeting Procedure ....................... 29
CHAPTER I: INTRODUCTION AND ACKNOWLEDGEMENTS

This is a guide for the orderly conduct of annual and special town meetings in Maine. This is the seventh edition of a manual first published in 1964 and most recently revised in 2005. Its rules are few and simple because a town meeting is no place for complex parliamentary procedure. It is not intended to be a directive – most of the rules discussed here are only procedural suggestions.

Apart from the few rules required by law, any town meeting may adopt reasonable rules of procedure. See Bullard v. Allen, 124 Me. 251, 260 (Me. 1925). Because a town meeting is not a continuing body, each meeting is a separate session, so a town that wants to adopt rules of procedure must do so anew, at the start of each meeting. An appropriate motion is "I move that we adopt the Maine Moderator’s Manual, 2021 edition, to guide the moderator in the conduct of this meeting." Note the careful use of the word "guide" here—this motion would neither bind nor limit the moderator (but note, too, that some rules in this Manual are statutory, not merely parliamentary). In lieu of a formal motion, a moderator may simply declare that the moderator will be guided by this Manual, and if no one objects consent can be inferred. A moderator may wish to have a more detailed body of rules such as Demeter or the Massachusetts guide mentioned below at town meeting for reference.

It is hoped that most town meetings will use this Manual’s rules. If a town meeting does not adopt a system of parliamentary procedure, it is incumbent upon the moderator to institute rules of procedure to keep the meeting orderly. For at least the annual meeting, printing this Manual’s table of rules in the annual report should aid voters in understanding and participating in the town meeting, and may give them a sense of ownership in this unique New England institution. This edition also includes a page of “Notes for Voters” that can be printed and distributed to voters.

When no rule in this manual or otherwise known to the moderator seems to cover a situation, remember that there is no substitute for the use of good common sense. Bear in mind, also, when using this Manual’s Rules of Procedure Table, that more thorough compilations, such as Robert’s Rules of Order, include variations of the rules for special circumstances (as well as many other rules for other circumstances). The Table in this Manual is simplified and adapted for Town Meeting use, and may be inconsistent with more thorough, general-purpose treatises. Do not let voters who bring their Robert’s along protract proceedings with a battle of the parliamentary experts or points of parliamentary procedure. Make a procedural ruling with fair dispatch and let it be appealed or not, and continue on as the result indicates. Strive to keep rules few, simple, clear, and protective of the interests of the minority of voters.

We gladly acknowledge the utility of Town Meeting Time, A Handbook of Parliamentary Law, by Richard B. Johnson, Benjamin A. Trustman, and Charles Y. Wadsworth (3rd ed., rev. 2001), which informed much of this manual. We also acknowledge the helpful online materials of Professor John A. Cagle, Parliamentarian for the Academic Senate and Professor of Communications at California State University, Fresno. For access to both, see the sources listed in the final Chapter of this Manual.

Citations to a numbered “Section” (or §) are to laws in Title 30-A, M.R.S., unless otherwise indicated. Additional subjects (such as qualifications of office for moderators and deputy moderators) are discussed in Maine Municipal Association’s Town Meeting & Elections Manual, which may also contain additional discussion of some of the topics covered here.
CHAPTER II: MODERATOR

Election and Tenure

The moderator is the official elected by the town meeting itself to serve as chairperson, to “moderate” the meeting. His or her term of office is for the duration of that town meeting and no longer. If the town meeting is recessed or adjourned to a time certain the moderator has no power in the interim, but presides at the later session without further election or designation by the town meeting. When the town meeting is finally adjourned, the term of the moderator is at a complete end (§ 2524, see Appendix). A later meeting, even one called for the next week, would have to elect a new moderator.

The town clerk, or in the clerk’s absence any town selectman or constable, opens the town meeting by calling for the election of the moderator. See § 2524. No matter how other town officials are elected, whether by nominations from the floor or by secret (Australian) ballot, the moderator is always elected by “written ballots,” slips of paper prepared by the clerk, on which the voters write the name of the candidate for moderator each prefers. More detail is given in the Outline of Town Meeting, below.

Deputy Moderator

A moderator may appoint and swear a deputy moderator to assist in the conduct of the meeting. If the moderator becomes absent from an open town meeting or unable to carry out his or her duties and has not appointed a deputy, the clerk may call for the election of a deputy to act in the moderator’s absence. If the clerk is also absent, a selectman or constable may call for the election of a deputy moderator. (For secret, “Australian” ballot elections—those held at a polling place, § 2528 seems to require that the moderator be present at the polls throughout a secret ballot election, except for a temporary absence, for which the moderator should have a deputy in charge.) For additional guidance on use of a moderator and deputy for a bifurcated town meeting, see chapter 7 of MMA’s Town Meeting & Elections Manual.

Qualifications, Duties and Functions

Qualifications.

Unless otherwise provided in a municipal charter, moderators and deputy moderators must be citizens of the United States, residents of Maine, and at least 18 years of age. See § 2526(3).

Duties.

The moderator supervises the election of other town officials and presides over the other business of a meeting, the foremost element of which is the annual appropriations, but which may include ordinance adoption and amendment and other matters as well. Both for elections and for other business, the moderator’s general duty is to see that definitive, plain, and clear action is taken on each warrant article. The moderator should ensure that the clerk has ample opportunity to record the actions taken.

Functions.

The moderator’s general duties include:

• announcing the articles of business to be considered and conducting any elections they call for;
• recognizing voters who seek to speak;
• ruling out of order clearly frivolous or obstructive motions;
• allowing debate to proceed following a second and the moderator’s statement of a motion to the assembly;
• enforcing rules governing debate and maintenance of order and decorum;
• answering parliamentary procedure questions and deciding all procedural issues (subject to appeal, discussed below);
• repeating and putting to a vote all questions including motions to amend and announcing the outcome of every vote (which is subject to challenge, discussed below);
• ensuring in a reasonable manner the integrity of the voting process including the written ballot process; and
• allowing a motion to adjourn after ascertaining in consultation with the selectmen, clerk, and assembly that no business remains to be conducted and
that the clerk who is recording the votes of the meeting has no questions about the wording of any amendments or about any action taken.

A moderator is subject to the same penalties for neglect of official duty as are other town officials. See §§ 2524 and 2607.

**Powers and Their Exercise**

Moderators should be especially on guard to see that a meeting does not become bogged down, sidetracked, or unruly. Section 2524 grants the moderator broad powers of regulation. We also discuss here parliamentary order, the motion to appeal, and the moderator as speaker and voter.

1. **Abusive use of parliamentary procedure.**

Sometimes a voter may try to use technical parliamentary rules having little application in town meeting. These may confuse the average voter and delay the meeting’s progress. The moderator should promptly and firmly inform the voter that the particular rule proposed is not being used, or is inappropriate and that the motion is therefore out of order, and then state any more appropriate rule. If the voter persists or insists, the moderator may suggest a Motion to Appeal (discussed below and in Chapter VII, and also mentioned in the “Notes for Voters”) to resolve the matter. If the voter persists after losing a motion to appeal, a moderator may threaten to rule the voter out of order and then proceed to do so if necessary.

The moderator may announce and enforce appropriate rules of debate, e.g., that speakers should address the moderator only, and should refer to officials by their title and to other speakers only as “the first speaker,” or similar. This is to maintain a formality that will help to keep the focus on business and not on individuals or their differences.

For the same reason, all communication from the floor should be through the moderator. Voters should not address an official or other person directly, but should ask the moderator to put a question to the third party, because what can start as a mild direct question can become a cross-examination or even a shouting match.

The moderator should command silence, if that is required to rein in speakers who attempt to question others directly, and should insist that speakers address the merits and not personalities or other extraneous matters. For other suggested rules of debate, see the “Notes for Voters” at the back of this Manual, and discussion in Chapter VIII.

2. **Disorderliness.**

Occasionally a voter will behave in a truly disorderly manner. A polite caution may obtain cooperation; sometimes a brief recess and interview will end the difficulty. Where only stronger action will suffice, § 2524 allows the moderator to have a constable escort from the meeting a person who fails to come to order after a moderator’s command to do so, and, if necessary, to hold that person in confinement until the meeting is adjourned. We recommend that this be done only by a constable who holds a course completion certificate from the Maine Criminal Justice Academy (MCJA) allowing the constable (with authorization from the board of selectmen) to make arrests.

Any deviation from this advice should occur only after specific consultation with town counsel. In towns lacking an Academy-certified constable, the selectmen may wish to talk with the county sheriff before town meeting about the scheduled date and possible need for on-call assistance.

3. **Parliamentary order.**

The moderator rules on the priority of motions, that is, the various main motions and privileged, subsidiary, and incidental motions. This Manual’s Table includes a column (“Rank”) that should aid in determining the priority of motions where multiple motions are sought or made.

Except for an intervening higher-ranking motion or an incidental motion, only one motion should be under discussion and
moving towards disposition at any one time. Following this rule closely will prevent confusion. In the event that a second motion of lower rank is offered before the first motion is disposed of, the moderator should indicate that the second motion is not in order and repeat the essence of the motion that is then being considered by the town meeting.

Keeping one subject only before the meeting and keeping the discussion restricted to that single subject will probably take 90% of a moderator’s time and efforts. If many hands are in the air, it will probably be most effective simply to note all of the various kinds of motions down as they are moved and seconded, and then state them to the meeting or otherwise allow debate to begin first on the highest ranking motion, then on the second-highest, etc. If many of the voters who wish to make a motion seek only to amend the pending motion, then it may be most effective to conduct a quick and informal survey of their desires: this may inspire someone to offer a comparatively comprehensive amendment that will address multiple concerns or interests.

Remember that no motion is in order for debate until the moderator says it is or otherwise allows debate to commence.

4. The parliamentary motion of appeal. Where a moderator’s procedural ruling (not the moderator’s determination of the outcome of a vote) meets with audible disfavor, maintain order by instructing the meeting on the motion to appeal, under which any voter may appeal to the meeting to overrule the moderator’s ruling. Ask the voter to state his or her objection to the ruling, and, where appropriate, the rule the voter believes should apply. It will suffice, however, if someone says “I move to appeal the moderator’s ruling and I ask that instead we [describing the proposed competing procedure].” Then call for the vote.

