

Town of Raymond Energy Compliance Certificate

- This Certificate illustrates the minimum listing requirements if IECC 401.3.
- This Certificate must be posted on or in the electrical distribution panel. It shall not cover or obstruct the visibility of the circuit directory panel, service disconnect label, or other required labels.
- The Certificate shall be completed by the builder or registered design professional.
- The Certificate shall list list the predominant R-values for insulation listed below. Where there is more than one value for each component, the Certificate shall list the value covering the largest area.
- The Certificate shall list the types and efficiencies of the heating, cooling and service water heating equipment.
- Where a gas-fired unvented room heater, electric furnace, or baseboard electric heater is installed in the residence, the Certificate shall list all those as appropriate. Efficiencies for the appliances shall not be listed.
