3. Consideration to execute a long-term lease with the Maine Department of Inland Fisheries and Wildlife for Jordan Bay boat launch and beach access area, which includes the responsibility for the ongoing management and operation of the facility.

DISCUSSION: Mr. Pomerleau questioned on page 4 number 4 whether Raymond could close the facility if the parking lot was filled without causing IF &W to site Raymond as at fault for "closing the facility" according to this contract. Mr. Pomerleau also questioned on page 5 number 7 whether Raymond would have to run the facility without necessary IF&W repairs/renovation because of the 12 month quit timing. He felt that IF&W could delay necessary work to the point where Raymond would have to keep the facility open even with dangerous or non-functioning aspects of the facility. Mr. Poore felt that these items could be dealt with prior to the scheduled closing on March 28<sup>th</sup>. Mr. Poore felt that Raymond could possibly close that part of the facility in disrepair and keep the rest open but would see what IF&W thought.