The question is “Shall the moderator’s ruling be overturned?” A prevailing affirmative vote reverses the moderator and substitutes the rule proposed by the objecting voter. A negative vote sustains the moderator. A tie vote also sustains the moderator, because the question fails to achieve a majority vote. The motion is in this Manual’s Table and mentioned in “Notes for Voters.”

5. The moderator as speaker and voter. How does a moderator who is also a voter in a town exercise a voter’s right to speak on a motion? Turn the gavel over to a deputy moderator (see below) who has not spoken on the question and does not wish to. To avoid role confusion, go to the floor to seek to be recognized, and resume the chair after the motion has been voted on. It is best to speak, if at all, only when an article distinctly touches and concerns the moderator.

For discussion of the non-voter moderator who wishes to speak on a question, see the discussion in Chapter IV of the 2/3rds consent rule applicable to all non-voters.

A moderator who is a voter in the town may vote in any election or on any question, but typically a moderator refrains both from speaking as a voter and from voting, to remain above partisanship. Some treatises applicable in non-town meeting situations allow a moderator to vote only to break a tie. In a Maine town meeting the moderator should either vote right along with everyone else or refrain from voting. It does not seem sensible, from an outcome point of view, for a moderator to vote in a voice vote or any other vote that is not actually counted: if one more voice or one more hand would determine the outcome then the vote is too close to call in any but quite a small assembly. Except in written ballot voting, the moderator wishing to vote should have a non-voting deputy take over temporarily, even though the moderator’s determination of a vote is subject to challenge.

6. Swearing newly elected officials. By law, the annual town meeting is the meeting at which officials are elected for the ensuing year. However and whenever they are elected, the moderator is empowered to swear them to their offices while the open meeting is in session. It is fairly common practice for the town meeting moderator in
open town meeting to swear, whether individually, by board, or *en masse*, all electees who are present, either after all elections have been concluded or after all the articles on the warrant have been disposed of and immediately before adjournment.

To avoid issues of succession in office where an incumbent has not run again or has been turned out of office, it may be best to swear electees in right before adjournment. Often the members in office prior to the election take an active role in defending the proposed budget, making it less confusing to swear new members in after business has been concluded and immediately before adjournment. However, most of the time it should be fine to follow accepted local practice, including allowing electees to be sworn in later by the town clerk. The wording of oaths of office appears in MMA’s *Municipal Clerk’s Manual* and *Town Meeting & Elections Manual*.

The moderator should issue a certificate of election to be provided to any electee who is not present or will not be sworn at the open meeting. With that certificate the electee can be sworn by any notchary public, attorney at law, or dedimus justice. Even without the certificate an electee can be sworn by a town clerk who was present at the town meeting.

The moderator’s power to swear one to office is operative only during the open, active session of a town meeting: a moderator’s administration of an oath while a meeting has been adjourned to a later time certain, or during a recess, is invalid and ineffective. Also, the power of the moderator to swear electees is not an exclusive power: one who wants to be sworn in by an attorney or notary friend, for example, may choose to be sworn after adjournment.

In towns that use the § 2528 secret (“Australian”) ballot, the moderator will fill out a certificate of the election results and give it to the clerk but will not swear electees to office unless the secret ballot voting is followed by an open town meeting called by the same warrant. In that case, the moderator could swear them in either right after convening the open meeting or right before the open meeting is adjourned. Unless a charter or ordinance provides a specific start date for terms of elected officials, an electee could take the certificate of election and be sworn in by a dedimus justice, notary public, or the municipal clerk immediately after referendum election results are issued.

For secret ballot elections not followed by an open town meeting, the moderator should fill out a certificate of election for each apparent winner and give the certificates to the clerk to deliver. There is probably no need for a moderator to certify open town meeting election results to the clerk in writing, because the clerk is present, hears the moderator declare the results and makes a record in reliance on that declaration.

When does one’s term of office begin? A term of one year or more in an elected office should be considered to run, in the absence of an express provision of law, charter or ordinance, from town meeting to town meeting. Viewed that way, one’s term of office likely begins when the meeting completes its business and adjourns (although, to enter the office, one must both qualify for the office and be sworn). An exception for school committee members allows towns to vote that they take office on a delayed basis, on a designated date before July 1 of the year of election. A charter town may have a similar delayed-entry provision for other elective offices.

**CHAPTER III: A SUGGESTED OUTLINE OF TOWN MEETING**

Below we outline open town meeting procedure, not secret ballot election procedure. For that, see MMA’s *Town Meeting & Elections Manual*. 
Clerk

The clerk convenes the meeting at the appointed time, often reading the Greeting and Return from the original warrant.

The clerk calls for election of a moderator by written ballot (this is often the first article in the warrant) and presides over the nomination and election process.

Once the clerk has opened the floor for nominations a person wishing to nominate need not wait to be recognized, and no second is required. A person nominating a person may not speak against that person but may choose to vote against that person. The clerk does not need a motion to close the floor to nominations, but may declare them closed once it is apparent that no additional voters wish to make a nomination. Although not required to do so, the clerk may seek to obtain the oral consent of nominees to serve if elected.

The clerk distributes written ballots and then collects and counts them, declares the result, swears the moderator to office, and hands over any gavel or other usual local symbol of office. The clerk moves to a table or desk to record the meeting’s actions, and the moderator leads the remainder of the meeting.

Although elections for moderator are often uncontested, written ballot voting should nonetheless be used every time, as the law requires it. See §§ 2524, 2525. If there are multiple nominees and a tie results, all nominees (not just those who are tied if there are others who garnered fewer votes) remain in play for the second and any further rounds of balloting. Remember that a tally of 3-0 is a majority of votes cast even if there are 1,000 voters present: thus, as a time-saver where there is only one nominee for moderator, the clerk may wish to distribute ballots only to those few who actually request them, rather than insist that all voters take a ballot and return it whether blank or marked. State law forbids the election of any town official on a motion to cast one ballot. See § 2525. A motion to “have the clerk cast one ballot,” and a motion to elect “by acclamation” probably fall within this prohibition. We recommend to always obtain at least three ballots, where possible, for any uncontested race that can be filled only by secret ballot.

Moderator

a. The moderator may appoint a deputy moderator and swear in the deputy.

b. The moderator declares that if there is no objection the moderator will be guided by the Maine Moderator’s Manual in supervising the conduct of the meeting. (The moderator may prefer to solicit a formal motion and vote for this.)

c. The moderator explains such rules as seem warranted at the head of the meeting and covers housekeeping matters, e.g., maintaining separation of voters and non-voters.

d. The moderator announces the winners of any preceding secret ballot election. Typically, the moderator does not swear them in until just before the meeting adjourns, or by local custom may swear them in on an agreed understanding that they do not enter into duties of office until after the meeting adjourns. (See Chapter II, “Swearing newly elected officials.”) The moderator then conducts elections for other officials remaining to be elected by the town meeting.

e. For elections not previously held (or to be held later) by secret ballot vote at the polls, the moderator conducts the nomination process substantially as described above for the clerk in electing the moderator, and calls for the vote, which is done by written ballot for selectman and school committee member even if there is only a single nominee. Remember that even in uncontested races a winner must obtain a majority of votes in towns of 4,000 and under. For offices where state law or local rules do not require a written ballot, where there is only a single nominee, a voice vote or an uncounted show of hands can suffice to elect. Some moderators use the written ballot voting method (by unanimous
consent, presumably) whenever there are two or more nominees for a single office or board seat, even for offices for which written ballot voting is not ordinarily required.

State law authorizes towns to adopt, in a meeting held at least 90 days before an annual meeting, a requirement that the voting for a particular seat or office in addition to selectman and school committee will be by written ballot (there is no exception for an election with only one nominee); and such a requirement stands until it is rescinded or repealed at a meeting held at least 90 days before the annual meeting. See § 2525. Moderators should ask clerks whether such an extension of written ballot voting to other offices has been locally adopted.

Where there is more than one seat open on a board for the same term of office, it is permissible to have a single set of nominations and a single balloting in a town over 4,000, in which case each of the top vote-getters is a plurality winner to the extent there are offices to fill, but in a town under 4,000 each seat must be filled separately, as each winner must obtain a majority of votes cast. For more discussion of written ballot procedure, see Chapter VI.

f. The moderator declares the winner after each election is complete. The clerk records the votes or, where voting is by voice or uncounted other means, the outcome.

g. When all elections are complete, the moderator (after any swearing-in ordinarily done at this point) takes up the remaining articles on the warrant. These are usually called the “business articles,” but may in fact include ordinances and resolutions as well as budget articles—i.e., all business other than elections.

1. The moderator reads the first business article in full after any elections articles. Accompanying recommendations or other information are not part of the article and need not be read. By a motion and vote (“to suspend the reading of the warrant articles”) the meeting can waive the routine reading of each article, but the moderator must be aware of possible Americans with Disability Act issues for those with limited vision or other difficulty in reading the warrant in the annual report or otherwise made available to the voters. Even where there are no such special needs, the moderator should be sure to identify each article in turn by number, to ensure that the meeting remains properly focused.

2. The moderator secures an affirmative motion and a second relating to the article. The moderator states the motion to the meeting and thereby opens the motion to floor debate. After this point, a person making the motion (the "movant") may withdraw it only by leave of the town meeting, given by a majority of those voting. This issue usually involves amendments, not main motions.

3. If not already accomplished at the start of the meeting, the moderator may wish to invite the attention of the voters to the Rules of Debate set out in the “Notes for Voters” (if that document has been provided to the voters), and indicate any that the moderator does not wish to apply. The moderator will then want to honor as many as seem appropriate, e.g., to alternate debate between speakers for and against. There is more discussion and there are some suggested additional rules in Chapter VIII.

4. The moderator may choose to recognize first sponsors or special interests for background or other information relating to the particular article. Good practice is to mark the warrant with sponsors’ names, where they are known, before the meeting starts. A special rule relating to non-voters who wish to speak is discussed in the next chapter.

5. When discussion ends, the moderator restates the motion and calls for the vote. If an amendment has been proposed, the amendment is voted on
first and then, if there are no other amendments, the main motion (as amended or not, as the case may be) is voted on using a method of voting adopted by the meeting or directed by the moderator.

