Date: ____/____/____

Code Enforcement Officer: _____

This permit is granted with the understanding of the Town and the permittee that the street will be restored to its original surface and condition. The permittee will be responsible for maintaining that portion of the street that is disturbed, for a period of twelve (12) months after the work is completed. Maintaining means if the elevation of the street changes from the original condition, the permittee will restore that portion of the street within seven days of notification by the Town. If the permittee fails to restore the street within the specified period of time, the Town may restore that portion and collect the costs from the permittee by direct billing or a tax lien against the property.