6. The moderator announces clearly the outcome of the vote so that the meeting knows what happened and the clerk has an opportunity to record the outcome. If the announced outcome of the vote is challenged, the moderator addresses the challenge as discussed below.

7. The moderator ensures the physical comfort of the assembly while it completes the business on the warrant, and without objection or on motion made and seconded adjourns the meeting, either finally (sine die, pronounced “see-nay dee-ay”) or to a date, time, and place certain for the completion of any unfinished business that the meeting wishes to take up at a continuation meeting.

h. Short of a fire in the hall (!), a motion to adjourn is ill-advised unless the meeting has disposed of all business on the warrant. When adjournment is moved and seconded, a moderator, before putting the question to the assembly, does well to ensure by inquiry of the selectmen, the clerk, and the assembly itself that all warrant articles have been acted upon. Once the moderator puts the question of adjournment to the meeting, it is too late to argue that an item of business is outstanding, because the motion to adjourn is undebatable (and unamendable), so it will have to be defeated (or withdrawn under a Motion to Withdraw) in order for the meeting to take up the overlooked article.

If the motion to adjourn occurs while other business is pending, perhaps what the movant intends is a motion to recess or adjourn to a date certain (a continuation meeting, to complete the warrant’s business), so the moderator should inquire. An adjournment that is not expressly to a date certain will ordinarily be deemed, after the fact, to have been a motion to adjourn “without day” (sine die)—i.e., with finality.

Sine die adjournment ends the meeting, thereby cutting off the ability of a voter to use the Motion to Reconsider for any purpose (including to revisit the decision to adjourn), although a new warrant could put the same article before a new meeting. See Chapter VII for discussion of the Motion to Adjourn.

CHAPTER IV: UNANIMOUS CONSENT AND STATE LAW ON PROCEDURE

Unanimous Consent

A moderator who has the trust and confidence of a town meeting can save the town meeting much time that would otherwise be devoted to unnecessary procedure, simply by asking for unanimous consent to procedure that seems a good idea or unobjectionable.

For example, a moderator who knows that an issue is likely to be contentious, instead of inviting a motion that the voting on that issue be conducted by written ballot, may say “I ask unanimous consent that the voting on this article be by written ballot” (perhaps stating the purposes such a vote should serve—relative privacy and greater security and certainty of the outcome of the vote). The moderator can instruct that an objecting voter need only call out “No” or “I object.” If no one objects, the moderator will say “There being no objection, voting on this article will be by written ballot.” Less formally, the moderator can just say “Unless someone wants a vote on whether to do it, I propose that the voting on this article will be by written ballot.”

As another example, unanimous consent could be used when taking up an article out of order (perhaps because someone who would like to speak pro or con has a competing engagement to go to, or because the selectmen want to link consideration of an article to another elsewhere in the warrant).
This motion requires a two-thirds vote, which can be difficult to discern on a voice vote, or even on an uncounted show of hands or an uncounted standing or rising vote, so it may be worthwhile to try for unanimous consent first. A moderator will likely get an early sense of how receptive the meeting is to using unanimous consent on procedural matters.

Some moderators may wish to minimize the use of unanimous consent, because it doesn’t take much time to get a motion and a vote. This may also assure voters that they are in charge of the meeting and that the moderator only “moderates” its course.

**State Law on Procedure**

A very few rules of procedure in Maine are actually set out in law. See § 2524. Because they are laws, they may not be altered, even by unanimous consent in town meeting, except by municipal charter. See § 2501. Two are simple and two require some discussion. All of these are listed in this Manual’s “Notes for Voters.”

1. **A person may not speak before being recognized by the moderator.**

   The usual practice is that voters raise a hand or stand to signal that they wish to be recognized and given the floor.

2. **All persons shall be silent at the moderator’s command.**

3. **A non-voter may not speak without the consent of 2/3rds of the voters present.**

   To avoid holding a vote every time a non-voter wants to speak, a moderator may elicit, before taking up any article, the identification of non-voters who may want to speak, and have them named in a single motion (for adoption of which unanimous consent can be sought). Probably the most common examples of non-voters the voters may want to hear is a non-resident school superintendent or manager. Others may be identified only later, but this comprehensive motion and vote will cover most non-voters wanting to speak. We recommend against a general motion that all non-voters be allowed to speak.

   Notice that the rule applies to non-voters, not non-residents. Even a resident who is not a registered voter of the town holding the meeting may not speak without consent. Also, notice that the vote must be 2/3rds of all voters in the hall (“present”), not just 2/3rds of those who actually vote, so a moderator may want to try for unanimous consent on this one. Surely it is not necessary to include a non-voter moderator in a motion for consent to speak as moderator, because that is precisely what the voters have elected the moderator to do. On the other hand, for the (extremely rare) case in which a non-voter moderator wishes to speak in debate, consent is required.

4. **Challenge.**

   Any seven voters may immediately challenge the moderator’s determination of a vote. When a vote declared by a moderator is immediately questioned by at least seven voters, the moderator is required to “poll” the voters to make it certain unless the town meeting directs use of a different method.

   We think “poll” means using the written ballot, not a roll call vote. (Robert’s Rules say that a roll call vote is inappropriate for an assembly in which the voters participate directly. So the written ballot, probably because it is the most accurate voting method, is the default method here: the meeting will have to use it unless some other method is agreed upon. Because written ballot voting is time-consuming, moderators could suggest to challengers the benefits of specifying, where desired, a less time-consuming method of voting. In fact, however, the law doesn’t say whether it’s the prerogative of the first challenger to propose the second method of voting, or by what other means it is proposed—it says only that if the town meeting doesn’t specify a different means it will be written ballot. To finesse the statute’s default resort to a written ballot, and to finesse as well the need for a motion and vote on some other method, the moderator
could use the “unanimous consent” device, e.g., “The result of the voice vote has been challenged by seven voters. Is there unanimous consent that the vote be taken again, by [a named other method]? Hearing no objection, the vote will be by [the specified method]."

It seems fair to guess that outcomes of voice votes or uncounted shows of hands are more likely to be challenged than other means. Although this is a statutory rule of entitlement to re-votes, a moderator may want to convince the meeting, should it come to appear appropriate to do so, that challenges should not be used just to get a routine, instant second vote following a counted vote: the moderator may want to ask a challenger why the first counted vote seems uncertain (e.g., a seating section was not counted).

The first statutory rule listed above says that no one can speak without being recognized. The usual procedural rule governing challenges, however, is that if they are not made “immediately” after the vote is declared, the right to challenge is lost. Instruct voters wishing to challenge either to raise their hands (or to stand) to be recognized (see the Rules of Debate in the “Notes for Voters”) or, without waiting to be recognized, to call out “I doubt it” (or “Challenge”) when the result is declared. The outcry will prompt the moderator to learn whether at least six others also doubt the moderator’s determination of the result. Incidentally, we would probably routinely allow as timely a challenge before a motion relating to the next article taken up has been made and seconded and stated to the meeting by the moderator or otherwise put in order for consideration. A decision to disallow a later motion can be appealed.

A moderator who is in doubt as to the outcome of a vote should not declare a result, but simply say “The vote is too close to call,” and either invite a motion for a specific other method of counting or ask unanimous consent to move to a named other method of voting.

CHAPTER V: RECURRING ISSUES

Discussed below are special situations requiring distinct knowledge or insight. Particular parliamentary procedures apply in some cases.

Separation of Voters from Non-voters

Before the public is admitted to the assembly hall, it is recommended that the clerk or selectmen already have measures in place to ensure the integrity of voting.

These often include separating voters from non-voters. Most communities that do this put a barrier through the seating area so that the front part of the area is reserved for voters and the back part for others, but some halls have a balcony or gallery where non-voters must sit. Often, the voting area can be reached only through the center aisle, and the clerk will have arranged to have a couple of constables or other designated persons there to keep the non-voters from entering the area. If a person who is denied entry insists she or he is a voter, the moderator (or registrar of voters) may consult the voting list that is used as the incoming voter checklist to sort voters from non-voters as they enter the hall, and if the person’s name is on the checklist the person should be allowed to vote. If the person is not on the list and the registrar is present, the registrar may process an application to register.

Some towns use additional or other means to distinguish voters from non-voters. One, which allows families and friends to sit together, is to issue a distinctively colored placard or folded flyer to voters only, at check-in (perhaps with this Manual’s table of motions and “Notes for Voters”). Show of hand votes can then be of hands holding the placard aloft. Where extra security is desired, a town can combine separate seating of voters from non-voters with the issuance of a placard. This should considerably facilitate vote-counting in large assemblies. Voters could also be instructed to write their names on their placards and to display them when leaving and re-entering the voters’ floor area. A moderator should
ensure that any security measures in effect are respected.

**Warrant Articles of No Legal Effect**

In some towns, by local custom articles appear on the warrant that are not required by law. Here are three common examples.

1. **“To see if the Town will vote to accept the reports of town officials.”**

   Where the reports referred to are those in the town’s annual report, the article is unnecessary. The town meeting has no power to reject the annual report, so a vote to approve the article will have no legal effect and is only advisory. For this reason, the meeting may wish, by consensus, to just move on to the next article. The clerk or selectmen may make a note to omit this article in future years.

2. **“To act on any other business that may [properly] come before the meeting.”**

   By law, the warrant must state in distinct articles the business of the meeting, and “[n]o other business may be acted upon.” See § 2523. The quoted article is indistinct, and therefore should not be on the warrant. The only business that can be conducted under this article is adjournment (which does not require an article anyway) or uncontroversial courtesy business, like a round of applause for volunteers. The moderator should rule all substantive motions of new business made under such an article out of order, as a court would on proper complaint declare the action void.

3. **Articles that seek to do an illegal thing or that are otherwise beyond the power of town meeting.**

   A favorable vote on an article to operate a municipal market in illegal drugs would be illegal and of no effect. An article to enact a purely local scheme of awarding property tax exemptions deals with a matter that the Maine Constitution and state law reserve to the State. Tax exemptions can legally be awarded, but not by the town meeting, so these articles are ultra vires the town meeting—i.e., beyond the power of town meeting to enact. An approved but ultra vires article is a legal nullity.

   These issues probably arise more often from floor amendments than from the warrant, as hopefully, legal advice was sought by the selectmen when drafting the warrant articles. Be alert to them and try to rule them out of order, or state your own views on the legality of the proposal (whether it arises from the article or from a proposed amendment) and ask the clerk to record your views, and then proceed to a vote. If town counsel is present at the meeting an opinion might be sought from him or her.

   Maine statute says only that the moderator is “to preside over and supervise the voting at the meeting.” See § 2524(3). Arguably, then, a moderator has no power to rein in a meeting that is running off the rails of the law. But consider the alternative, and the argument that a town meeting, like citizens at large, must operate within the bounds of law. Perhaps a well-phrased and well-timed suggestion that the moderator may resign will get the attention of the voters (but of course it risks being applauded!). Another approach may be to work to ensure that the clerk records careful and exact minutes of the doings of the meeting at the point where it goes off the rails. Sometimes a brief recess may aid the situation.

**Negative Motions**

A negative motion is one on which the voter must vote “No” in order to mean “Yes.” Because of the risk of confusion, a moderator ordinarily should rule a negative motion out of order or ask that it be re-stated. A common example may be “I move that we not approve Article 12”: a person who wishes to approve Article 12 must vote in the negative, and one who opposes it must vote in the affirmative, which stands the usual process on its head. And note that a negative motion does not necessarily include the word “not,” e.g., “I move that the Article just read be rejected.” Sometimes, advocates of a negative motion will argue that the reason for the wording is to “really
send them a message.” An appropriate reply is that the best message is an unquestionably clear message, and that the way to give that is to act decisively on an affirmative motion that the article be adopted.

**The Motion to “Pass over”**

The motion to “pass over” may still be in use in some Maine communities. It can be confusing. The voter must vote “No” on this motion in order to have the matter considered at all by the town meeting. If it is not considered (i.e., if it is “passed over”), it is effectively defeated.

Some folks like the motion because it avoids putting the town officially on record as being against something when perhaps they favor the article’s concept generally but just don’t like a particular unamendable element of the proposal (e.g., that funding comes from the property tax). Sometimes, too, the motion may be made in order to avoid a “winners and losers” situation on an issue on which quite strong feelings exist, or where the voters prefer a more gentle way to let down petitioners or sponsors of an article. And sometimes it will be made where someone thinks the selectmen themselves have brought forward an idea so bad it doesn’t merit debate.

In towns routinely using the motion it is probably well understood. An alternative is simply that no motion be made relating to the article. No motion having been made, neither the article nor its subject matter is before the meeting, and a clerk’s record to that effect is a record that the article was not taken up. In any event, discourage the use of the motion when the intent appears to be to preempt debate on articles that seem perfectly in order for debate.

A good question is whether a motion to pass over should require a unanimous vote; surely at least a 2/3rds vote should be required, as it is akin to a motion to table. This Manual’s Table does not include motions to pass over or to table because it presumes that a town meeting will ordinarily want to take up and dispose of all of its business. If a motion to pass over is allowed to go forward, review with the voters before the vote the effect of affirmative and negative votes. And be careful whenever a voter moves that an article be “passed” – ascertain whether the movant means “approved” or “passed over.”

**Amendments and the Concept of an Article’s “Scope”**

Three common methods of amending. These are (1) to insert consecutive words, (2) to strike out consecutive words, and (3) to strike out words and to insert or substitute different words.

A town meeting warrant is both a warning and a protection. The “Greeting” in a warrant typically says to the constable or other person to whom it is addressed, “You are required to notify and warn the inhabitants” of the meeting. A warrant warns voters of the scope of subjects and actions that may be taken by town meeting, and state law says a warrant must state the business of a meeting in distinct articles, and that no other business may be conducted. See § 2523. A voter who reads the warrant and concludes that she or he is comfortable with any outcome under it should be able to go fishing on town meeting day in confidence that the warrant’s statement of town meeting business has reasonable and fair outer limits. The concept of “scope” defines those limits.

If a warrant article asks for $100,000 from new taxes to build a fire station annex, then the article cannot be amended to change the core subject matter from a fire station annex to an addition to the town library. On the other hand, an amendment could say that the annex will not be built within three miles of the existing station, or that it must be constructed to fireproofing standards of an identified building code. Such amendments relate to putting the core project into execution, but they do not substitute a different vision or purpose for the proposed core project. So think of amendments as being either core or peripheral.
For another example, an amendment to erect a sign or plaque, appropriated funds permitting, naming the proposed annex for a firefighter who has died in the line of duty would be peripheral and therefore allowable: it does not interfere with the core proposal, but it does relate directly to the subject matter, so it is relevant ("germane" is the technical word) without overwhelming the core proposal, and therefore would ordinarily be allowable (i.e., the motion to amend is "in order").

Summary advice.
When it is difficult to discern whether an amendment goes too far, think of the hypothetical absent voter and err on the side of caution.

"Capped" and "Open" Appropriation Articles

When a stated sum of money to be appropriated appears in the actual wording of the article, the article can be said to be "capped" – the amount cannot be increased. The article can be approved only at the amount stated in the article’s text or at some lower amount stated in the motion on the article or in an amendment to the article where the article is moved as printed. See Austin v. Inhabitants of York, 57 Me. 304 (1869) at pages 306 and 307. The Court said the warrant’s notice of such a capped article is "a guaranty against voting a larger sum." This is because of the concept of "scope" and a warrant’s warning.

An article that asks "To see what sum, if any, the town will vote to appropriate from surplus [or some other source] for [some stated purpose]" always requires a motion that proposes a precise amount, so a motion to "approve the article as printed" is out of order. Be alert never to let one of these get by, and seek assurance that the clerk is recording the amount moved, and not just that the article was approved or adopted. An appropriate motion in the example above is "I move that the article be approved and that [say] $10,000 be appropriated from surplus for [the stated purpose]." A motion, e.g., to "approve Article 14 as printed" seems permissible where the article is capped.

Where an article in the "To see what sum" form also has a stated sum, not in the article’s text but in an accompanying selectmen’s or budget committee’s recommendation (which usually appears after the text of an article, the article is an open one and any amount may be moved and approved.

In towns where recommendations of the selectmen and of the budget committee appear on the warrant, any debate will ordinarily focus on those amounts, and so most budget articles are disposed of with not more than two votes. Where voters have many different notions about the appropriate amount at which to fund an article, a moderator may want to use an informal process to learn all of the amounts voters have in mind and to work through them in an orderly way, from highest down, rather than to rely just on the randomness of which voter is recognized first, second, etc. (When the question is of setting a minimum price at which to authorize the selectmen to sell town-owned property, it is more sensible to begin with the lowest proposed figure.) No law or rule requires an unbending formality in all procedure used at town meeting (but of course the final vote should be a formal one), and the budget process in particular may be an appropriate one for a little play in the joints of government.

Exception to the general rule regarding "capped" articles.

Despite a stated amount, an article proposing an amount of damages to be paid to a landowner for a municipal exercise of eminent domain (an involuntary taking of private land for public purposes) can be moved at a higher amount. The purpose is likely to avoid having the question of damages go to court just because the selectmen have stated too low a figure in the warrant.
Categorical Budget Article or Line Item Budget Article?

An article reading “To see if the Town will vote to raise and appropriate $45,000 for road maintenance and repair, as follows:” is arguably unambiguous on the question of the selectmen’s spending authority where there follows a list of individual roads and amounts for each. Each line item is a firm limit on the amount available for expenditure on the road it names. This article awards line item authority only and not the relative flexibility of a categorical article.

An ambiguous article would be one reading the same and punctuated the same, but where the word “Recommended” appeared before the list of individual roads proposed for maintenance and repair, and an amendment to clarify whether the article is intended to award categorical authority or line item authority only is in order. The moderator will do well to ensure that the clerk records the amendment clearly.

MMA’s Town Meeting & Elections Manual has more discussion and a reprint of a Maine Town & City, Legal Note on this subject.

The Source(s) of Money to be Voted

Some towns may use an article form for appropriations that does not name a source. An example could be “To see if the Town will vote to authorize the Selectmen to expend not more than $20,000 for a storage shed for cemetery maintenance equipment, and to determine the source or sources of that sum.” (Such an article could also ask “To see what sum the Town will vote to authorize the Selectmen to expend for a storage shed for cemetery maintenance, and to determine the source or sources of that sum.”) Do not overlook the need to obtain a main motion or amendment that specifies a source, e.g., property taxation, motor vehicle excise taxes, or town surplus.

The selectmen likely will have sources in mind.

The concept of scope (discussed above) means that where an article does state a source of funding, the source may not be changed to another one by amendment. For example, if an article proposes to raise a tax, the meeting may not substitute taking the money from surplus or selling a town asset to raise cash.

Similarly, if a $20,000 article proposes $10,000 from motor vehicle excise taxes and $10,000 from surplus, the town meeting can delete or reduce either amount, but it may not offset the decrease in one by increasing the other, even though it is not increasing the total amount requested. This, too, follows from the concept of scope: a voter who has read the warrant should be able to be absent from the meeting in reliance that, under the article, not more than $10,000 will be taken from excise taxes or from surplus to fund it, and that, although one of these two sources can be eliminated, no other source can be substituted or added.

Written Ballot Voting on Budget

A town meeting vote to exceed or increase the “property tax levy limit” must be by written ballot. See § 5721-A(7). The clerk should record the count.

Also, a town meeting vote on an "additional local appropriation" for education that exceeds the "local cost share expectation" must be by written ballot if the additional local appropriation would cause the school administrative unit to exceed the “maximum school spending target.” See 20-A M.R.S. § 15671-A(3) and (5).

Maine law requires a “recorded” vote on several school budget items. The clerk should record in the minutes the tallies of votes on: (1) municipal contribution to the school administrative unit’s contribution to the total cost of funding public education from kindergarten to grade 12; (2) the annual debt service payments on non-state-funded school construction; (3) the amount of additional local funds for education; and (4) the total school budget amount. See 20-A M.R.S. § 15690.
**Amendment Procedure**

The purpose of the *Motion to Amend* is to modify or change a seconded, pending motion before voting to adopt or reject the pending motion. The first amendment to any pending main motion (typically, an article as printed) is called “the primary amendment.”

A primary amendment to the main motion must be “germane” (i.e., it must be related) to the main motion. It cannot introduce a new and separate subject, although it can introduce an aspect or facet of the subject of the main motion that is not addressed by the main motion.

A person wishing to make an amendment to the main motion seeks to be recognized by the moderator, and, once recognized, makes an amendment motion. A voter seconding the amendment motion need not wait to be recognized, and a second is usually forthcoming. If none is, the moderator may ask “Is there a second?” and if so may say “It has been moved and seconded that [stating the motion]” and then ask “Is there discussion?” and then the floor is open for discussion and debate. If the motion to amend is not seconded, the moderator may say, “Hearing no second, the motion to amend is not before the meeting. Is there discussion of the main motion or is there another motion to amend the main motion?” and the meeting proceeds accordingly.

Only one primary amendment can be pending at any one time: it must be disposed of, with or without amendments to itself, before another primary amendment is in order. The first amending motion is itself debatable where it is applied to a debatable motion, is itself amendable, requires a majority vote, and may be reconsidered.

When debate on the amendment seems complete, the moderator asks, “Are you ready for the question?” and if it then seems appropriate to vote, repeats the question by saying “It has been moved and seconded that the main motion be amended by [stating the amendment]” and takes the vote. If the amendment is approved, the moderator then states the main motion as amended and calls for debate.

Similarly, following debate, the moderator asks the voters if they are ready for the question and then repeats it, takes the vote, and declares the result. If the amendment to the main motion is defeated, the moderator says, “The ‘No’s’ have it and the motion to amend fails. Is there another motion to amend?” If none is forthcoming, then the moderator asks, “Is there further discussion of the main motion?” and, if none, confirms this by asking “Are you ready for the question?” If no one seeks to speak, the moderator may say, “It has been moved and seconded that [e.g., Article 14 be approved as printed in the warrant]. Those who favor the motion will now say ‘Aye,’” and then “Those opposed to the motion will now say ‘No.’” The moderator then declares the result.

Some moderators may choose not to allow secondary amendments. Where allowed, a secondary amendment—an amendment to a primary amendment—must relate to the primary amendment. It is disposed of before the primary amendment. If it is defeated, then another secondary motion may be introduced. If it is approved, then the primary amendment, as now amended by the amendment to it, is next disposed of. When the primary amendment has been disposed of, other primary amendments may be in order. Ultimately, the main motion is taken up (as amended or not) and disposed of.

**Amendments in the third degree not allowed.**

An "amendment to the amendment to the amendment" should never be allowed—it is too complicated for town meeting.

**Ordinance Enactment and Amendment**

The statutorily required wording for enactment of ordinances and ordinance amendments calls for a “Yes” or “No” vote on the version of a new ordinance or amendment to an existing ordinance as
presented in or advertised by the warrant. See § 3002.

Because the law calls for a simple "yes" or "no" vote, and because ordinances by their nature are substantive law, no amendment to an ordinance or to a proposed amendment to an ordinance should be accepted from the floor. If there is a perceived serious defect in the proposed ordinance or the proposed amendment, the selectmen should either ask the meeting to enact it without change and then plan to bring repairs back to a future town meeting or (more appropriate where the defect is central or large) move to take up the next article out of order and proceed to the conclusion of the meeting without returning to the ordinance or amendment article.

If an article moving the ordinance or amendment is already on the floor, its proponent can make a Motion for Leave to Withdraw it. An appropriate clerk’s record might read, “On motion of Selectman Johnson seconded and voted, the meeting gave leave to her to withdraw her motion to approve Article 46. It was duly withdrawn and the meeting took no further action on that article.” Leave could also be given by unanimous consent, in which case the clerk would record that fact.

Because comprehensive plans and zoning maps are also substantive, and follow the same general enactment procedures as ordinances, floor amendments to them should not be allowed either.

**Majority Vote**

No general Maine statute requires town meetings to act, either on an election or an issue, by a majority of voters present. The general parliamentary rule is that a majority is 50% plus one of those voting, but that if an odd number of votes is cast, a majority is one more than the number of votes cast on the opposing side. Thus, 41 is a majority of both 80 votes and of 81 votes, and this is so even if 80 other voters present refrained from voting. The fact that 80 of those present did not vote means nothing unless a particular statute (or a Private and Special Act of the Legislature) requires that there be an absolute majority vote of all persons present: where such a vote is required but not attained, the motion fails.

The exception to the general parliamentary rule requiring elections and issues to be determined only by those actually voting is the particular Maine statute, discussed above, requiring the consent of at least 2/3rds of voters present before a non-voter may speak.

**Two-Thirds Vote**

The long way to determine whether a vote of at least two-thirds has been attained is to add the affirmative and negative votes and multiply the sum by .66666, or to multiply the vote total by 2 and then divide that product by 3. Thus, if 60 votes are cast in all, two times that is 120, and 120 divided by 3 = 40, so if the affirmative votes total 40 or more, then a two-thirds vote has been attained. This is harder to calculate, however, where the total vote is (say) 62, because of rounding. The easier and faster way to determine whether a vote is by 2/3rds or better is to double the negative vote: if the affirmative vote is that large or larger, then the vote is 2/3rds or better. If the negative vote is 20 (say) out of 62, then an affirmative vote of 40 or more prevails and any lesser vote fails. If the negative vote were 21 out of 62, then an affirmative vote of 42 or more would prevail, but there cannot be more than 41 affirmative votes out of 62 total if there are 21 negative votes, so the measure fails for lack of 2/3rds.

Certainly on a motion requiring a 2/3rds vote, the clerk should always record the actual vote tally, to show whether the 2/3rds was attained, e.g., “On motion made and seconded, it was voted 43 to 19 to limit debate to three minutes per speaker. The Moderator declared that the motion had carried.”

**Elections by Majority; by Plurality**

Elective offices in towns (and plantations) of 4,000 or fewer in population must be filled
by majority vote at open town meeting. See § 2526. Voting should continue until a majority is achieved or it becomes clear a deadlock is not going to be broken. A nominee who has more votes than any other nominee but who has less than a majority is a person who has a mere plurality of the votes cast. If a mere plurality candidate is declared the winner in a town of 4,000 or fewer, there will have been a failure to elect, which produces a vacancy in office, and that will require another election if the office is selectman. Failure to elect for most other offices will result in the office being filled by appointment by the selectmen rather than by vote of the town meeting. See § 2602. (Note that school board members are subject to unique rules, not discussed here).

In towns larger than 4,000, election of town officials is by a mere plurality, so the first vote determines the matter unless it is a tie. See § 2526. Obviously, votes on issues always require a majority vote in all towns.

Regardless of population, all elections using the statutory secret ballot (voting at a polling place) are determined by plurality vote. See § 2528.

CHAPTER VI: VOTING METHODS

Five methods of voting—voice vote, show of hands, standing vote, division of the house, and written ballot—are available at town meeting. Here we discuss them in their probable descending order of frequency of use, and in ascending order of certainty of result or security of the vote.

For voting on issues, voice voting or show of hands will probably be regarded as the presumptive first method of voting. Any voter by motion can propose a different method of voting. Where no motion is forthcoming but a moderator thinks that a vote by some other method may be appropriate for a particular article, the moderator can suggest or invite an appropriate motion. Or, a moderator can just seek unanimous consent to a different method or simply announce that voting will be by some other method and see if anyone objects, and then, infer unanimous consent from silence. As discussed above ("Unanimous Consent"), some moderators will prefer to have a Motion to Fix the Method of Voting.

Voice Vote

("As many as are in favor of the motion will now please say 'Aye'.... As many as are opposed will now please say 'No.'")

When a moderator thinks a voice vote is too close to call, the moderator may, without waiting for a challenge (discussed in Chapter IV), ask for a show of hands vote or may prefer to go to a standing vote.

Show of Hands

("As many as are in favor of the motion will now raise their right hand...[observing or counting]. Hands down. As many as are opposed to the motion will now please raise their right hand...[observing or counting]. Hands down.")

When a voice vote is questioned and the outcome is not sufficiently clear, so that a vote of greater certainty is demanded, the moderator may say it is too close to call and then ask for a show of hands on the affirmative and then on the negative. This will save more time than other methods. Of course hands can always be counted, but it will probably be more accurate to proceed to a standing vote, discussed next. In any event, remember that no matter which of the first two methods is generally used, one can always move before-hand for a more certain method, and one can challenge a result immediately after it is declared and (with six other voters) ask for use of a more certain method of voting.

Standing Vote

("As many as are in favor of the motion will now please rise....Be seated. As many as are opposed to the motion will now please rise....Be seated.")

If an uncounted show of hands is indecisive, the moderator may then call for a standing vote (also called a "rising" vote). If the
outcome cannot be called without a count, then the proponents stand and are counted by the moderator or (in larger assemblies) by tellers that he or she would appoint, and then the opponents stand and are likewise counted.

Division of the House
("As many as are in favor of the motion will please assemble to the right side of the moderator's podium and as many as are opposed to the motion will now please assemble to the left side of the moderator's podium.") Where a count is then to be made by tellers: "You will pass between tellers of the election as they may direct you and return to your seats after you have been counted [or, when I so instruct you]." Or other appropriate direction may be given.

Of the first four types of votes, this one is the most decisive and is probably quicker than a written ballot vote. It is important for the moderator to establish controls for the ends of the two lines, to frustrate attempts at voting twice. The tellers report their counts to the moderator who announces the outcome and then the voters return to their seats if they have not been asked to do so promptly after voting. If secrecy is an issue (it will be when feelings are running high), then all other forms of voting should probably be ignored and a written ballot should be taken from the first. Some moderators would caution that a physical division of the house can itself emotionally divide the house: where there is any potential for feelings to run high, it may be better to bypass this method and use written ballots.

Written Ballot
("Voting will be conducted by written ballot. Each voter will receive and return one ballot only, whether marked or unmarked, and will, if voting, write the name of the person of the voter's choice on the ballot" [or, "will check the appropriate box, yea or nay, on the question"]).

Where plain pieces of paper are used even for voting on questions (discussed below), the moderator instructs voters to write "Yes" or "No" on the ballot.

Written ballot may be used by vote, by unanimous consent, or because required by law on some questions.

The town clerk must prepare a sufficient number of these written ballots before town meeting. The ballots must be of uniform size and color and must be blank, except that 2 squares may be printed on them with "Yes" by one and "No" by the other. See § 2524. The moderator or tellers appointed by the moderator pass out the written ballots, one to a voter for each vote taken. No other ballots may be counted.

The process requires more time than others, so it should not be resorted to too quickly or frequently where its use is not required by law, by express vote of the town meeting, or pursuant to a challenge to the moderator's determination of a vote.

Some moderators may wish to discourage folding of ballots (unfolded ballots can be counted more quickly), but in fact no state law forbids folding them. Voters may also feel they lose privacy unless the local procedure allows voters to deposit their ballots directly into a ballot box. In any event the moderator should instruct that ballots should not be folded one inside another, or they will risk being invalidated.

1. Full, formal written ballot procedure.
In its most secure form, voters come forward, much as at the polls for a secret ballot election. Voters may even be checked off on a voting list to ensure they do not vote twice, and each personally deposits a written ballot in a ballot box under the watchful eye of the moderator, deputy moderator, or a teller. In some towns, this full-blown procedure is used, perhaps, because written ballot voting is being confused with the Australian secret ballot method. Because this is a slow process in large assemblies, it may be best to use it only where it has been routinely used locally or where the town meeting indicates that for a particular vote it wants all attendant formalities observed. The moderator can
appoint a chief teller, who will supervise the counting and present an oral or written report of the balloting to the moderator, who then declares the result. For more discussion, see “Counting written ballots,” below.

2. Less formal written ballot procedure.
No Maine law expressly requires the full procedure described above. Where a moderator or a town meeting is willing to trade off some security to save some time, the following modifications may be desirable. Moderators and meetings can come up with their own procedures and perhaps implement them without objection. First, where voters are segregated from non-voters, or where a colored placard is given to voters on check-in for identification, the moderator or tellers can distribute ballots to voters in their seats, working down the aisles in a larger assembly and counting the number required for a row and allowing them to be passed down the row, one per voter. The moderator would want to be sure to instruct that every voter should take one and return one, even if returned blank. Because of the segregated seating and/or use of a placard system, the use of a check-off voting list for every written ballot can be dispensed with or without seriously compromising the integrity of the voting. The tellers can allow a minute or two for marking ballots and then in smaller assemblies collect a ballot back from each voter where seating is in rows with aisles instruct voters to pass their ballots to the voter on the aisle, who will hand all of them to a collecting teller. As all ballots in tellers’ sections are collected, they bring them forward to a counting table and stand by for counting.

In this suggested alternative system, a ballot box is not used at all: ballots can be collected in hand, or in hats or shoeboxes for that matter. Distribution and collection can be accomplished fairly quickly, and the process does not compromise much in privacy or security.

3. Counting written ballots.
At an appropriate point, the moderator may say, “The voting is now concluded,” and the count will then begin. The tallying should be done in sight of the assembly rather than in a separate room. The tellers refer any ballots they feel should not be counted to the moderator for resolution. The moderator may seek the tellers’ and the clerk’s counsel on questionable ballots. A ballot should be counted if it is possible to discern the voter’s choice. For example, if a written name has a line through it, the appropriate inference would be that the voter made a choice and then negated it, did not make another choice, and is effectively casting a blank ballot.

For tallying written ballots, here is some guidance for the counters. On a pre-printed “Yes” and “No” ballot, any method that clearly indicates the voter’s intent as to choice suffices—e.g., marking the box with a check-mark (√) or cross (“X”), filling in a box, circling a box, circling the word “Yes” or “No,” or underlining a word. In voting for an office, a misspelled name or use of a surname or first name only where only one nominee fits the bill should not invalidate a ballot.

Blank ballots are those on which no name has been written or on which no box or choice has been marked or otherwise indicated. Blank ballots should be totaled separately from other ballots and are omitted from any statement of the total vote.

However, invalid—i.e., non-countable—ballots should be included as a listed element in a tally of total votes cast, where a total is compiled and reported. Invalid ballots are: two or more ballots that are folded together, where it is more likely than not that they did not simply become accidentally commingled in the ballot box or in the process of collection, or in the counting pile. For example, if two ballots are folded twice together—i.e., by thirds, this would tend to show that one person controlled both, which is why neither should be counted, because to count one would not
punish the conduct and to count two would reward it.

Also invalid are ballots with an "over vote," e.g., where two board members are to be chosen by writing two names on a single written ballot from among five nominees for equal terms of office, and a ballot has three or more names written on it and no other markings on the ballot indicate a narrowing of choice to two.

Also invalid for counting purposes are ballots from which no clear choice can be determined or inferred, as well as ballots that are simply unintelligible (e.g., a plain-paper ballot for a "Yes" or "No" vote on which instead of writing one of those two words the voter has written something else that can in no way be construed as an affirmative or negative vote).

If the number of unintelligible ballots will affect the outcome, the moderator should expressly rule on them and then allow those determinations to be appealed to the meeting, or simply put the question of acceptance of them directly to the meeting.

The clerk's duty is to record "the votes" of the meeting, which likely includes the numbers and not just the outcome. Although no law requires a formal written report from the tellers to the moderator, it is sound practice for the chief teller, witnessed by at least one teller, to write down the results and pass them to the moderator. For every race for an office (even an uncontested one), the chief teller should write down the tally for each nominee, the total of blank ballots, and the total of invalid ballots, and it may state (and should state, in towns of population 4,000 and under on votes for officials) also the total votes cast, including invalid ballots but excluding blanks from that total.

The total number of votes cast is needed in order to say whether a majority vote for a candidate has been attained in a town of 4,000 or under, something that will not always be apparent in a race with three or more candidates. Consider a tally of 49, 36, 11, and 3, with 4 illegal ballots: it would be easier to determine whether the highest vote-getter has a majority if the actual total of 103 were stated; with that, it is apparent that no candidate has a majority on this ballot. Where this happens, the moderator declares "No election," or explains "There has been a failure to elect, because no candidate has attained a majority of votes cast," and the voting will continue without limiting the eligible nominees until a majority is attained or until the moderator without objection declares a deadlock or the meeting agrees to end voting or simply adjourns without filling the position. A fair question is whether the moderator should announce by the numbers an interim result like this, before each successive round of voting. It seems fair to do so.

4. When may use of the written ballot be avoided in elections?

For offices other than selectman, school committee and moderator, and where a town charter or previous vote does not require election by written ballot, any other method of voting can be used unless the meeting votes otherwise. Usually, a voice vote will be taken where there is only one nominee. Where there are two nominees for those offices, any method of voting could theoretically be used, but a written ballot is usually recommended unless another method is approved by unanimous consent. Where there are three or more nominees, always use written ballots. The moderator should be sure always to call for the Nays as well as the Yeas—this is not a mere formality.

In any event, in towns of population 4,000 and under, the moderator should always verify that an apparent winner in a race of three or more nominees has indeed won a majority of all votes cast. In a race between two, short of a tie, one nominee will always win a majority of the votes cast, absent a large number of invalid votes.

CHAPTER VII: MOTIONS AND THEIR RANK

The rank of motions governs which motions may be made when another question is
pending. For example, while a motion to adjourn is pending, no other motion can be made. The main motion has the lowest rank—it cannot be made or acted upon when another motion has the floor, and it yields to all other motions that can be made while another is pending.

The Classes of Motions

Motions are commonly classified as privileged, subsidiary, incidental, and main. All privileged motions rank higher than any subsidiary motion, and incidental motions take the rank of the motion out of which they arise. In this Manual, the motions, in order from highest rank to lowest, are: (1) (privileged motions) Adjourn (sine die—without day), Adjourn or Recess to a Time Certain; (2) and (subsidiary motions) The Previous Question, Limit or Extend Debate, Postpone to a Time Certain, and Amend. The Incidental motions are: Appeal, Fix the Method of Voting, Nominations (when made to a committee that the town meeting decides to establish on the spot), and Withdraw a Motion. Subsidiary and incidental motions must relate to the motion out of which they arise. The Main Motion has no rank. A Motion to Reconsider is itself a species of Main Motion, as is a motion To Take up an Article Out of Order.

A Motion to Reconsider takes the same rank and is debatable to the same extent as the motion out of which it arises. Thus, for example, because a Motion to Limit Debate is not itself debatable, a Motion to Reconsider action taken on a Motion to Limit Debate is itself not debatable. For more, see the Table on the inside front cover of this Manual.

Main Motion, Privileged and Subsidiary Motions

Below is a discussion of the main motion, which has no rank, and of selected privileged and subsidiary ranked motions in ascending order of precedence.

1. Main Motion (including Motion to Reconsider).

This has no rank or precedence and may not be made when any other question is before the meeting.

The Motion to Reconsider should be regarded as a Main Motion. Ordinarily, it can be made at any time until a Motion to Adjourn is approved. It may be preferable to seek unanimous consent to a rule that a main motion may be reconsidered no later than after the next warrant article is disposed of. While that rule itself could be altered by the town meeting, it is possible that once the meeting establishes it or accepts it, it will be accorded deference in all but the most unusual circumstances. This will avoid midnight attacks on articles decided hours before. Adoption of this suggestion would not preclude reconsideration of procedural motions, such as to Limit Debate.

If such a rule were adopted, it would seem fair to allow, at a continuation meeting, a motion to reconsider the last article disposed of at the initial session. If the rule were not adopted, it would seem that any article approved at the initial session could be reconsidered at any time before all continuation sessions are finally adjourned, just as all actions can be reconsidered until the final adjournment of a meeting that is concluded without a continuation session.

A Motion to Reconsider may be postponed to a time certain. It is debatable to the same extent that the motion proposed to be reconsidered was itself debatable. It may not be amended, nor itself, reconsidered. Votes on The Previous Question and on motions to recess or adjourn may not be reconsidered. In the Table, we recommend that the motions To Fix the Method of Voting and to Take Up an Article Out of Order be also regarded as not reconsiderable. And, if we regard a nomination as a motion (that one be elected), then nominations ought not be reconsiderable, either.
Reconsideration triggers a two-step process. The motion—the question whether to reconsider—must first be voted on. If it carries, the meeting then revisits the item of business. Whether the meeting simply votes anew on the same motion, whether new discussion will be allowed, and whether, and under what circumstances, the originally-voted-on motion may be modified, are questions that may require resolution. Probably the best advice, particularly in the context of reconsideration of defeated appropriation articles, is that whatever reasonable process the moderator or the town meeting adopts is probably going to withstand any later attack, so just work it out on the spot.

2. Amend.
This is a subsidiary motion and must be disposed of before the main motion is voted on. See the Table for the rules governing it. The motion is discussed in several contexts in Chapter V.

3. Postpone to a Time Certain.
("I move that this article be postponed until after consideration of Article No. _____" (referring to one farther on in the warrant) or "until _____ o’clock.”

This motion defers the article under consideration, not the town meeting itself. If the motion carries, the meeting proceeds to the next article. The motion takes precedence over either the Main Motion or a Motion to Amend and has the effect of delaying action while the meeting proceeds with other business. Akin to the Motion to Take Up an Article Out of Order, this motion also operates to re-order slightly the sequence of articles (but not their numbers) in the printed warrant. It is best not to name a significantly later time in the motion, but to refer to another article by number, to avoid a situation where the meeting completes all of its business long before the stated hour for taking up a particular article. In that situation, a Motion to Reconsider the Motion to Postpone is probably what’s needed.

The Motion to Postpone to a Time Certain requires a second and is amendable and debatable, and requires a majority vote. In debate, the merits of the underlying question are pertinent only as they relate to the question of postponement.

4. Limit Debate.
("I move that debate on the pending article [or "motion"] be limited to [____ minutes per speaker] [to a total of _____ minutes”].

This motion requires a second and is undebatable but may be amended. It requires a 2/3rds vote and may be reconsidered. When it is made, a moderator should get straight with the movant whether it is intended to apply only to the pending motion (e.g., a motion to amend) or to all associated motions (i.e., including the underlying main motion).

In general parliamentary procedure the Motion to Limit Debate can be used to extend as well as to limit debate. Because of the size of most town meeting agendas, it is suggested that it not ordinarily be made available to extend debate. If it is allowed in order to extend debate, be aware that sometimes it may be offered in that form solely to wear out the assembly’s patience and attention before it reaches some other article deeper on the warrant.

The need for this motion in order to impose a time limit on individual speakers can usually be avoided by a moderator’s judicious use of unanimous consent. Perhaps consent can also be obtained for limiting the total time for debate on an issue, but here a little prompting or polite inquiry will often move debate along. If a moderator simply orders a limit on debate, the order should be subject to a Motion to Appeal.

5. Previous Question.
("I move the previous question")

This is a subsidiary motion that has the effect of ending debate and moving directly to a vote on the underlying question, which is usually the pending article or an amendment to it. When this motion is made it must be voted upon immediately, and it is not subject to debate. Because it has the
effect of ending debate, it requires a 2/3rds majority. If it carries, then the meeting proceeds to vote on the pending question (e.g., “The question is, Shall Article 19 be approved as printed?”).

6. **Recess or Adjourn to a Time Certain.**

(“I move that this meeting be in recess until/for [state a time/a number of minutes],” or “I move that this meeting adjourn until seven o’clock tomorrow evening.”)

This is a privileged motion that is always in order, even when another subject is before the meeting. For simplicity, our Table of Procedure makes it debatable. Some moderators would perhaps make a finer ruling and say that it must be acted upon immediately, without debate, if it interrupts an item of business, but that if it is to grant time for meals or for counting ballots or for some other purpose, it is just like any other main motion and is debatable.

And see the discussion of the **Motion to Adjourn**, next below.

7. **Adjourn (Sine Die).**

(“I move that this meeting be adjourned,” or “I move that this meeting be adjourned sine die”) (pronounced “see-nay dee-ay”)

This motion, if adopted, dissolves the meeting. It should be handled circumspectly. Good practice is to regard the **Motion to Adjourn** as not debatable (and not amendable, nor reconsiderable) if it is clear that all of the business of the warrant has been disposed of, but to treat it as being debatable where that is not the case. Before putting the question, the moderator should ensure that the voters understand the effect of approval of this motion. If adopted, the motion cannot be reconsidered because the meeting has been dissolved immediately upon the motion’s passage.

### The Incidental Motions

1. **Appeal.**

(“I appeal the moderator’s ruling, and I ask instead that [stating an alternative procedure or ruling].”)

When a **Motion to Appeal** is seconded, the moderator may wish to reconsider the ruling just made, and correct or alter it as may then seem appropriate, and then see whether the movant will withdraw the appeal. If not, then the moderator puts it to the floor for action in the form of the question “Shall the moderator’s ruling be overturned and the proposed substitute rule be approved?” On a tie vote, the negative prevails and the moderator’s ruling is upheld. A moderator may debate the appeal without leaving the rostrum or lectern, because the issue arises from the moderator’s official position. A moderator who wants to speak as a voter should appoint a deputy and go to the floor, as discussed in Chapter II. A moderator who is a voter is not obliged to refrain from voting on the question. An appeal is not amendable but is ordinarily debatable. An appeal, being an incidental motion, yields to privileged motions, and Motion to **Move the Previous Question** is available to expedite voting on it.

A fair question is what to do when an appeal proposes a potentially illegal course of conduct, one that demonstrably prejudices the rights of the minority of voters, such as allowing a majority vote where a two-thirds vote is required, or that clearly prejudices the rights of absent voters, such as allowing an amendment that is clearly beyond an article’s scope. Chapter V’s discussion of what to do when a voter proposes an illegal main motion or amendment is pertinent also to procedural motion appeals.

2. **Fix the Method of Voting.**

(“I move that we vote on the pending motion by [specifying a method of voting].”)

This motion requires a second but is not debatable or amendable, and may not be reconsidered. The usual rule of parliamentary procedure may allow debate and amendment, and a moderator certainly can ask unanimous consent to allow debate where some good reason appears. But ordinarily the reasons favoring a more secure or a more private method of voting in
a town meeting will be fairly apparent from the subject matter or other circumstances.

Even before the first vote is taken this motion allows a voter to propose a method of voting other than voice vote, which is presumably the customary method of voting. The challenge procedure discussed in Chapter IV, by contrast, is used after an initial vote in order to determine the outcome by a more certain means.

3. Withdraw a Motion.

(“I move that I be allowed to withdraw my motion.”)

Why do we need a Motion for Leave to Withdraw? The parliamentary concept is that once a motion is on the floor, it belongs to the assembly and may be withdrawn only with the permission of the assembly. But sometimes a movant realizes that his motion is causing embarrassment to himself or another, or that its importance is not proportional to the time likely required for debate. A voter making a motion can unilaterally withdraw it even after it has been seconded, but not once the moderator has put the motion to the town meeting for debate (“It has been moved and seconded that…Is there discussion or an amendment?”) or allows debate to proceed without formally repeating the motion. Thereafter, if unanimous consent is not sought or is sought but not obtained, the Motion for Leave to Withdraw should be used, where a movant has a change of mind, and the question is determined by a majority of those voting. See the Table for the Motion’s attributes. This motion yields to privileged motions, and may be made while incidental and subsidiary motions are pending (and carries them with it), and no subsidiary motion can be applied to it.

It follows that a motion may not be withdrawn (even with leave) after it has been voted on. The Motion to Reconsider is in order then. A motion to withdraw made while voting on the underlying motion is in progress is allowable but must pass unanimously. The motion is also available to modify a motion in lieu of withdrawing it, although in that instance the voter who has seconded it can withdraw her or his second. In the informal play of town meeting, sometimes a speaker will ask whether the movant will accept a certain modification to her or his motion (often called a “friendly amendment”), and sometimes the movant will indicate acceptance; and so, without a formal motion to amend or to modify, but by general consent, a motion winds up being effectively modified or amended; and general consent will be taken to be unanimous consent in the absence of any objection. Where a movant does not accept a suggestion for modification another voter can make the suggestion the subject of a Motion to Amend.

CHAPTER VIII: RULES OF DEBATE

Principles

Dr. John A. Cagle (see the Manual Preface) suggests the following as bedrock principles: (1) the purpose of parliamentary procedure is to facilitate, not to obscure or confound, the transaction of business, and to promote cooperation and harmony (and, we might add, courtesy and justice, or fairness); (2) all voters in attendance have equal rights, privileges, and obligations, and, while the majority has the right to decide most questions, the minority has rights to be protected (foremost, the right to be heard); (3) full and free discussion of every motion is a fundamental right; (4) only one question may be considered at any given time, unless by agreement; and (5) voters have the right to know at all times what the immediately pending question is, and to have the moderator restate it before a vote is taken. A good moderator is in truth, and is perceived to be, fair and impartial throughout the proceedings.

Rules

This Manual’s "Notes for Voters" lists almost twenty rules of debate, all of which a prospective moderator should review, and any of which the moderator or the meeting may modify. Among those listed in the
Notes are the statutory rules (including the “challenge” procedure) discussed above. A moderator should be familiar with them and able to refer to them quickly. Below are some additional rules or suggestions, which can in the moderator’s discretion be shared with the voters at the head of the meeting or selectively invoked as occasion warrants. (And the moderator may modify any of them, except the four statutory rules identified in Chapter IV, as may seem appropriate.) Some of what follows here and that is in the “Notes for Voters” is derived from the work of Randi Sutphin, cited in Chapter IX of this Manual. In a few instances the following may repeat but elaborate on a rule in the “Notes for Voters.”

**Moderator Controls**

As discussed above, no one may speak without first being recognized by the moderator, and all persons shall be silent at the moderator’s command. See § 2524. A person, once recognized by the moderator, has the floor and the right to speak without interruption (except to the extent interrupting motions are allowed by the adopted rules, or when the moderator interrupts, e.g., to call for silence in the seats) until he or she has exhausted the time allotted.

A moderator may wonder whether the moderator should stand or sit while debate and discussion are in progress. There is no fixed rule. The moderator can sit after recognizing each speaker, or simply stand back from the rostrum or lectern while a voter speaks.

**Additional Rules**

Here are some suggested rules not included in the “Notes for Voters.”

1. **Voters should not clamor to be recognized.**
   This distracts and may even intimidate some voters.

2. **Time limit on debate.**
   Any time limit imposed should be fairly short. General parliamentary procedure manuals often limit a speaker to a total of ten minutes on any one subject or question. But, unlike agendas for monthly or quarterly meetings of boards of directors of local and other organizations, annual town meeting agendas are large, often comprised of 50 or more articles of business. Accordingly, for annual meeting a limit of as little as three or four minutes total per speaker per question may be appropriate, while for a special meeting with only one or two questions a longer time might be more feasible. Most speakers will exercise self-restraint, so it is possible that, with a little cajoling of others, no formal limit will have to be fixed. If one is, it will be wise to appoint a volunteer (not the clerk, who has enough to do) as a timekeeper.

3. **If a time limit per speaker is established, then unused time is not transferable.**

4. **Where there are speakers both pro and con the debate should alternate between speakers for and against.**
   (A moderator can always ask before allowing debate to begin). If this is not done, and a motion is approved to curtail debate, the voters will have heard only one side.

5. **Extended debate on procedural motions is discouraged.**
   Save time for substance.

6. **Town meeting is not a courtroom: cross-examination will not be allowed.**
   Even an inquirer who observes proper procedure by putting questions to the moderator for referral to another will not be allowed to engage indirectly in an extended interview of another.

7. **No one may hinder the moderator’s view of a speaker.**
8. Unless the hall is on fire, a voter should not interrupt a speaker. For example, one wishing to move The Previous Question should wait until a speaker has concluded.

9. “I call the question,” “I move the previous question” and “Question!” A voter who has already spoken twice on the subject, or who has already exhausted or nearly exhausted any fixed time allotted for speaking, should not be the one who seeks to terminate debate, certainly not while anyone wishing to speak has not been heard a first time. Rule the motion out of order when made by such a voter, or, more informally, ask whether someone who has not spoken wishes to adopt the motion and be substituted as the movant.

CHAPTER IX: CONCLUSION AND SOURCES

The material in this Manual answers perhaps 95% of parliamentary questions relating to town meeting. For aid with others, a moderator may want to have one or more of the following compilations: the pertinent chapters from MMA’s Town Meeting & Elections Manual; Town Meeting Time (full title listed in Manual Introduction), available from the Massachusetts Moderators Association, c/o Steven Fors, 203 River Road, Westport, MA 02790, (https://massmoderators.org/). Another resource, unfortunately currently out of print, but perhaps available in libraries: Randi Sutphin, Parliamentary Procedure Basics for Governmental Bodies, 3rd ed., Agenda Associates, Orlando, FL (1998). Other compilations can be found in bookstores and online.

Online sources for further learning include:

- National Association of Parliamentarians: www.parliamentarians.org
- New England Association of Parliamentarians: www.neparl.org
- Cagle’s Parliamentary Procedure: www.csufresno.edu/comm/cagle-p3.htm;
- Roberts Rules.org: www.robertsrules.com;
- American Institute of Parliamentarians: www.parliamentaryprocedure.org

Professor Cagle’s webpages are particularly useful.

Suggestions for improvement to this Manual are welcome. Send them to: MMA Legal Services Department, Maine Municipal Association, 60 Community Drive, Augusta, ME 04330 or legal@memun.org.
APPENDIX:

The following provisions apply to all town meetings:

1. Qualified voter. Every voter in the town may vote in the election of all town officials and in all town affairs.

2. Moderator elected and sworn. The clerk, or in the clerk’s absence a selectman or constable, shall open the meeting by:
   A. Calling for the election of a moderator by written ballot;
   B. Receiving and counting the votes for moderator; and
   C. Swearing in the moderator.

3. Moderator presides. As soon as he has been elected and sworn, the moderator shall preside over and supervise the voting at the meeting and may appoint a deputy moderator to assist the moderator. If the moderator is absent or is unable to carry out the duties, the clerk, or in the clerk’s absence a selectman or constable, may call for the election of a deputy moderator to act in the absence of the moderator.
   A. All persons shall be silent at the moderator’s command. A person may not speak before that person is recognized by the moderator. A person who is not a voter in the town may speak at the meeting only with the consent of 2/3 of the voters present.
      (1) If any person, after a command for order by the moderator, continues to act in a disorderly manner, the moderator may direct that person to leave the meeting. If the person refuses to leave, the moderator may have that person removed by a constable and confined until the meeting is adjourned.
   B. When a vote declared by the moderator is immediately questioned by at least 7 voters, the moderator shall make it certain by polling the voters or by a method directed by the municipal legislative body.
   C. The moderator shall serve until the meeting is adjourned. The moderator is subject to the same penalties for neglect of official duty as other town officials.

4. Votes recorded by clerk. The clerk shall accurately record the votes of the meeting.
   A. If the clerk is absent, the moderator shall appoint and swear in a temporary clerk.

5. Written ballots. The clerk shall prepare the ballots. Ballots shall be of uniform size and color, and must be blank except that 2 squares with “yes” by one and “no” by the other may be printed on them.
   The moderator shall ensure that each voter receives only one ballot for each vote taken.

6. Location of meetings. Town meetings may be held outside the corporate limits of the municipality if the municipal officers determine that there is no adequate facility for the meeting within the municipality. The proposed location must be:
   A. Within an adjoining or nearby municipality;
   B. Not more than 25 miles from the corporate limits of the municipality holding the meetings; and
   C. Reasonably accessible to all voters of the town.
Notes for Voters on Town Meeting Procedure

Rules of procedure, in general. It is important to understand two core concepts. First, rules of procedure are not rules of law. Their purpose is to facilitate the conduct of the meeting, and courts will usually uphold a moderator’s decision and the actions of a meeting unless clear unfairness or error resulting in misunderstanding or confusion has actually affected the vote. Second, questions about appropriate procedure or the outcome of a vote should be addressed in the meeting itself (see the discussion of “appeal” and “challenge,” below). If questionable decisions or determinations of the vote are not brought to the moderator’s attention and addressed on the spot, a court may decline to review the issue later, even where it would otherwise be appropriate for judicial review.

Distinguishing or Separating Voters and Non-Voters. Please respect any measures in effect for distinguishing or separating voters from non-voters.

Unanimous Consent. To expedite procedure, the moderator may from time to time invite or suggest that the meeting give “unanimous consent” to proceeding in a certain way. Cooperation where you can freely give it will usually save time and avoid unnecessary complication, but if you do not wish to give consent simply call out “Objection” or “I object” when the moderator asks for unanimous consent. The moderator may then suggest or invite a motion and vote on procedure and you will then have the opportunity to speak in opposition to the procedure.

Rules of Debate. Maine law makes three rules: (1) a person may not speak without being recognized by the moderator; (2) everyone shall be silent at the moderator’s command; and (3) a person who is not a town voter may not speak without the consent of two-thirds of the voters present. 30-A M.R.S. § 2524.

In addition, the moderator may ask that one or more of the following rules be observed, and may invoke others to maintain good order and decorum.

- Raise your hand or stand, as directed by the moderator, to be recognized, and then state your name and what you would like to do.
- Stand while speaking unless otherwise directed or authorized by the moderator.
- Refrain from making negative motions (e.g., “I move that Article 16 be defeated”).
- After a motion has been made and seconded, the moderator will open the floor for discussion. The moderator may call on the Selectmen or other sponsors of an article to speak first on a main motion (a motion to approve an article as printed, for example). Thereafter, the affirmative side speaks.
- A person who makes a motion is entitled but not required to be the first speaker on the motion and may not vote against the motion but may seek consent to withdraw it.
- A person seconding a motion may both speak against it and vote against it.
- Do not make a speech and conclude it with a motion: rather, make the motion and then speak to it after it has been seconded and put to floor debate by the moderator.
- Address all remarks and all questions to the moderator alone.
- Remarks must be relevant to the motion. Debate will generally alternate between those in favor and those opposed. No one should address the same subject more than twice without the express permission of the moderator.
- The meeting may establish a time limit per speaker per question and an overall time limit on a motion.
• No one may speak a second time until all who wish to speak a first time have done so.
• Speak to the issue, not to the person, and do not question motives or speak ill of another. Profanity is out of order.
• Do not read from any document except the warrant without first obtaining the moderator’s consent.
• Listen attentively, do not whisper in the seats, and do not interrupt a speaker.
• Take conversation outside, and mute all but emergency workers’ cell phones.

Nominations and Elections. No second is required for a nomination, but the moderator may request or require a candidate’s consent to run (and if elected to serve), as a safeguard not only against the possibility that a nominee who is present will decide not to accept an office once won, but also as a safeguard against election of an absent person who when notified declines the office.

Written Ballot. State law requires the moderator, selectmen, and school committee members to be elected by written ballot, even if there is only one nominee. On motion and a majority of votes cast, or by unanimous consent, the meeting can determine to require written ballot voting on other offices or on any business or other article on the warrant. Do not fold, and do not allow another to fold, your ballot together with another, or they may both be invalidated.

Appeal. A voter who thinks it appropriate to follow a procedure other than one announced by the moderator may seek to be recognized and then move a procedure the voter believes more appropriate.

Methods of Voting. These are, in increasing order of certainty (and, for most, of the time required): voice vote, show of hands, rising (or standing) vote, division of the house, and written ballot vote.

Challenge. A voter who thinks the moderator has not correctly determined the outcome of a voice or other vote short of an actual count and who wishes to challenge the moderator’s determination should immediately seek to be recognized, and when recognized, say “I doubt it.” The moderator will then determine whether at least six other voters agree. If so, the moderator will make the determination more certain by using a designated other method of voting.
Sheila Bourque’s Resignation

March 23, 2021

Town of Raymond, Maine
401 Webbs Mills Road
Raymond, Maine 04071

Sue Look, Town Clerk

This is to advise you that we are no longer residents of Maine.
We continue to own the house at 63 Hancock Rd., Raymond, ME 04071.

However, our primary mailing address is now:
6113 N Serendipity Ln.
Tucson, AZ 85704
